WATER RIGHT LICENSE

WATER RIGHT NO. 84-07211

Priority: August 18, 1988

Maximum Diversion Rate:
Maximum Diversion Volume:¹

0.04 CFS
4.0 AF

This is to certify, that WAYNE B. WEATHERS

HCR 11 BOX 59B

KAMIAH, ID 83536

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated August 18, 1988; and has submitted Proof of Beneficial Use on January 18, 1990. An examination indicates that the works have a diversion capacity of .040 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 11/01	0.02 CFS	3.0 AF
STOCKWATER	01/01 to 12/31	0.02 CFS	0.4 AF
DOMESTIC	01/01 to 12/31	0.04 CFS	0.6 AF
	Totals	0.04 CFS	4.0 AF

LOCATION OF POINT(S) OF DIVERSION:

NWNW , Sec. 26, Township 34N, Range 04E
IDAHO County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
34N	04E	26	NWNW	1		1

Total number of acres irrigated: 1

PLACE OF USE: STOCKWATER, same as IRRIGATION use

PLACE OF USE: DOMESTIC, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

NOT RECORDED

SEP 05 1991

State of Idaho
Department of Water Resources

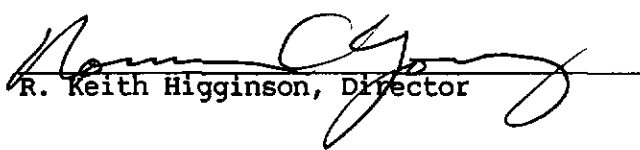

WATER RIGHT LICENSE
WATER RIGHT NO. 84-07211

CONDITIONS/REMARKS:

5. Stockwater use is for 18 range cattle, 9 goats and 100 rabbits;
domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 28th
day of AUGUST, 1991.

Acting for

R. Keith Higginson, Director

SEP 05 1991

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

Ident. No.

84-7211

APPROVED

To appropriate the public waters of the State of Idaho

1. Name of applicant WAYNE B. WEATHERS Phone 208 935 0856

Post office address HCR 11 Box 59 B KAMIAH ID 83536

2. Source of water supply GROUNDED WATER which is a tributary of N/A

3. Location of point of diversion is N $\frac{1}{2}$ of NW $\frac{1}{4}$ of NN $\frac{1}{4}$, Govt. Lot _____

Sec. 26 Township 34 N Range 4 E B.M. IDAHO County; additional points of diversion if any: NONE

4. Water will be used for the following purposes:

Allow 0.04 cfs*

Amount 0.06 for DOMESTIC purposes from JAN 1 to DEC 31 (both dates inclusive)

(cfs or acre-feet per annum)

Allow 0.82 cfs*

Amount 0.82 for STOCK WATER purposes from JAN 1 to DEC 31 (both dates inclusive)

(cfs or acre-feet per annum)

Amount 0.06 for IRRIGATION purposes from MAR 15 to NOV 15 (both dates inclusive)

(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)

(cfs or acre-feet per annum)

Allow 0.12 cfs*

5. Total quantity to be appropriated is (a) 0.18 and/or (b) _____

cubic feet per second

acre feet per annum

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. well & Pump

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total

reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:

_____ to _____ inclusive.

c. Proposed well diameter is 6 inches; proposed depth of well is 135 feet.

d. Is ground water with a temperature of greater than 90°F being sought? NO

7. Time required for the completion of the works and application of the water to the proposed beneficial use is

Allow 1 yr. - kw

0 ~~10~~ 12 ~~12~~ 12 years (minimum 1 year). Since 7/76

MAR 17 1989

*per corres. of 12/6/88 - kw 2/2/89

8. Description of proposed uses (if irrigation only, go to item 9):

- a. Hydropower; show total feet of head and proposed capacity in KW. NA
- b. Stockwatering; list number and kind of livestock. 5 HORSES 25 CATTLE 10 GOATS + CHICKENS PIGS + DOGS
- c. Municipal; show name of municipality. NA
- d. Domestic; show number of households. 1 HOUSEHOLD
- e. Other; describe fully. IRRIGATION FOR ORCHARD, GARDEN & MAY

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RANGE	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
34N	4E	26						3 ⁰⁵											3

Total number of acres to be irrigated 3

10. Describe any other water rights used for the same purposes as described above. NONE

11. a. Who owns the property at the point of diversion? ME

b. Who owns the land to be irrigated or place of use? ME

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing. _____

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 84-7211, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before March 1, 19 90.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other:

Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

The maximum rate of diversion for domestic purposes under this permit shall not exceed 0.04 cfs.

The maximum rate of diversion for stockwater purposes under this permit shall not exceed 0.02 cfs.

Witness my hand this 6th day of February 1989.

J. R. Saxton

DEPARTMENT OF WATER RESOURCES

Department of Water Resources

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources will consider this form as a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

Permit No. 84-07211

Telephone No. 208 935 0856

Name(s) of Permit Holder(s): WAYNE B WEATHERS

Post Office Address: HCR 11 BOX 59B KAMIAH ID 83536

Source of Water: WELL WITH PUMP 120' DEEP DISTRIBUTED THRU PIPE

If ground water, well driller's name: UNBERKOTT Date drilled: 7-25-76

Extent of Use:

Domestic 1 (No. of households)

Irrigation 1 (No. of acres)

Stockwater 20 HUNTER COWS GOATS
(No. and type of stock) EI
+ RABBIT PHEASANTS

Other

Total rate and/or volume for which proof is submitted 0.04 cfs _____ acre/feet

Show date water was first diverted and beneficially used under this permit: 7-25-76

One of the following may be a condition of approval of your permit:

Measuring device: Required? Yes No Installed? Yes No

OR

Flow Measurement Port: Required? Yes No Installed? Yes No

Fee Enclosed: \$ _____ (See License Examination Fee Schedule)

Person to contact to accompany the Department representative during the field examination:

WAYNE B WEATHERS 935 0856
Name Telephone No.

HCR 11 BOX 59B KAMIAH ID 83536
Address

The above information is my true statement of the extent to which the above numbered permit has been developed and relinquish any undeveloped portion of the permit to the state of Idaho.

Kamiah, ID 83536

Dear Mr. Weathers:

Re: Permit No. 84-7211

Returned is the proof of beneficial use form received in this office on January 18, 1990. Before the department will process the proof form, additional information and a signature is needed.

Please refer to the enclosed copy of your permit. Note item 4 which limits the diversion rate for a domestic use to 0.04 cfs, for stockwater to 0.02 cfs and allows 0.06 cfs for irrigation for a total allowable rate of 0.12 cfs. Your note states that your well tested at 35 gpm, which when converted to cfs equals about 0.08 cfs. For the department to license the permit at 0.08 cfs, there is a \$50 license exam fee.

Complete the form by indicating the total rate for which proof is submitted and signing the form. If the rate is greater than 0.04 cfs, a fee is required for the department to conduct the field inspection prior to licensing. If less, no fee is required.

If you have any matters to discuss concerning this file, please contact me.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 84-07211

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 84-07211

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed.

Sincerely,

GARY SPACKMAN, Supervisor
Water Rights Permits Section

Re: Permit #84-07211

Dear Mr. Weathers:

I regret to inform you that the recognized maximum diversion rate for one home is 0.04 cfs (approximately 18 gal/minute), and a diversion rate of 0.02 cfs (9 gal/minute) is recognized as being sufficient for the amount of stock you have listed on your application. You may file for more than this amount for domestic and stock watering purposes if you wish, but it may not be approved unless you provide evidence that the excess water is needed.

This evidence must be received by this office, with any other information you deem appropriate, within 15 days of the above date. If we receive no communication from you within that time we will reduce the diversion rates on your application accordingly.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent

TO Northern

SUBJECT App. 84-7211

① "Q" for single family domestic is excessive — why do they need more than 0.04 cfs?

② "Q" for stock use is excessive — should be limited to 0.02 cfs...

③ We could allow 0.09 cfs for irrigation purposes if applicant wants that much. Please review & revise

R. KEITH HIGGINSON
Director

Dear Claimant:

The Department of Water Resources acknowledges receipt of your water right application for permit.

This office is currently in the process of advertising the application in the local county newspaper. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to the final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your receipt for the fee involved in filing this application.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

ROBERT G. HAYNES, P.E.
Regional Manager

August 25, 1988

Mr. Wayne B. Weathers
HCR 11 Box 59B
Kamiah, Id. 83536

Mr. Weathers:

Your letter to Mr. Allen Beardslee concerning water rights has been directed to me for response.

The Application for Permit form which you filed will ultimately result in a licensed water right for the property filed on if all prerequisites are met.

When an application is filed, the Department begins the processing by having it advertised in the county newspaper where the water is diverted. In your case, it is the Idaho County Free Press. It will be advertised on September 7 & 14, 1988, and held for 10 days, pending any protests from individuals who feel that your water right may injure theirs. If no protests are received, the application is reviewed by our regional office and forwarded to the state office in Boise. The state office also reviews the application and if it meets their prerequisites for permits, the application is approved. It then becomes a permit.

The permittee may be allowed up to 5 years to complete his project. In your case, since you have indicated that your system is now in place, you are allowed the minimum time of one year. Approximately 60 days prior to this date, the state office sends out computer-generated letters asking if the system is complete. If so, the Beneficial Use Statement which is enclosed with the letter, is completed by the permittee and returned to the State Office.

This begins the processing for the final step of licensing the water right. An examiner will do an on-site inspection of the system and write up a report of what water he has found the permittee using. This report is then forwarded to the state office and a water right license is written up for the actual uses and amounts of water the permittee is using. This license is the basis of your water right. This water right license can only be lost through five consecutive years of non-use, in which case it is considered to be abandoned.

Therefore, once a water right is licensed, it becomes part of the real property and it is not reviewed nor is it renewed every five years.

MAR 17 1989

Mr. Wayne B. Weathers
Page Two
August 26, 1988

In reference to your second question about a neighbor drilling a well and draining your well, if he should drill a well after your well is drilled, he could not possibly have pre-1963 water rights on his well, unless it was a replacement well for one drilled prior to 1963. The priority date is established when water from the well is beneficially used. Therefore, his date of priority for a well drilled after your well (other than a replacement well referred to above) would be inferior to your water right for your well.

In any event, the courts have decided that water right matters are so delicate that any disputes between water right holders should be handled by the court system. Therefore, if a neighbor drilled a well which affected the output of your well, you would have to sue him in civil court to prove that was the case. However, you would be able to use your filed water right as evidence of when you first started using the water.

I hope I have answered the questions you posed in your letter. If you have any further questions, please do not hesitate to contact me.

Sincerely,

ROBERT G. HAYNES, P.E.
Regional Manager
