CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 84-7201, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before September 1, 19 90.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
The issuance of this permit in no way grants any right-of-way or easement across the land of another.

Witness my hand this 30th day of August, 1988.

Dear Mr. or Mrs. Halversen:

Re: Permit No. 84-7201

On November 27, 1990, the department wrote you advising that either an additional fee was required or the rate of diversion should be reduced before the proof of beneficial use form could be accepted. Based on a notation to the proof, the form has been changed to show a rate of diversion of 0.04 cfs for which no fee is required. The \$15 submitted on August 27, 1990, will be refunded to you.

The next step is for the department to conduct the field inspection to confirm and determine the extent of beneficial use. I cannot tell just when the representative from our Northern Regional office will conduct the exam, but he will try to contact you or your representative prior to being in the area.

If you have questions, please contact me or the Northern Region office in Coeur d'Alene.

Sincerely,

RITA I. FLECK

Dear Mr. or Mrs. Halversen:

Re: Permit No. 84-7201

In response to my letter of November 16, 1990 you advise that you submitted a \$30 fee and along with the \$15 the total should be \$45 applied to the license exam fee of \$50.

Yes, you have submitted a \$30 fee. It was received on July 11, 1988 and is the fee charged for filing the Application for Permit. It helps defer the cost of advertising the application.

Note that an acceptable proof and appropriate fee were due on September 1, 1990. The \$35 portion of the licensing exam fee is needed to fulfill the proof requirement based on a diversion rate of 0.09 cfs.

Consider the rate of diversion. The diversion rate of 0.09 cfs is about 40 gpm; 0.04 cfs is about 18 gpm. If your system doesn't produce more than 18 gpm, you can request the department to reduce the rate of diversion. The rate shown on the proof, however, should be the actual rate the springs produce.

Please advise the department of your intentions by December 5.

If you have any questions concerning this matter, please contact me.

Sincerely,

RITA I. FLECK

I am sure the spring will probably
not produce more than 18 g.p.m. What
would the rate be?

Thanks.

Re: Permit No. 84-7201

The department received the proof of beneficial use form submitted on August 27, 1990 in response to the proof due notice sent on June 30, 1990.

Note the enclosed fee schedule sheet. For the diversion of 0.09 cfs, there is a license exam fee of \$50. The department received \$15 along with the proof submittal; an additional \$35 is needed to meet the appropriate fee.

I will hold the permit without action for 15 day. Contact me if you have questions.

PROOF DUE NOTICE

RE: PERMIT NO. 84-07201

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

RE: PERMIT NO. 84-07201

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

Dear Claimant:

The Department of Water Resources acknowledges receipt of your water right application for permit.

This office is currently in the process of advertising the application in the local county newspaper. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to the final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your receipt for the fee involved in filing this application.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

ROBERT G. HAYNES, P.E.
