CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 84-7200, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 19 90.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Witness my hand this 3rd day of August, 1988.

RE: PERMIT NO. 84-07200

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)765-4639.

Sincerely,

Rita Fleck

Dear Mr. Booth:

I have located the above referenced receipt and found that the \$80.00 fee you submitted on May 12, 1988, was for Permit No. 84-7200, which I previously corresponded with you about, and for two Adjudication Claims, Nos. A84-10027 and A84-10028. You can request a refund of the filing fees of the adjudication claims by submitting the enclosed form entitled "Request for Deferral of Claim". This form has been partially completed for your convenience. You will need to sign and date the form and return it to our office in order to request the refund of your filing fees. As I explained to you previously, the \$30.00 fee for your permit is not refundable.

If you have any further questions in regard to this matter, please feel free to call this office or our regional office in Coeur d'Alene.

Sincerely,

Dear Mr. Booth:

We received your letter regarding the above referenced permit on August 20, 1990. I hope that my response will answer your questions regarding this water right.

You applied for this water right on May 12, 1988. Our regional office in Coeur d'Alene advertised this permit for two consecutive weeks in the Idaho County Free Press. The \$30.00 fee which you submitted on May 12 was used to advertise the submittal of the application. We approved your permit on August 3, 1988, and sent your approval notice out on August 8, 1988. On May 25, 1989, we received your commencement of works notification. On May 31, 1990, we sent to you a "Proof Due Notice". Please note, when we issued the permit you were to submit proof of construction of works and application of the water to beneficial use on or before August 1, 1990. Since we did not receive the notice of beneficial use of this spring water by August 1, 1990, we subsequently lapsed the permit, which is the notice you were sent on August 13, 1990.

You have submitted only one fee of \$30.00 in regard to this use of water and as I mentioned above, this fee was used to advertise the submittal of the application. We cannot refund any of this fee to you.

In regard to the necessity of filing a water right on this spring, I can advise you that the only domestic use exempt from filing a water right is single family domestic use from a well.

If you have any further questions in regard to this matter, please feel free to call this office or our regional office in Coeur d'Alene.

Sincerely,

KAY WALKER

Department of water resources,

Dear Sir:

As I understand the court's decision we no longer are required to have a permit to develop a spring on our own property.

I asked for a permit after this decision because I wanted it for my own protection.

after I did not hear from you for well over a year, I went ahead and developed the spring.

This is a very small vein of water that probably yield approximately 100: gallon a day. I haven't measured it.

You still have around \$30.⁰⁰ of my money. I request you return this money as according to the paper you should do upon request.

I hope this sets this straight out.

LAPSE NOTICE

RE: PERMIT NO. 84-07200

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated May 31, 1990. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 84-07200

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 84-07200

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct you attention to the conditions of approval on the final page.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

Gary Spackman
