CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.

Re: 84-7185

Dear Water User:

We have recently completed processing in our office of the exam on your permit to use groundwater. Our report has been sent to our state office and you should receive your water right license in the near future. In a search of our records, we were unable to identify a well log for your well. The well driller who constructed the well is required as a condition of his driller's license to submit a log for every well he drills.

Would you please supply us with any of the following information you may have:

1. A copy of the well driller's report, if you have a copy in your possession.
2. The names of any previous owners of the property, in case the well driller's report was filed under a previous owner's name.
3. The name of the well drilling firm that drilled your well, and the name of the owner of the property at the time the well was drilled.

By providing us with as much of the above information as possible, we will have a more complete record of the pertinent items relative to your water right. Having this information in our files may prove to be of value to you or a subsequent owner.

If you have any questions, please do not hesitate to contact this office.

Sincerely,

Dear Applicant:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you prior to the time the examination is made so that you may demonstrate the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

RE: PERMIT NO. 84-07185

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Dear Sirs/Ms./Madams:

The well which provides water for household use and irrigation for lawn and gardens had been in use for approximately two years prior to my purchase of this property on Aug. 1, 1983. (Permit No. 84-7185)

Not knowing the capacity of this well to provide water enough to irrigate the balance of pasture, I made application for and received Permit No. 84-7186. - to divert water from the unnamed stream which forms part of the eastern and southern boundary of my property. The pasture land was plowed and planted in Sept. '84. On June 6, '85 I began to develop a system and purchased the necessary equipment. I have installed a pump, $\frac{3}{4}$ H.P., 130 feet of $1\frac{1}{2}$ " pipe with two stand pipe outlets. Rainbird sprinkler heads distribute the water.

The necessity and the beneficial potential are apparent in the enclosed photos.

Your approval requested

Dear Permit Holder:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

The 1982 Idaho Legislature added a requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
