Dear Mr. Thornton:

Groundwater is that water which is beneath the surface and does not naturally come to the surface. Since your spring is tributary to the Clearwater River, it does not appear to conform to the definition of groundwater. We are, therefore, returning your Claim to a Water Right and your Check No. 92-327 in the amount of \$30.00.

I have taken the liberty of preparing an Application for Permit, based on the information you supplied. If approved, this permit would allow you to develop a water right on the spring. Please check the Application carefully, sign it and return it to this office with a \$30.00 filing fee.

If you have any questions, please contact me at this office.

Sincerely,

TOM D. KING

Dear Mr. Thornton:

Groundwater is that water which is beneath the surface and does not naturally come to the surface. Since your spring is tributary to the Clearwater River, it does not appear to conform to the definition of groundwater. We are, therefore, returning your Claim to a Water Right and your Check No. 92-327 in the amount of \$30.00.

I have taken the liberty of preparing an Application for Permit, based on the information you supplied. If approved, this permit would allow you to develop a water right on the spring. Please check the Application carefully, sign it and return it to this office with a \$30.00 filing fee.

If you have any questions, please contact me at this office.

Sincerely,

TOM D. KING
Senior Water Resource Agent
