Dear Mr. Kries:

After being unable to reach you by phone, I am obliged to return your Application for Permit and Check No. 92-308 in the amount of \$30.00 for some corrections.

The main problem is over the units used for the amount of water. For irrigation from a well, the correct units are cubic feet per second (CFS) with 0.02 CFS per acre the acceptable quantity. Thus, you would want to appropriate a total of 0.06 CFS for your 3 acres.

Also, in Item 8.c., you entered another water right. There is no need to enter this unless that water right refers to the same well, or the same acres irrigated. According to the legal description on your other water license, this is not the case.

I should also mention that you may appropriate up to 0.04 CFS for domestic use, so you may want to increase that amount.

I also noticed that you water a sizeable number of stock. You may want to add stock water to your application.

I have gone ahead and filled in the quantities of water in pencil on a new application. If you are agreeable to the amounts, please complete the new form in ink and return it with the same filing fee.

If you have any questions, please contact me at this office.

Sincerely,

Lawrence D. Beard

Dear Mr. Kries:

After being unable to reach you by phone, I am obliged to return your Application for Permit and Check No. 92-308 in the amount of \$30.00 for some corrections.

The main problem is over the units used for the amount of water. For irrigation from a well, the correct units are cubic feet per second (CFS) with 0.02 CFS per acre the acceptable quantity. Thus, you would want to appropriate a total of 0.06 CFS for your 3 acres.

Also, in Item 5.c., you entered another water right. There is no need to enter this unless that water right refers to the same well, or the same acres irrigated. According to the legal description on your other water license, this is not the case.

I should also mention that you may appropriate up to 0.04 CFS for domestic use, so you may want to increase that amount.

I also noticed that you water a sizeable number of stock. You may want to add stock water to your application.

I have gone ahead and filled in the quantities of water in pencil on a new application. If you are agreeable to the amounts, please complete the new form in ink and return it with the same filing fee.

If you have any questions, please contact me at this office.

Sincerely,

LAWRENCE D. BEARD
