Dear Mr. Dykes

We are returning your Application for Permit for your signature and your receipt # 14181 in the amount of \$20.00.

One of the criteria for establishing a water right, according to the Idaho State Code, is that all water diverted for that right be put to a beneficial use. An amount of 0.04 cts is normally considered to be adequate for one house hold (including water for lawn, garden and house hold animals).

Unless it can be shown to the satisfaction of the Director of the department that the 0.20 cts (approx. 90 g.p.m.) is necessary for one home and that the water will not be wasted, the director may disapprove your application.

If you have any questions, please do not hesitate to contact us.

Sincerely,

Tom D. King
Senior Water Resource Agent
