Dear Mr. Rebel:

One of the conditions of approval of your water Permit No. ~~84-7057~~ (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Dear Mr Rebel,

We are herewith returning you Application for Permit for clarification and fee.

Item 3a. This item gives the location of your Point of Diversion. The Point of Diversion, or location of the well, must be identified by township, range, section and the 40 acre sectional subdivision of the section, as established by the Public Land Survey. To aid you in this matter, I would suggest that you contact the county courthouse for the proper legal description.

Item 4. Domestic use is limited to 13,000 gallons per day. This calculates to be approximately 0.04 cubic feet per second. Any diversion for domestic use which is in excess of this amount cannot be approved unless it can be shown to the satisfaction of the Director of the Department of Water Resources that the additional rate of diversion is necessary and that the water so diverted will not be wasted. I would suggest that since you indicate under item 8a4 that the domestic water is for one household that you place 0.04 cubic feet per second in the amount column in item 4.

Item 5a. This item is the sum rate of diversion of all uses listed in item 4. If you are diverting only for one household at 0.04 cfs, item 5a would be 0.04 cfs.

Item 6a. This item is for a description of how the water is appropriated and conveyed to the place of use. For instance, on a groundwater source "well, pump and pipeline to place of use".

Item 8a1. This item gives the location of the Place of Use, that is the house, cattle, and so forth. Again, I would recommend consulting the County Assessor for this description.

Item 8b. This item is to locate only the acreage which you plan to irrigate with the water for which you are applying. By filling in this item you have indicated that you do wish to irrigate five acres of land within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 14, R4E of an unknown township. However, under item 4, you have not applied for any water for irrigation. If you are in fact planning to

Page 2
September 29, 1977
Albert Rebel

irrigate five acres, under item 4 the Department is prevented by Idaho State Code from approving an application for irrigation with diversion rate in excess of 0.02 cfs per acre unless it can be shown to the satisfaction of the Director of the Department that an excessive diversion rate is required and that the water so diverted will not be wasted. For five acres, I would suggest that you apply for 0.10 cfs if you plan to irrigate.

The fee for filing is based upon the rate of diversion:

0.00 cfs to 0.20 cfs	\$10.00
0.21 cfs to 1.00 cfs	\$25.00

To make application for the permit, please make the above corrections or additions and resubmit the application with the appropriate fee to this office.

If we can be of any further assistance, please do not hesitate to contact me at 667-3484.

Sincerely,

UOM KING
