Re: Permit No. 84-7002

City of Weippe
Weippe,
Idaho 83553

Gentlemen:

One of the conditions of approval of your water Permit No. 84-7002 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

We will be unable to submit the proof of Application of Water to beneficial use before October 6, 1973. The pump has been installed and we are in the process of hooking up the motor, chlorinator, etc. We should be able to have the application to you by October 31, if not sooner.

We are sorry for the delays with this, however everything must be hooked up and operating before we can determine how many gallons it will pump, etc.

Attn: Norman C. Steadman, Mayor
Weippe, Idaho 83553

Dear Mr. Mayor:

We have received your letter dated August 2, 1973, requesting an extension of time in connection with the above referenced permit.

Please be advised that Section 42-204, Idaho Code, provides that an extension of time request be received by the Department on or before the date set for proof, which was August 1, 1973, under this permit. Therefore, as your request was not timely, the Department cannot consider granting an extension of time within which to submit proof of beneficial use of water.

As you are aware, this permit has lapsed and in order for the Department to reinstate the permit, proof must be submitted on or before October 6, 1973. Since your system is completed, we would suggest that you make proof at this time. You may indicate on the affidavit your estimated rate of diversion under the completed system.

We have enclosed a proof affidavit for your use in this matter. If you should have any questions, please feel free to contact us.

Sincerely,

BOBBY D. FLEENOR

Re: Permit No. 84-7002

Dear Mr. Higginson:

The City of Weippe would like to request an extension of time to submit the proof of application of water to beneficial use. The reasons for the extension being that there is only a 7½ hp pump on the well, and it is not pumping the well to it's capacity, therefore, the City intends to purchase a larger pump, possibly a 20 hp. We have just now acquired enough money to purchase this new pump, and must wait for a break in the hot weather to change these over.

An extension of ninety (90) days would be adequate for us to obtain the information requested on the proof of application.

Respectfully,

Norman C. Steadman
