Dear Mr. Herndon:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

You have indicated that an acceptable measuring device will be installed if it is required. An acceptable measuring device must be installed before the field exam is made, otherwise your permit will automatically lapse and be of no further force or effect.

A pump curve and pressure gauge is not considered an acceptable measuring device. We have enclosed a letter describing different types of measuring devices approved by this Department. If you have any questions, please do not hesitate to contact us.

Sincerely,

BOBBY D. FLEENOR

Re: Permit No. 84-7000

Gentlemen:

Receipt is acknowledged of your letter of December 18, 1972 in which you returned Proof of Application of Water to Beneficial Use for the reason it was not indicated the type of measuring device that had been installed.

It was my understanding that this was not necessary as your office would inspect the flow from this pump and at that time make the necessary measurement of the flow. I also talked to the pump man who installed this pump and he says he has never installed a meter on this type of operation and he suggested I ask you if the operating pressure and curve sheet on the pump would not be sufficient to measure the flow of water.

If, however, your requirements are that a meter be installed, I will do so as soon as it is practical as the system is not now in use and the transformers are all shut off. If a meter is required to be installed, then I do, by this letter, request an extension of time within which to make proof of application of water to beneficial use to permit me sufficient time to install the meter.

I am returning the proof of application as originally submitted. If this still is not satisfactory, will you please return it with a letter granting an extension of time and I will comply with your requirements.

Yours very truly

Dear Mr. Herndon:

One of the conditions of approval of your water Permit No. 84-7000 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
