We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the CLEARWATER TRIBUNE, all submitted in proof of ~~completion of work~~ and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Orofino, Idaho.

Dear Mrs. Strom:

This acknowledges the Notice of Proof of ~~Completion of Work~~ and Application of Water to Beneficial Use under Permit No. 24194. The proofs are to be made at 10:00 o'clock A.M., on the 7th day of June, 1963, before Lucile Breitenstein, Burns Building, Orofino, Idaho, Notary Public.

As of this date we have mailed the Notice to the Clearwater Tribune Orofino, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Date:

April 1, 1963

Viola L. Storm ^{DOM}
Orofino, Idaho *R 30 Box 2*

Dear Mrs. Storm:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 24194 is due not later than June 20, 1963. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated - by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Very truly yours,

GEO. N. CARTER

Dear Mrs. Strom:

We wish to acknowledge receipt of the Proof of Completion of Works in connection with Permit No. 24194.

Before approving your Proof of Completion of Works, we should have an answer to the 7th question on said proof, which states as follows - "That said works are capable of conducting to the place of intended use .24 second feet of water". (105 G.P.M.)

We would like to know if your works are capable of conducting the full amount of the filing, which is 40 inches of water to the place of use or if your works are only adequate for conducting 6 inches of water to be applied on 6 acres of land.
12 INCHES CAN BE APPLIED WITH PRESENT PUMP.
Kindly give us this information.

Orofino, Idaho
Dear Sir:-

Under the terms of your permit No. 24194 you are required to complete you diversion works on or before June 20, 1958. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

MARK R. KULP.
