NOTICE FOR PUBLICATION NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that on the 1st day of April, 1966, at Headquarters, County of Clearwater, State of Idaho, before Notary Public, Carl Pease, proof will be submitted of the application to beneficial use of 17 cubic feet per second of the waters of Quartz Creek, Tributary of Orofino Creek in accordance with the terms and conditions of Permit No. 32301 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and post office address of the person or corporation holding said permit is Potlatch Forests, Inc., Box 600, Lewiston, Idaho.

The use to which said water has been applied is Plywood Mill Process & Fire Protection.

The amount applied to beneficial use is 15.4 CFS.

The point of diversion of said water is 2,205.50 feet from the SE Corner of Section 21, TWP 37N, Range 5E, B.M. and is in the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ and the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 21, TWP

Weed Chemical Business Goes To Moscow Firm

Weed chemical bid was awarded to Williams, Inc. of Moscow Monday by the Clearwater county commissioners.

The bid was the only one entered and the same firm supplied the chemicals last year. 2-4-D was bid at \$2.34 in 30 gallon lots; Amino Triazole, \$1.90 lb.; Simazine & Atroline, \$2.75 lb.; Avadex B. W., \$13.10 gal.; L.V. Ester,

NOTICE FOR PUBLICATION

Notice is hereby given that at 1:30 p.m., on the 2nd day of March, 1966, at Headquarters, County of Clearwater, State of Idaho, before Notary Public - Carl Pease, proof will be submitted of the completion of works for the diversion of 17 cubic feet per second of the waters of Quartz Creek, a tributary of Orofino Creek, in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is Potlatch Forests, Inc.

2. The postoffice address of such person or principal place of business of such corporation is Box 600, County of Nez Perce, State of Idaho.

3. The number of such permit is 32301, and the date set for the completion of such work is October 2, 1965.

4. Said water is to be used for plywood mill process and fire protection purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 17 cubic feet per second.

6. The amount of lands for which said water is available is 40 acres, particularly described as follows: a mill site surround-

ing a point 1000 feet from the SE corner of section 21, TWP 37N, Range 5E, B.M. SE 1/4 of SE 1/4 of section 21, and NE 1/4 of NE 1/4 of

TRANSFER NO. 4643
WATER RIGHT NO. 84-02035

CONDITIONS OF APPROVAL AND REMARKS

1. After specific notification by the department, the right holder shall annually report the amount of water diverted to the department.
2. Approval of this transfer in no way grants any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
3. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
4. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
5. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
6. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
7. The total instantaneous diversion of water from all points of diversion under Transfer No. 4643 shall not exceed a total of 15.39 cfs or 1.89 cfs for industrial use, nor a total combined annual volume of 1,035.0 af for industrial use.
8. Three points of diversion are located within NWSE, S21, T37N, ROSE.

Dated this 28th day of August, 1995.

PART 1

6. General Information:

- a. Description of diversion system The two new diversion points consist of a pipeline extending to the edge of the creek, below water surface level, through which water gravity flows to a low head pump sump approximately 30 feet from the creek. The low head pump then transports the water to a small storage/irrigation pond.
- b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? _____ Yes _____ No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.
- c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer:
No land is presently irrigated. Water now taken from Quartz Creek is used solely for industrial processes and fire protection. The fire protection portion of the water right will be unchanged. A portion of the industrial water right will be used to irrigate existing log decks at two sites.
- d. Remarks:
Although the primary purpose of this transfer request is to provide irrigation water to the log decks, and thereby improve storage conditions, a secondary purpose is to provide some fire prevention to the log decks.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

**RE: POTLATCH CORPORATION WATER RIGHT TRANSFER APPLICATION
 AT JAYPE**

Dear Mr. Beardsly:

I have reviewed the water right transfer application and your corrections. I see no problem with the corrections with the exception of Item 4, Points of Diversion. I have attached another map showing the locations of all existing and new diversion points.

There are six total creek out-take points. Three of these lie within the same 40-acre designation. Therefore, four point of diversion designations should be filed. They are listed below:

Legal Description	County	Description
SENWSE Sec 21 T37N R05E (on extg. right)	Clearwater	Existing fire ponds w/ two fire pump houses and one new irrigation pump (3 total out-takes).
SFSWSE Sec 21 T37N R05E (on extg. right)	Clearwater	Existing industrial diversion point (1 out-take).
SENWNE Sec 28 T37N R05E	Clearwater	New irrigation pump for lower Jaype log deck (1 out-take).
SENESE Sec 16 T37N R05E	Clearwater	New irrigation pump for Revling log deck (1 out-take).

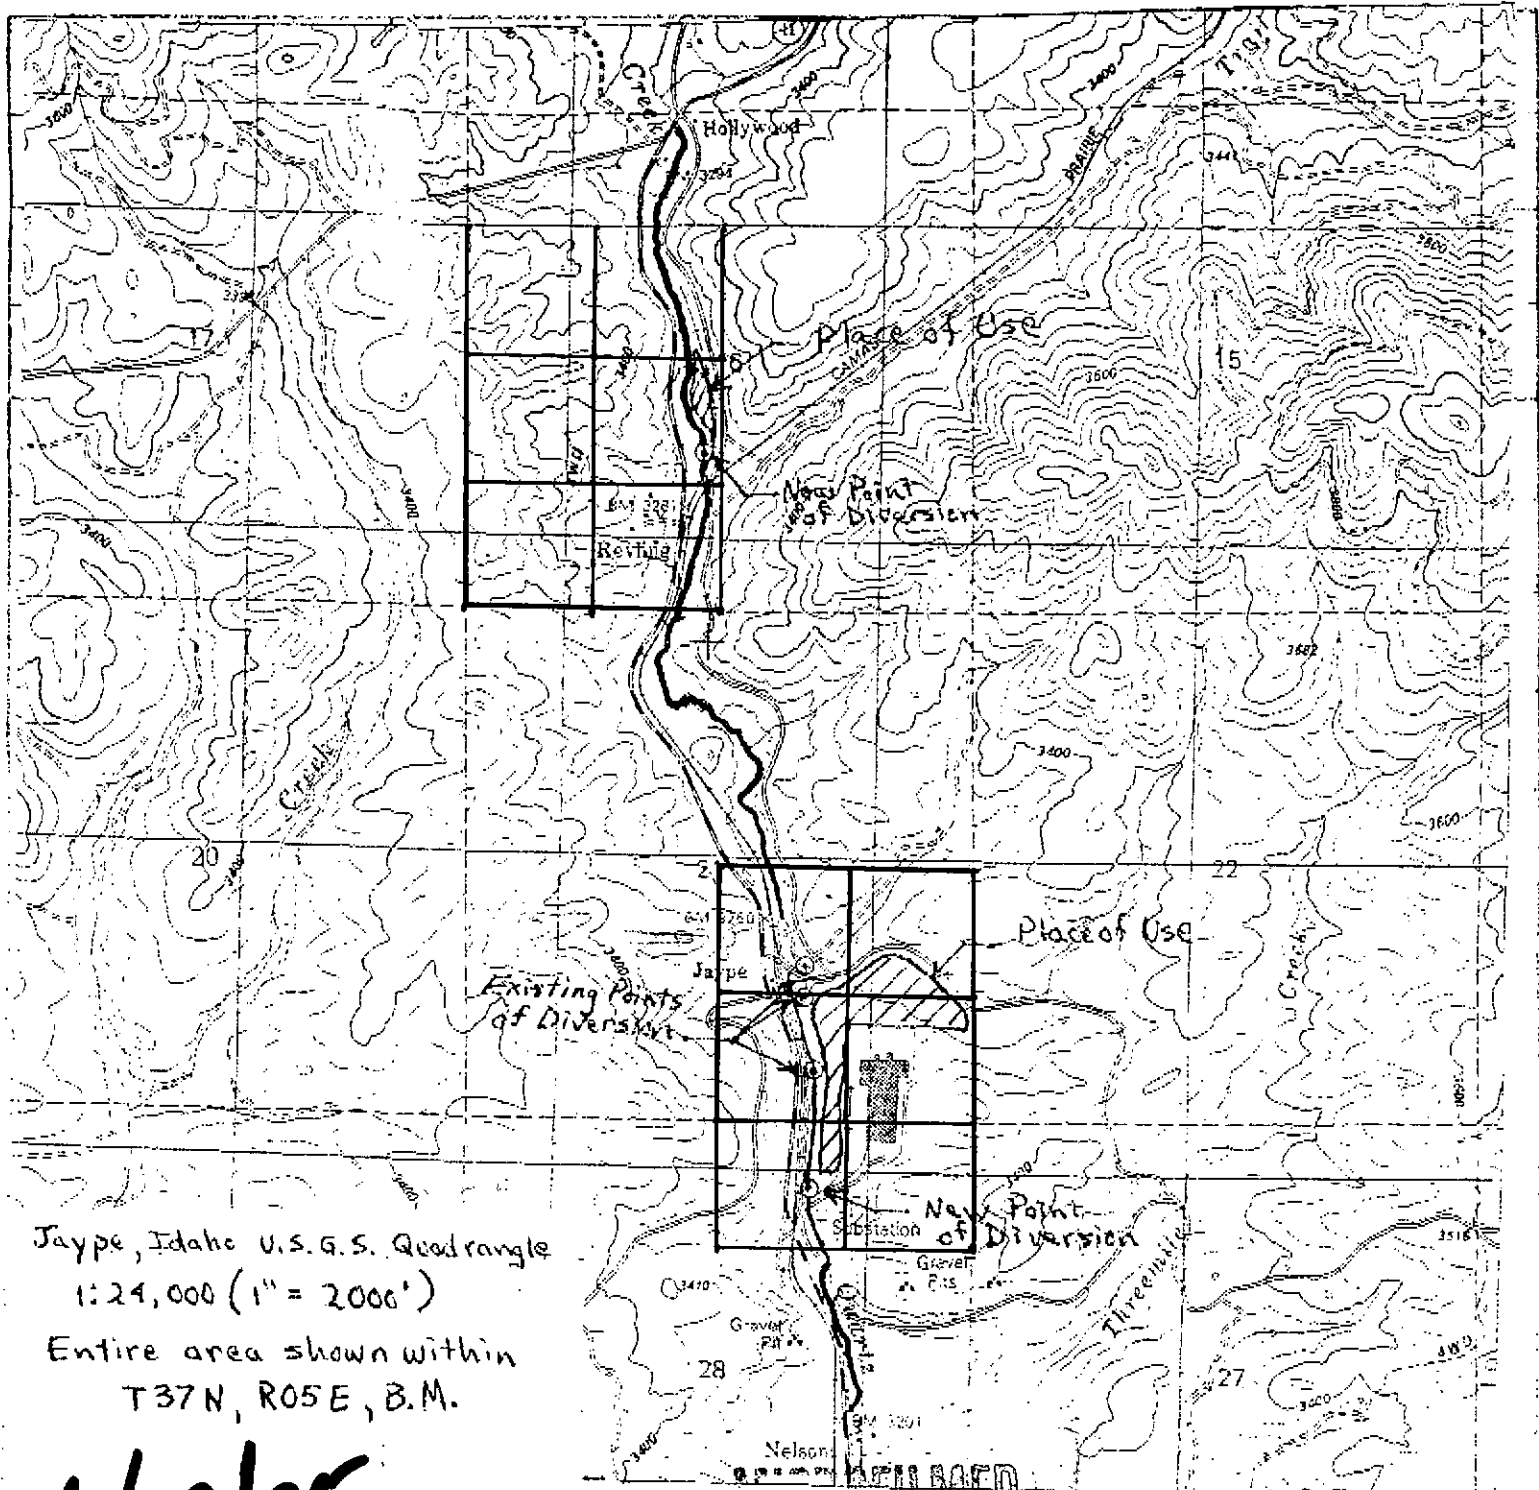

The descriptions you have written in are difficult to read but appear to be SENE Sec. 28 and SESE Sec. 21. The two descriptions you have written in do not appear to have Quartz Creek running through them which, unless I am mistaken, would preclude a diversion point being at those locations.

RE: POTLATCH CORPORATION WATER RIGHT TRANSFER APPLICATION AT JAYPE

Dear Mr. Beardsly:

I have reviewed the water right transfer application and your corrections. I see no problem with the corrections with the exception of Item 4, Points of Diversion. I have attached another map showing the locations of all existing and new diversion points.

There are six total creek out-take points. Three of these lie within the same 40-acre designation. Therefore, four point of diversion designations should be filed. They are listed below:

Legal Description	County	Description
SENWSE Sec 21 T37N R05E (on extg. right)	Clearwater	Existing fire ponds w/ two fire pump houses and one new irrigation pump (3 total out-takes).
SESWSE Sec 21 T37N R05E (on extg. right)	Clearwater	Existing industrial diversion point (1 out-take).
SENWNE Sec 28 T37N R05E	Clearwater	New irrigation pump for lower Jaype log deck (1 out-take).
SENESE Sec 16 T37N R05E	Clearwater	New irrigation pump for Revling log deck (1 out-take).

The descriptions you have written in are difficult to read but appear to be NENE Sec. 28 and SESE Sec. 21. The two descriptions you have written in do not appear to have Quartz Creek running through them which, unless I am mistaken, would preclude a diversion point being at those locations.

OCT 16 1995

If you agree with these legal descriptions please let me know. I will forward a revised first page of the application if you wish. A corrected map will also be sent to you.

Please contact me if you have any comments or questions.

Sincerely,

KIMBALL ENGINEERING, P.A.

OCT 16 1995

State of Idaho

License and Certificate of Water Right

Water License No. 32301

Priority March 30, 1965

Amount 1.89 c.f.s. for industrial
13.5 c.f.s. for fire protection

THIS IS TO CERTIFY that

Potlatch Forests, Inc.

of Lewiston, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated March 30, 1965; that Permit No. 32301 was issued under said application; that Certificate of Completion of Works, with a carrying capacity of 13.5 & 1.89 second feet, was issued thereunder on April 15, 1968, showing that said works were completed on the 2 day of March, 1966; and that on the 1 day of April, 1966 Potlatch Forests, Inc. by Gerald F. Scheelke, Engineer

of Lewiston, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of a right to the use of the waters of Quartz Creek

Clearwater River
a tributary of Orofino Creek into the / for the purpose of industrial & fire protection, under Use Permit No. 32301 of the Department of Reclamation, and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in ~~Volume~~ of ~~Licenses~~ at Page, on the 15 day of April, 1968.

The right hereby confirmed dates from March 30, 1965.

The Point of Diversion is located 2 points one in NW $\frac{1}{4}$ SE $\frac{1}{4}$ and one in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 21, Twp. 37N, R. 5 E, B.M. Clearwater County.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 1.89 for industrial & 13.5 for fire protection cubic feet per second.

Description and location of use:

Twp.	Range	Section	Forty-Acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
37 N	5 E	21	SE $\frac{1}{4}$ SE $\frac{1}{4}$	Industrial and fire protection	
		28	NE $\frac{1}{4}$ NE $\frac{1}{4}$		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this 15 day of April, 1968.

R. Keith Higgins
State Reclamation Engineer.

Application For Permit To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 40449
PERMIT No. 32301
DISTRICT No.

1. Name of Applicant: Potlatch Forests, Inc.,

Postoffice address: Lewiston

County: Nez Perce

State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation: August 10, 1955 - State of Delaware

(b) Amount of capital stock: \$3,647,538

(c) Amount paid in: 146,725,517

(d) Names and addresses of directors: See List Attached

II. The financial resources of the applicant are:

(a) Cash on hand: \$5,399,053

(c) Bond to be issued: None

(b) Treasury stock: None

(d) Other resources: Total Assets - \$208,609,981
Section 13.5

2. Quantity of water claimed: Process Water 3.5 - Fire Protection 13.5 cubic feet per second.

3. Source of water supply: Quartz Creek

which is a tributary of Orofino Creek, into
the Clearwater River

4. Location of point of diversion: 2,205.50

feet distant from the SE

corner of Section 21, T. 37 N, R. 5 E, B.M., and is in the NW $\frac{1}{4}$ of SE $\frac{1}{4}$ and SW $\frac{1}{4}$ of SE $\frac{1}{4}$

of section 21, T. 37 N., R. 5 E., B. M., County of Clearwater

5. Water is to be used for Boiler Feedwater, mill use and fire protection

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: 1,000 feet distant from SE corner of Section 21

T. 37 N, R. 5 E, B.M., in the NE $\frac{1}{4}$ of NE $\frac{1}{4}$, Section 28
SE $\frac{1}{4}$ of Section 21, T. 37 N, R. 5 E, B.M.

(b) Amount of power generated: None H.P., under None feet head.

(c) Water is to be returned to Quartz Creek at a point 2,110 feet

distant from the NE corner of Section 28, T. 37 N., R. 5 E., B.M., in the NW $\frac{1}{4}$ of SE $\frac{1}{4}$
of Section 28, T. 37 N., R. 5 E., B.M.

7. Estimated cost of works: \$100,000

8. Kind of works:

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;

dimensions of flume:

Diameter of pipe inches; length of conduit miles.

MEMORANDUM

TO: FILE NO. 84-02035

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER NO. 4643

DATE: August 25, 1995

=====

Transfer No. 4643 was filed to add additional points of diversion and add new locations for industrial and fire protection uses under Right No. 84-02035. Three new pumps are being added to water log decks to improve storage conditions and maintain the value of the logs while in storage prior to use. All points of diversion and places of use are for both fire protection and industrial use.

Season of use and industrial use diversion volume were not designated on the license. The season has been identified as year round for both uses. The actual diversion volume for industrial use was quantified by Kimball Engineering that prepared the transfer application for Potlatch Corporation. The volume was calculated using the widest parameters of actual operation of the mill and use of water on the log decks.

The very nature of fire protection means that water will be diverted for this use infrequently. The approval was conditioned to limit the total maximum diversion rate from all points of diversion for the combined uses, and more specifically limiting the maximum total diversion rate for the smaller and more frequently diverted industrial use.

Other recommended conditions include future reporting, right-of-way and standard transfer conditions.

Pam Scaggs
State of Idaho, Department of Water Resources
1301 N. Orchard
Boise, ID 83706**RE: POTLATCH CORPORATION WATER RIGHT TRANSFER APPLICATION AT
JAYPE**

Dear Ms. Scaggs:

I hope the following information answers the questions you had for me in our telephone conversation August 23. As you requested I have estimated a peak water usage assuming the highest demand possible.

Existing water right:	1.89 cfs (1/1 through 12/31)
Annual quantity:	446 million gallons (MG)
	1430 Ac•ft
<u>Mill Water Usage</u>	$1.89 \text{ cfs} \times 365 \times 1.9835 = 1368.3 \text{ afa} = \text{Vol}$
Estimated peak mill usage:	0.49 mgd
Peak annual usage:	179 MG (assumes 365 days/year)

 $.49 \text{ cfs} \times 365 \times 1.9835 = 354.7 \text{ afa}$
Log Deck Irrigation

Three separate irrigation zones will be operated. Two will be at the Jaype site and the other at Revling, located approximately 1¼ miles north of Jaype. Each system is expected to recycle approximately 70% of the irrigated water. As a worst case scenario, the two decks at Jaype would begin irrigation March 1 and not end until October 31. The Revling deck is basically a "spill-over" area and would not normally be used until July 1. The entire water right amount of 1.89 cfs will be used during the log deck irrigation season with the previously stated 0.49 cfs going to the mill. The peak annual irrigation total can be calculated as follows:

Max. daily irrigation:	1.40 cfs =	0.90 mgd
	245 days x 0.90 mgd =	221 MG
Total Combined Annual Peak Water Usage =		400 MG (1,228 ac•ft)
	$1.40 \text{ cfs} \times 245 \times 1.9835 = 680.3 \text{ afa}$	

c:\p50\idwr-bs1.ltr

Mill Vol = 354.7 afa
Log Decks = 680.3 afa

Maximum Total Industrial Vol = 1035.0 afa

MICROFILMED

OCT 16 1995

1.40 cfs $\left\{ \begin{array}{l} .93 \text{ cfs (2 Decks)} \times 153 \text{ days} \times 1.9835 = 282.2 \text{ afa} \\ .47 \text{ cfs (1 Deck)} \times 245 \text{ days} \times 1.9835 = 228.4 \text{ afa} \end{array} \right.$ General Use Most Years

$\frac{510.6 \text{ afa}}{+ 354.7 \text{ afa}} = 865.3 \text{ afa}$

Total maximum water usage per year is the sum of the mill use and the three log deck irrigation systems. This total, approximately 86% of the existing water right, is much higher than the expected annual usage. Irrigation of the two Jaype log decks would ordinarily begin around May 1 and end toward the end of September. The mill operates, for the most part, every day of the year. The expected total annual water usage is 317 MG (973 ac•ft). This amounts to 68% of the existing water right.

Please contact me if you have any questions or require further information.

Sincerely,

KIMBALL ENGINEERING, P.A.

Place of use location for FIRE PROTECTION is the same location as described for: INDUSTRIAL

Pou County: CLEARWATER

Conditions of Approval:

- T028 - After specific notification by the department, the right holder shall annually report the amount of water diverted to the department.
- T04 - Approval of this transfer in no way grants any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
- T07 - The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
- T08 - Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
- T09 - Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
- T17 - Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.

Remarks: The total instantaneous diversion of water from all points of diversion under Transfer No. 4643 shall not exceed a total of 15.39 cfs or 1.89 cfs for industrial use, nor a total combined annual volume of 1,035.0 af for industrial use.

Re: Water Appropriation Application No. 84-02035 - TRANSFER NO. 4643

Dear Mr. Kelly:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Transfer of Water Right.

Enclosed is Receipt No: N008834 as well as Receipt No. N009073, originally sent for a temporary water right permit, which fee was also applied to satisfy the \$100 fee required for this Transfer Application.

Your transfer application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resources Agent

Re: Transfer #4643 for Water Right 84-02035

Dear Mr. Kelly:

We are returning your Application for Transfer of Water Right with reference to the above Water Right.

It is necessary that your signature be notarized. Please have this done and return the application to our office at your earliest convenience.

Since the transfer fee is \$100.00, and we only received \$50.00 with the original transfer application, rather than refund the \$50.00 fee for your temporary application for water right, we have applied that toward this transfer fee, satisfying the fee requirement for the transfer.

No temporary water right will be issued due to the fact that the nature of use is permanent, rather than temporary.

If you have any questions, please contact me at this office.

Sincerely,

Allen Beardslee
Senior Water Resource Agent

PART 1**6. General Information:**

- a. Description of diversion system The two new diversion points consist of a pipeline extending to the edge of the creek, below water surface level, through which water gravity flows to a low head pump sump approximately 30 feet from the creek. The low head pump then transports the water to a small storage/irrigation pond.
- b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? _____ Yes _____ No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.
- c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer:
No land is presently irrigated. Water now taken from Quartz Creek is used solely for industrial processes and fire protection. The fire protection portion of the water right will be unchanged. A portion of the industrial water right will be used to irrigate existing log decks at two sites.
- d. Remarks:
Although the primary purpose of this transfer request is to provide irrigation water to the log decks, and thereby improve storage conditions, a secondary purpose is to provide some fire prevention to the log decks.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Transfer of Water Rights No. _____

And said application is hereby _____, subject to the following limitations and conditions:

**RE: POTLATCH CORPORATION WATER RIGHT TRANSFER APPLICATION
AT JAYPE**

Dear Mr. Beardsly:

I have reviewed the water right transfer application and your corrections. I see no problem with the corrections with the exception of Item 4, Points of Diversion. I have attached another map showing the locations of all existing and new diversion points.

There are six total creek out-take points. Three of these lie within the same 40-acre designation. Therefore, four point of diversion designations should be filed. They are listed below:

Legal Description	County	Description
SENWSE Sec 21 T37N R05E (on extg. right)	Clearwater	Existing fire ponds w/ two fire pump houses and one new irrigation pump (3 total out-takes).
SESWSE Sec 21 T37N R05E (on extg. right)	Clearwater	Existing industrial diversion point (1 out-take).
SENWNE Sec 28 T37N R05E	Clearwater	New irrigation pump for lower Jaype log deck (1 out-take).
SENESE Sec 16 T37N R05E	Clearwater	New irrigation pump for Revling log deck (1 out-take).

The descriptions you have written in are difficult to read but appear to be NENE Sec. 28 and SESE Sec. 21. The two descriptions you have written in do not appear to have Quartz Creek running through them which, unless I am mistaken, would preclude a diversion point being at those locations.

**RE: WATER RIGHT TRANSFER APPLICATION FOR POTLATCH CORPORATION
AT JAYPE & REVLING**

Dear Mr. Beardsly:

Please find enclosed an Application for Transfer of a Water Right, submitted on behalf of Potlatch Corporation of Lewiston, Idaho. As I have discussed with you on the phone and as described in the application, Potlatch is proposing to draw water, under their existing water right, from Quartz Creek to irrigate log decks. Three additional points of diversion will be required to irrigate two separate decks at the Jaype site and the one at Revling. Although the application of this water can be physically described as "irrigation" it will not be used for growing harvestable crops. The primary purpose of the water is to maintain the value of the logs while they are in storage at these decking facilities. Therefore, we have termed the water use as "industrial."

As I stated in my letter to you last week regarding the Clarkia log decks, Potlatch hopes to have these systems on line this summer. We again respectfully ask that this application be processed diligently. If there are any clarifications that you need during the course of your review please do not hesitate to call me at (208) 746-9010. Thank you for your help in the answering my questions regarding this application and for time.

Sincerely,

KIMBALL ENGINEERING, P.A.

RE: TEMPORARY WATER RIGHT APPLICATION FOR POTLATCH CORPORATION AT JAYPE & REVLING

Dear Mr. Beardsly:

Please find enclosed an Application For Temporary Approval Of Water Appropriation submitted on behalf of Potlatch Corporation of Lewiston, Idaho. As we have discussed previously Potlatch Corporation plans to irrigate their log decks for purposes of retaining the value of the logs while in storage. A water right transfer application fully describing this operation has been submitted to you. As stated in that application, the transfer application only involves breaking the one diversion point into four. Neither the volume of water nor the rate of withdrawal specified in the existing water right will be exceeded.

Construction of the irrigation system is occurring now and will be operable within a week. Thank you for your attention to this temporary application and the permanent transfer application. Please contact me or Jim Kimball (772-9119, Hayden) if you have any questions or need clarification.

Sincerely,

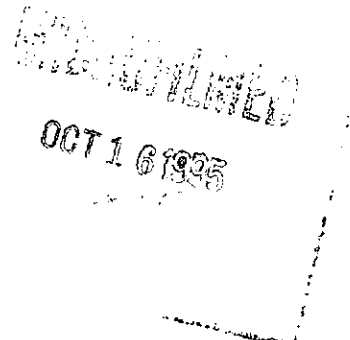

KIMBALL ENGINEERING, P.A.

APPLICATION FOR TEMPORARY APPROVAL OF WATER APPROPRIATION

(5 AF or less) Rec# N009073 \$50.00

Name of Applicant Potlatch Corporation Phone _____

Post Office address _____

1. Source of water Quartz Creek Tributary to Orofino Creek

2. Location of point of diversion NW 1/4 SE 1/4 Sec. 21 Township 37N Range 5E

B.M., County all Clearwater County also: NW 1/4 SE 1/4 Sec. 28, T37N R5E, B.M.
NE 1/4 NW 1/4 Sec. 21, T37N R5E, B.M.

3. Location of place of use Each 1/4 SE 1/4 Sec. 21 Township 37N Range 5E

B.M., County all Clearwater County also: SE 1/4 NW 1/4 & NE 1/4 SW 1/4 Sec. 16, T37N R5E, B.M.
NW 1/4 NE 1/4 Sec. 28, T37N R5E, B.M.

4. Proposed use of water The diverted water will be used to irrigate log decks to improve summer storage conditions. The use is classified as industrial.

5. Amount of water:

Maximum rate of diversion 1.4 cfs or _____ gpm.

Volume:

Max. daily vol. 2.0 AF, Total vol. 5 AF.

6. Duration of diversion: From 19 June to 30 September
Day-month Day-month

7. Proposed diverting works Steel pipeline extended to edge of creek below water surface

8. Who owns the property at the requested point of diversion? Potlatch Corporation

9. Describe the arrangement allowing access to the water The creek source borders the log decks that will be irrigated. Small pump ponds will be located within 100 feet of the creek.

10. Remarks A water right exists for 1.89 cfs (#84-02035) for industrial use at the Jaype mill and log deck. An application for transfer of water right has been submitted previously. This temporary application and the permanent transfer only seek to change diversion points.

I hereby acknowledge that I assume all risk if the diversion and use of the water under this approval injures other water rights. I certify this is a temporary use and that I am not seeking a continuing right to use water.

Gentlemen:

32301

A representative of this department has made an examination of the works covered by your permit 32301 and has found the following:

Quantity of water diverted: 1.89 c.f.s. and 13.5 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho Law: 1.89 c.f.s. and 13.5 c.f.s.

Purpose of use: 1.89 c.f.s. for industrial purposes
and 13.5 c.f.s. for fire protection

The priority date established is: March 30, 1965.

A fee totaling \$ 11.50 must be received within 30 days from the date of this letter in order that we can issue you the Certificate of Completion of Works and the License and Certificate of Water Right as described above.

Very truly yours,

Donald W. McEldowney

- No. 3. Emergency pressure sensitive pump of 7½ HP, U.S. Motor,
Layne-Bowler Pump No. D8264, 5 stage; 3" discharge through
check valve into 12" main line, rated at 75 GPM @ 130' head.

532301

The fire protection and mill water supply comes from Quartz Creek through two storage ponds dozed and compacted along the east bank. The upper pond has a capacity of 500,000 gallons, and is connected to the lower pond by a 24" GIP conduit under a 2 lane roadway, 40" wide, separating the upper and lower ponds. The lower pond has a 300,000 gallon capacity with a concrete fish ladder spillway which is used during the time of year when all water is diverted through the ponds.

The main plant building is 300'x850', and is completely equipped with automatic fire control sprinklers plus regular fire hose outlets. The boiler plant is 40'x60' building with a 180,000 ph steam boiler.

The 7½ HP pump maintains the prescribed pressure on the fire main. When pressure drops below the capacity of 7½ HP pump one of the 4 Diesel powered pumps automatically cuts in. After a time interval each of the other Diesel pumps cut in until the pressure is maintained.

The 2 30HP pumps are for mill manufacturing use, and boiler feed water. through a separate 8" main line to plant and boiler room.

Using the manufacturers' rating capacity for each pump, total capacity for all 7 pumps = 6925 gallon/ = 15.43 cfs.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
 6. Give general characteristics of soils, topography, and crops raised.

This proof is for Beneficial Use In Water District No.

1. Name of applicant Potlatch Forests, Inc. Box 600, Lewiston, Idaho
2. Source of water supply: Quartz Creek, Tributary of Orofino Creek
2,205.50 feet from the SE Corner of Section 21, T. 37 N.
3. Location of point of diversion: is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section
R. 5 E, B.M. and the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 21, T. 37 N, R. 5 E, B.M., Clearwater County
T. 37 N, R. 5 E, B.M., Clearwater County
4. Describe works as they exist, giving dimensions and capacities of same:

5. Water is used for: fire protection and Plywood Mill Process
6. State whether or not water has been turned into works of diversion:

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

A mill site surrounding a point 1,000 feet from the SE Corner of Section 21, T. 37 N,
R. 5 E, B.M., SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 21, and NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 28, T. 37 N, R. 5 E, B.M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks:

This examination was made on the day of, 19.....

(Signed)

Examiner.

T. 37 N, R. 5 E, B.M., and is in the SW 1/4 SE 1/4,
and the NW 1/4 SE 1/4, Sec. 21, T. 37 N, R. 5 E, B.M.

Use: Plywood Mill Process and Fire Protection

Extension:

Protest:

Completion of Works: Made: March 2, 1966

Other Rights:

Filed: March 30, 1965

Due: ~~c/w. October 2, 1965~~
B/U: April 2, 1966

Made: April 1, 1966

Priority: March 30, 1965

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Dear Mr. Tappan:

Re: Permit No. 32301

Would you please send to this office a copy of the completed Forms 14, "Proof of Completion of Works", Deposition of Witness and a copy of the completed Form 15, "Proof of Completion of Works", Deposition of Holder, which was sent to your office on March 3, 1966.

In checking our files we note that our copies are missing (probably inadvertently misplaced) and we need the copies to complete our files.

Thank you.

Gentlemen:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Clearwater Tribune, all submitted in proof of completion of works and beneficial use on Permit No. 32301.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

DEPOSITION OF HOLDER

Ques. 1. State your name, residence occupation and postoffice address: _____
Gerald F. Scheelke, Engineer
1109 Webster
CLARKSTON, WASHINGTON

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf:

POTLATCH FORESTS, INC. Lewiston, Idaho - Plant Engineer by Authority of
L.K.FLOAN, Vice-President Wood Products Division.

Ques. 3. State number, approval date of permit, and date of priority: No. 32301

Approved April 2, 1965 - Priority March 30, 1965

Ques. 4. State source of water supply: Quartz Creek

Give location of point of diversion, showing subdivision, section, township and range
2,205.5 feet from the SE Corner of Section 21, TWP 37N, Range 5E, B.M. and
is in the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ and the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 21, TWP 37N, Range
5E, B.M. County of Clearwater

Ques. 5. Describe your works of diversion: Dikes forming ponds, pumps and pipe
lines

_____ ; state amount of water they are capable of conveying from point of diversion to place of use: 15.4 CFS

Give name of canal or ditch or other works by which water is conducted to such place of use: Cast iron and steel
pipe lines

_____ ; if a well, state depth of well _____ ; depth and size of casing _____ ; depth to water _____ ; if pump is used, state discharge of pump: _____ ; tell how it was measured or determined _____

_____ ; if sprinkler irrigation, give number and size of nozzles and operating pressure: _____

Ques. 6. State for what purpose water is used: Plywood Mill Process & Fire Protection
(If for irrigation, name each subdivision in which used and number of acres in each subdivision that have actually been irrigated with said water: _____

32301

State nature of all improvements which have been made as a direct result of said use:
A plywood mill and a sawmill were constructed

Ques. 6-a: If this is a ground water permit, give name and address of person that drilled the well: _____

Ques. 7. If for other than irrigation purposes, show full legal description of place of use and state purpose for which water is used: Water will be used for boiler feed, plant process and fire protection. Point of use is a mill site surrounding a point 1,000 feet from the SE Corner of Section 21, TWP 37N, Range 5E, B.M. SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 21 and NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 28, TWP 37N, Range 5E, B.M.

Ques. 8: If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder:

Original Ownership

Quest. 9: State when and in what amount the water diverted under above mentioned permit has been first used: April 2, 1965 - Time used since first use:

Fire Protection was established with a capacity of 3,000 gpm and was in continuous usage thereafter.

Ques. 10. Describe all other water rights appurtenant to same place of use: _____

(sign) H. Schelke

I hereby certify that the foregoing testimony was read to the above subscribed, before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in

PERMIT NO. 32301

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Wilson J. Huntley age 60 1810 14th ave. Lewiston, Idaho

General Contractor

Ques. 2. Are you acquainted with Potlatch Forests, Inc., the holder of Permit No. 32301? How long have you known him and where does he reside?

Ans. 22 years Lewiston, Idaho

Ques. 3. Have you read or heard read said Permit No. 32301, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Quartz Creek, 2,205.5 feet from the SE Corner of Section 21, TWP 37N, Range 5E, B.M. and is in the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ and the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 21, TWP 37N, Range 5E, B.M. County of Clearwater
Diversion is by dikes and ponds with pumps and pipe lines.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 15.4 CFS Capacity

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Plywood mill process and fire protection at the mill site. This water usage resulted in the construction of the plywood and sawmill.

6 32301

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Water is used for boiler feed, log soaking, glue preparation, general plant cleanup and miscellaneous mill usages.

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. _____

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No ✓

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I understand the needs and the operation of the mill, and have witnessed April 1, 1966 that the water in the amount of 15.4 CFS has been put to its intended use.

NOTICE FOR PUBLICATION

Notice is hereby given that at 1:30 p.m., on the 2nd day of March, 1966, at Headquarters, County of Clearwater, State of Idaho, before Notary Public - Carl Pease, proof will be submitted of the completion of works for the diversion of 17 cubic feet per second of the waters of Quartz Creek, a tributary of Orofino Creek, in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is Potlatch Forests, Inc.

2. The postoffice address of such person or principal place of business of such corporation is Box 600, County of Nez Perce, State of Idaho.

3. The number of such permit is 32301, and the date set for the completion of such work is October 2, 1965.

4. Said water is to be used for plywood mill process and fire protection purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 17 cubic feet per second.

6. The amount of lands for which said water is available is 40 acres, particularly described as follows: a mill site surrounding a point 1000 feet from the SE corner of section 21, TWP 37N, Range 5E, B.M. SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of section 21, and NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of section 28, TWP 37N, Range 5E, B.M.

Ques. 3. Have you read or heard read said Permit No. 32301, and are you familiar with its terms and conditions?

Ans. Yes

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans.

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. Yes

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. One pond of 300,000 cu. ft. capacity with fish ladder, spillway, 2 - 1500 gpm pumps and 2 - 425 gpm pumps. One pond of 500,000 cu. ft. capacity with 2 - 1500 gpm pumps, 1 - 75 gpm pump and spillway.

Re: Permit No. 32301

Potlatch Forests, Inc.,
Box 600,
Lewiston, Idaho.

Gentlemen:

This acknowledges the Notice of Proof of ~~completion of work under~~ Application
of water to Beneficial Use under Permit No. 32301. The proofs are to be
made at ~~XXXXXXXXXXXXXXXXXXXX~~ on the 1st day of April, 1966, before
Carl Pease, Headquarters, Idaho Notary Public.

As of this date, we have mailed the Notice to the Clearwater Tribune
Orofino, Idaho, with instructions to publish it once a week for four consecutive
weeks prior to the date set for final proof then mail the Affidavit of Publication and
statement of costs to you.

It is important that the enclosed depositions be executed by you and two dis-
interested witnesses who are familiar with the terms of the permit and the work done
thereunder, at the place, on the date, and at the time and before the Notary, as adver-
tised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been
signed, the Notary's seal has been placed on each and that all depositions, (holder
and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF
PUBLICATION.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

**NOTICE OF PUBLICATION
NOTICE OF PROOF
APPLICATION OF WATER TO
BENEFICIAL USE**

Notice is hereby given that on the 1st day of April, 1966, at Headquarters, County of Clearwater, State of Idaho, before Notary Public, Carl Pease, proof will be submitted of the application to beneficial use of 17 cubic feet per second of the waters of Quartz Creek, Tributary of Orofino Creek in accordance with the terms and conditions of Permit No. 32301 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and post office address of the person or corporation holding said permit is Patlatch Forests, Inc., Box 600, Lewiston, Idaho.

The use to which said water has been applied is Plywood Mill Process & Fire Protection.

The amount applied to beneficial use is 15.4 CFS.

The point of diversion of said water is 2,205.50 feet from the SE Corner of Section 21, TWP 37N, Range 5E, B.M. and is in the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ and the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 21, TWP 37N, Range 5E, B.M. County of Clearwater.

The place where said water is used (LEGAL DESCRIPTION): A mill site surrounding a point 1,000 feet from the SE Corner of Section 21, TWP 37N, Range 5E, B.M. SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 21 and NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 28, TWP 37N, Range 5E, B.M.

The date of priority which said user is prepared to establish is March 30, 1965.

RE: Permit No. 32301
Potlatch Forests, Inc.

G. F. Scheelke
Plant Engineer
Potlatch Forests, Inc.
Lewiston, Idaho

Dear Mr. Scheelke:

You were advised by our letter of February 7 that a notice reminding you of a completion of works publication coming due could be disregarded. This information would have been correct as such publication has been carried out. However, upon checking our records we find that the notice of February 1 was for publication of notice of application of water to beneficial use which is an entirely different proof requiring a separate publication. A copy of our letter of February 1 is enclosed and the procedure outlined therein should be complied with.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

Re: Permit No. 32301

Dear Sir:

I received your letter dated February 1, 1966, reminding us to publish the notice of intention to show proof of completion. Enclosed is a letter from your office acknowledging that this has been done and instructing us on how to show proof properly.

It appears to me that we have done all that is necessary unless the fact that we submitted revised drawings, January 12, requires a revision to the permit. Our notice for publication would in no way be changed by the revised drawings since they only referred to changes in the construction details, not to legal descriptions, volumes or uses to which the water would be put.

Please send us the forms necessary to amend the permit, if an amendment is required, and we will prepare them immediately to meet our present proof-date of March 2.

Yours very truly,

G. F. Scheelke,
Plant Engineer

GFS:cm

Enclosure

32301

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

Re: Permit No. 32301

Date:

Feb. 1, 1966

Plotlatch Forests, Inc.
Lewiston, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 32301 is due not later than **April 2, 1966**. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated -- by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Very truly yours,

Carl E. Tappan

Reference: Water-Rights Application for Permit #32301

Gentlemen:

Our application #40449 for the above water-rights permit lists certain drawings that describe the work that was to be done. These drawings have been revised in some areas and the revised drawings are enclosed.

The ponds and spillways, as described by the original drawings, were partially completed when the 1964 Christmas-time floods far exceeded the design capabilities, and it was obvious that some changes would be necessary for a good job. The drawings were revised and work proceeded, but in the rush of the project we overlooked sending the changes to your department for approval. It is our hope that we can bring your files up-to-date with corrected drawings and satisfy all your requirements so that the permit can be processed on schedule.

You will note that the major changes were to divert all the water around the lower pond, except the water necessary to maintain the lower pond level and to fill the fish ladder. Some changes were designed into the spillway entrance to reduce the entrance losses and thereby increase the spillway capacity. The new design is far superior in ability to carry maximum flows and will be much easier from the operating standpoint.

Department of Reclamation

DEAR MR. TAPPAN:

THE NOTICE RE PERMIT NO. 32301 TO POTLATCH FORESTS, INC., DATED NOVEMBER 24, 1965, BY YOUR HAND, HAS BEEN HANDED TO ME FOR REPLY. THIS NOTICE HAS TAKEN US BY COMPLETE SURPRISE, PARTICULARLY IN VIEW OF THE FACT THAT THE INSTRUCTIONS SHEET CONCERNING PERMIT NO. 32301 FORWARDED TO OUR CLIENT FROM YOUR OFFICE INDICATED THAT THE PROOF MUST BE SUBMITTED BEFORE OCTOBER 2, 1966. A COPY OF SUCH INSTRUCTIONS SHEET IS ENCLOSED HEREWITH. IF THESE INSTRUCTIONS ARE IN ERROR AND YOU WANT PROOF SUBMITTED PRIOR TO OCTOBER 2, 1966, I WILL ASK OUR CLIENT TO PREPARE THE PROOF AND FORWARD IT TO YOU IN THE NEAR FUTURE; OTHERWISE, THEY WILL CONTINUE TO PLAN TO SUBMIT THIS PRIOR TO OCTOBER 2, 1966.

VERY TRULY YOURS,

BLAKE, GIVENS AND FEENEY

Re: Permit No. 32301

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Potlatch Forest, Inc.
Lewiston, Idaho

Boise, Idaho,

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 32301

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before October 2, 1965 ~~1966~~. Upon receipt of the blank properly filled out, notice of publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

Enc/ Form 8 and 11

Re: Permit No. 32301 ✓

To: Potlatch Forests, Inc. ✓
Lewiston, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. 32301 to appropriate the Public Waters of the State of Idaho, have not been complied with as to _____

Completion of Works Proof which was due October 2nd, 1965

you are hereby notified in compliance with Sec. 42-311, Idaho Code that said Permit No. 32301 is hereby held for cancellation.

You are hereby required to show cause before the State Reclamation Engineer on or before forty days from date of this notice why said Permit should not be cancelled.

Said Permit No. 32301 claims the use of 17.0 cubic feet per second of the waters of Quartz Creek with point of diversion located in NW $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 21., Twp. 37 N., Rge. 5 E.B.M. _____ County of _____

CLEARWATER and was approved April 2, 1965

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the 24th day of November 1965

RE: APPLICATION FOR PERMIT
POTLATCH FORESTS, INC.

DEAR MR. THOMAS:

WE RETURN HEREWITH:

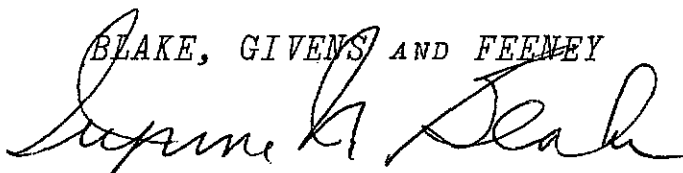

1. APPLICATION IN DUPLICATE.
2. POTLATCH FORESTS, INC.'S CHECK IN THE SUM
OF \$5.00.
3. OUR CHECK IN THE SUM OF \$4.00.

WE TRUST THAT BY THIS DATE MAPS WHICH WE FORWARDED
HAVE BEEN RECEIVED. IF NOT, PLEASE CALL COLLECT.

WE TRUST NOW THE PERMIT MAY BE ISSUED AND WOULD
APPRECIATE RECEIVING ONE COPY OF THE APPLICATION
RETURNED TO US WITH YOUR FILING MARKS THEREON.

Attn: Wynne M. Blake

Dear Mr. Blake:

Returned herewith is the application for permit in duplicate with attached check for \$5.00. Also enclosed is a supply of Form 1, with two Forms O, with each. File one application form with two maps.

The quantity of water claimed is 17.0 cubic feet per second instead of 0.79 c.f.s. mentioned in your letter. The filing fee would be \$9.00.

The maps you mentioned as being sent under separate cover have not arrived. The only map we require shows location of the streams, dams, reservoirs, etc., point of diversion and conduit to the place of use.

The applications submitted are not complete as there is no place for approval and conditions.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

GENTLEMEN:

WE ENCLOSE:

1. TWO COPIES OF APPLICATION FOR PERMIT.
2. POTLATCH FORESTS, INC.'S CHECK IN THE SUM OF \$5.00.

DRAWINGS IN SUPPORT OF APPLICATION FOR PERMIT ARE BEING FORWARDED UNDER SEPARATE COVER.

WE TRUST YOU WILL CAUSE THE ENCLOSED APPLICATION TO BE EXAMINED. IF THERE IS ANY FURTHER INFORMATION NEEDED PLEASE ADVISE AND THE SAME WILL BE FURNISHED, OTHERWISE, IN VIEW OF THE FACT THAT HEARING WOULD NOT SEEM INDICATED BY REASON OF THE FACT THAT THE AMOUNT OF WATER TO BE APPROPRIATED IS LESS THAN 25 CUBIC FEET PER SECOND (.79 CUBIC FEET PER SECOND) WE TRUST A PERMIT WILL BE ISSUED.

VERY TRULY YOURS,

LEGAL NOTICES

NOTICE FOR PUBLICATION

Notice is hereby given that at 1:30 p.m., on the 2nd day of March, 1966, at Headquarters, County of Clearwater, State of Idaho, before Notary Public - C. Pease proof will be submitted of the completion of works for the diversion of 17 cubic feet per second of the waters of Quartz Creek, a tributary of Orofino Creek, in accordance with the terms and conditions of a permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is Potlatch Forests, Inc.

2. The postoffice address of such person or principal place of business of such corporation is Box 600, County of Nez Perce, State of Idaho.

3. The number of such permits is 32301, and the date set for the completion of such work is October 2, 1965.

4. Said water is to be used for plywood mill process and fire protection purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said

works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 17 cubic feet per second.

6. The amount of lands for which said water is available is 40 acres, particularly described as follows: a mill site surrounding a point 100 feet from the SE corner of section 21, TWP 37N, Range 5E, B.M. SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of section 21, and NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of section 28, TWP 37N, Range 5E, B.M.
