CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be MICROFILMED forfeited by five years of non-use.
4. Modifications to or variance from this license must be made NOV 07 1996 within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 86-07336)
)
IN THE NAME OF ROBERT G. NYE) **ORDER OF**
) **REINSTATEMENT**
)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before February 1, 1996; and,

WHEREAS, the Department notified the permit holder on November 30, 1995, by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

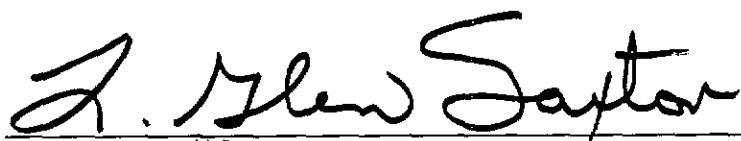

WHEREAS, the department sent a lapse notice on February 8, 1996, since an acceptable proof of beneficial use or extension of time had not been received; and,

WHEREAS, Section 42-218a, Idaho Code, provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting an acceptable proof of beneficial use on February 6, 1996;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 86-07336 is **REINSTATED** with an advance in priority to December 24, 1994.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 86-07336

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating your permit since proof of beneficial use was received after the proof due date. Please note that the priority date has been advanced to December 24, 1994.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning the field examination, please feel free to contact the NORTHERN Regional Office in Coeur d'Alene at (208) 769-1450.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

RE: Water Right No. 86-07336
Drilling Permit No. 86-94-N-0016-000

Dear Permit Holder:

I have enclosed copies of the Proof of Beneficial Use form submitted in connection with the above referenced water right along with Permit to Appropriate Water No. 86-07336 and Drilling Permit No. 86-94-N-0016-000. The proof form and your permit to appropriate water indicate water is diverted for domestic, irrigation and stockwater use with a diversion rate of 0.12 cfs, however, the drilling permit issued only authorizes a single family domestic use. Single family domestic use constitutes the diversion of 0.04 cfs or less and/or the use for one home and irrigation of up to 1/2 acre of land.

You were properly charged \$35.00 for the domestic well drilling permit, however, because of the use and amount you have indicated (domestic, irrigation and stockwater w/a rate of diversion of 0.12 cfs), the drilling permit is no longer considered strictly single family domestic. The fee for a non-domestic drilling permit is \$200.00.

Before the Department can accept the proof of beneficial use as filed, you will need to pay the additional \$165.00 fee to upgrade the drilling permit to a non-domestic. Please submit the additional fee within sixty (60) days of receipt of this letter. **Please address your correspondence to my attention.**

If you have any questions or if I can be of any assistance, please feel free to contact me at (208)327-7900.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is

Approved

Date

April 29 1994

If approved, this permit authorizes the constuction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well. All wells must be drilled a minimum distance of 100 feet from a drain field. Domestic and Public Water Supply wells must be drilled a minimum distance of 50 feet and 100 feet respectively from a septic tank.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

LAPSE NOTICE

RE: PERMIT NO. 86-07336

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated November 30, 1995. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 86-07336

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1996. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

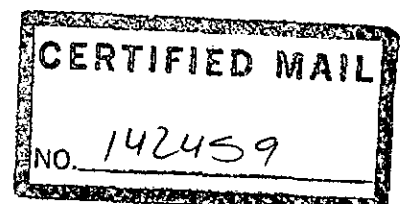

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Re: Water Appropriation Application No. 86-07336

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resources Agent
