CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 86-07315

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)769-1450.

Sincerely,

Karen L. Gustafson

Drilling Permit No. 86-89-C-0002-000

Dear Permit Holder:

Enclosed is a copy of the Proof of Beneficial Use submitted in connection with the above referenced water right. It, and your permit to appropriate water (copy enclosed), both indicate that the water is diverted for domestic use for one home and irrigation of 4.5 acres. Also enclosed is a copy of the drilling permit applied for prior to your purchase of the property. It indicates the extent of use to be domestic only. Domestic use constitutes the diversion of 0.04 cfs or less and/or the irrigation of 1/2 acre or less.

You were properly charged \$10 for the domestic well drilling permit. However, because of the use you have indicated (domestic and irrigation of 4.5 acres), the drilling permit is no longer considered strictly domestic. The charge for a non-domestic drilling permit at that time was \$100.

Before the Department can accept the proof of beneficial use as filed, you will need to pay the additional \$90 fee to upgrade the drilling permit to a non-domestic. The Department will hold your file for 30 days to allow you time in which to submit the additional fee. Please submit the additional \$90 drilling permit fee directly to me.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

ACTION OF IDWR

() Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

8. This well is approved for single family domestic use. Irrigation of more than one half acre is not approved.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 86-07315

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

Subject: Water Application for Permit Number 86-7315

Dear Mr. Thulon:

The Idaho Department of Water Resources hereby acknowledges receipt of the above-referenced Application for Permit to Appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number N5901. Please refer to your Application for Permit Number in future matters concerning this water right application.

Your Application for Permit is currently being prepared for advertising in the local county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for submittal of protests.

If your application is not protested, it will be forwarded to Boise for processing. If your Application for Permit is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before your Application for Permit can be approved. If the protest is not resolved, this Department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State Office in Boise.

If your Application for Permit is for a well (groundwater) that was constructed after July 1, 1987, you must apply for a well drilling permit upon approval of your Application for Permit if no permit was obtained by previous owners to construct the well. Well Drilling Permits can only be issued by this office to holders of approved Applications for Permit.

If I can be of further assistance, please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE

RE: Application for Permit.

Dear Sir:

We are returning your Application for Permit along with Receipt Number N005718 for the amount of \$25.00.

Your Application for Permit is not acceptable. Please review the following items:

ITEM NUMBER 2. (SOURCES OF WATER)

If you are developing a well, the source of water would be groundwater.

ITEM NUMBER 4. (DIVERSION RATES AND PURPOSES)

A typical diversion rate for "DOMESTIC PURPOSES" is 0.04 CFS which computes to (18 GPM). Domestic purposes includes up to 1/2 acre of lawn and garden irrigation, in-home uses, a diversion rate up to 0.04 CFS and a diversion volume of 13,000 gallons per day.

Using water for over 1/2 acre of irrigation is considered "IRRIGATION PURPOSES". We recommend a diversion rate of 0.03 CFS per acre of irrigation up to 5 acres and 0.02 CFS per acre for irrigation purpose over 5 acres.

The suggested irrigation season for the area you are in is from March 1 to November 30. Domestic use is commonly January 1 to December 31.

Each amount, purpose and season of use should be listed separately.

ITEM NUMBER 8b. (PLACE OF USE)

Please list the number of acres that you are going to irrigate in the appropriate 40 acre tract designation for your Place of Use.

I have enclosed a map of the area listed on you filing. You may mark the Point of Diversion and outline the Place of use on the map. The legal descriptions listed on you Application Permit must match where the map is marked.
