PLACE OF USE: DOMESTIC

TWN RGE SEC

41N 01W 26 SWNE

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for a campground at Moose Creek Reservoir.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

RE: WATER RIGHT NO. 86-07303

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 60 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur or have any questions with this information, please contact me as soon as possible. My telephone number is (208) 327-7947.

Sincerely,

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is approved Date 9/5/91

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

PROOF DUE NOTICE

RE: PERMIT NO. 86-07303

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

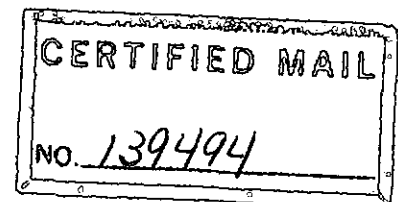

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 86-07303

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Re: Appropriation Application

Dear Applicant:

The Idaho Department of Water Resources has received your Application For Permit To Appropriate The Public Waters Of The State Of Idaho in the name of the State of Idaho. We have also received your Application for a Well Drilling Permit and your filing fees in the amount of \$65.00 for which receipt #N-004857 is enclosed.

Your appropriation application is currently being processed for advertisement in the county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before the application can be approved or denied, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If the application is not protested it would normally be forwarded to the main office in Boise for a complete review before being considered for approval by the Director. However, The stipulation in the lease between Latah County and the Dept. of lands is that the "Lessee (Latah County) shall neither drill and use a new water well nor develop and use any new source of water without the prior written consent of the Lessor (IDL)..."

This department currently has only a letter stating that upon the county meeting certain criteria a permit will be issued allowing the county to proceed with the project. Before the applications of Latah County in the name of Idaho Dept. of Lands can be approved, this department must receive a copy of that permit or written consent.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Dear Applicant:

The Idaho Department of Water Resources has received your Application For Permit To Appropriate The Public Waters Of The State Of Idaho and your filing fee in the amount of \$30.00 and your Application for a Well Drilling permit in the amount of \$35.00 for which receipt #N-004857 is enclosed. However I regret to inform you that the application is not acceptable in its present form, so I am returning it to you for clarification or completion of the following:

Since it is not possible to determine where in the section the project is to be located from the map you provide, I have taken the liberty of providing a map of the section you indicated. The point of diversion and place of use must be labeled and the place of use must be outlined as well. The point of diversion and place of use must agree with items #3 and #9.

Item #10: Describe any other water rights you possess, by number if possible. If none, then please so indicate.

Item #11: This item is in three parts, if the applicant does not own the property at either the point of diversion (part a.) or where the water is to be used (part b.) then part c. must be completed by explaining the arrangements made to allow the applicant to make this filing.

Signature: The application must be signed by the applicant listed on the application or evidence must be submitted to show that the signator has authority to sign the application.

The Application must be completed and returned to this office with any other information you deem appropriate within 30 days of the above date. Failure to communicate with this office within that time may result in the voiding of your application.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent

Re: Appropriate Applicant

Dear Mr. King:

The enclosed material was sent to the Department of Lands by mistake. Although the proposed well site is on state land, the application was submitted by the Latah County Parks and Recreation Manager. As indicated on the application, Latah County is leasing state land around Moose Creek Reservoir for the purpose of developing public recreation sites. The county wishes to drill a well that would provide safe drinking water for recreation users. The water is to be supplied at the well site only and will be operated by a hand pump.

For this project, please address your concerns to: Mr. Danny Markus, Latah County Parks and Recreation Manager, Latah County Courthouse, P.O. Box 8068, Moscow, Idaho 83843.

Also, enclosed is a copy of the state's lease to Latah County and authorization for them to proceed with this project. If additional documentation is required, please contact this office.

Sincerely,

Nolan Noren

Dear Danny:

Your proposal for drilling a well on the Moose Creek recreation area has been reviewed and has tentative approval.

Before the state can proceed with this project, a map showing the exact location and the type of water pump that will be installed, needs to be identified. When this has been determined, please notify this office in writing and the state will issue a permit for the project.

If you have any questions concerning this matter, please contact the Deary office.

STATE OF IDAHO
MISCELLANEOUS LEASE

Lease No. M-4009

ATTACHMENT A

1. **ANNUAL RENT SUBJECT TO CHANGE.**

Lessor has the right to raise or lower the annual rent to be paid by Lessee, as of the beginning of any calendar year hereunder, by providing Lessee with one hundred eighty days (180) days prior written notification of the same.

2. **USE OF PREMISES.**

The Lessee agrees to use the leased premises for a recreational site in concert with timber production and grazing except for the water surface, impoundment structure, and not more than ten acres of developed campground which will be managed exclusively for recreation. The Lessor shall manage and harvest the timber resource on the leased area so as to maintain compatibility with recreation. The Lessee may, with approval of the Lessor, construct trails for hiking and for educational use on the leased area.

3. **SUB-LEASING AND ASSIGNMENT.**

Lessee shall neither sublease the leased premises nor assign this lease without first having obtained the written consent of Lessor or its authorized agent.

4. **LANDSCAPING AND REMOVAL OF VEGETATION.**

Lessee shall neither landscape the leased premises nor remove vegetation, including trees, therefrom without the prior written consent of Lessor or its authorized agent.

5. **WATER DEVELOPMENT.**

Lessee shall be entitled to water for domestic purposes only to the extent that natural springs, streams, lakes, existing wells or water systems serving the leased premises are capable of supplying the same. Lessee shall neither drill and use a new water well nor develop and use any new source of water without the prior written consent of Lessor or its authorized agent, plus the prior written consent of any department or agency of the State of Idaho having jurisdiction to regulate water rights in this state. All water rights with respect to the leased premises shall be taken in the name of the State of Idaho. If water is supplied to the leased premises by a water system operated by the State of Idaho, the use of such system and the supply of water provided thereby may be curtailed or terminated upon ten days written notice to Lessee from Lessor or its authorized agent. Neither the Lessor nor its agents and employees nor any entity of the State of Idaho shall be liable in any manner for damage or inconvenience to the Lessee by reason of failure of, damage to, or termination or curtailment of the operation of any water system or source supplying water to the leased premises.

6. **MAINTENANCE OF PREMISES, SEWAGE, GARBAGE AND LITTER.**

Lessee shall keep the premises at all times in a clean and sanitary condition, free of trash, noxious weeds, garbage and litter, to the end that the premises shall be maintained in as nearly a natural state as possible. Lessee shall not dispose of sewage except in conformity with the rules and regulations of the Idaho State Board of Land Commissioners and the Idaho State Board of Health and Welfare, and shall comply with all pertinent state and local sanitation laws and regulations. Lessor may require Lessee to furnish a certificate or other satisfactory proof of compliance with such laws and regulations. Lessee shall not dispose of garbage or trash except in conformity with all pertinent laws and regulations, and at a place designated by Lessor or its authorized agent.

7. **FIRE AND SAFETY REGULATIONS.**

The Lessee agrees to comply with the state laws and regulations of the Director, Department of Lands, for fire protection and prevention to keep the site free from fire hazards and to maintain the area in a condition acceptable to public health and safety standards as promulgated by the Department of Health and Welfare. Burning of garbage and household trash is prohibited. Burning of wood and other debris requires permission of the Lessor. Burning must be conducted under rules and regulations of the Department of Health and Welfare.

8. **CONSTRUCTION AND IMPROVEMENTS.**

All construction on and improvement of the lease site must be approved in writing by the Lessor prior to starting construction or improvement. All construction on and improvement of the lease site must comply with all rules and regulations of the State Board of Land Commissioners and permits authorized thereby, and those rules and regulations of any other government agency of competent jurisdiction. The Lessee must furnish a complete set of construction plans and an accurate plot plan of all improvements contemplated under this section.

9. **RELATIONS OF THE PARTIES.**

It is understood and agreed that the Lessee shall in no wise be considered an agent of the Lessor in the construction, operation or maintenance of any of the facilities situated in or upon the leased premises.
