ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 86-7246, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before January 1, 19 90.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other:

The storage of water under this permit is contingent upon the certification of the dam and authorization of storage per the dam safety provisions of the Idaho Code.

The issuance of this permit in no way grants any right-of-way or easement across the land of another.

RE: Water Uses

The permit was originally filed for storage for stockwater and stockwater from storage. Although the examiner recommends the permit be licensed for stockwater and stockwater storage, storage for stockwater and stockwater from storage will be the only uses licensed.

To include a direct flow for stockwater use under the permit would necessitate an expansion in the water right. The examiner also states that a line is run from the pond to a trough for the stockwater. Therefore, the stockwater from storage covers this use.

The examiner also states that the Nilsson's use an adjudication claim, No. A86-10145 for stockwater purposes. Therefore, the removal of stockwater from this license is appropriate.

PROOF DUE NOTICE

RE: PERMIT NO. 86-07246

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

If the diversion dam is 10 feet or more in height, or has an impounding capacity of 50 acre-feet or more, certain dam safety requirements must be met. Please contact the regional office nearest you for details.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed.

Dear Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit.

This office is currently in the process of advertising the application in the local county newspaper. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to the final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your receipt for the fee involved in filing this application.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

ROBERT G. HAYNES, P.E.

RE: Proposed Dam for water right 86-7246

Dear Ms. Nilsson:

Your recent application for a water right to store water from an unnamed stream tributary to Bedrock Creek, indicated that you planned to construct a dam with a height of 10 feet. All dams greater than or equal to 10 feet in height or storing 50 acre-feet or more of water are regulated by the Department to insure that they are constructed and operated in a manner which assures public safety.

Enclosed is an application for the proposed small dam. Please fill out the application, sign and return with the appropriate fee of \$10, if the dam is to be greater than 10 feet high, when measured as shown on the second page of the application.

If you have any questions or if I can be of assistance please give me a call in Coeur d'Alene (phone 765-4639).

Sincerely

David D. LePard

I WAS ADVISED OVER YOUR HOTLINE THAT THE CLAIM TO A WATER RIGHT ON THIS STOCK POND MIGHT BE DENIED SINCE I HAD NOT OBTAINED A PERMIT FROM YOU. I HAD NEVER HEARD OF THIS REGULATION AND MIGHT NOT HAVE THOUGHT IT APPLIED ANYWAY SINCE THE POND ONLY COLLECTS SNOW MELT RUNOFF FROM A SLOPE. CERTAINLY I WOULD HAVE OBTAINED A PERMIT BEFORE CONSTRUCTION (JUNE, 1982) IF I HAD EVER HEARD OF THE PROCEDURE.

WITH apologies for THE DELAY, I am enclosing a completed "APPLICATION FOR PERMIT" form with the \$30⁰⁰ fee along with my CLAIM form.
THANK YOU.
