MEMORANDUM

DATE: November 7, 1995
TO: File No. 86-07238
FROM: Cindy Zimmerman 
SUBJECT: Correction of Licensed point of diversion

=====

The right holder, Ronald Ranly, submitted a copy of the survey plat of his property identifying the location of the point of diversion, place of use, and water delivery system.

An evaluation of this additional information proves the true legal description of the point of diversion as being within the SESESE, S35, T37N, R01W. An amended license should be issued to reflect the correct location of the point of diversion.

RE: Water Right No. 86-07238

Dear Shelley,

Per our ~~conv~~ phone conversation 10/10/95, I'm sending a copy of my property survey, showing the following:

- 1.) Highlighted in florescent yellow - my property boundary lines
- 2.) Marked in red - Spring-box, holding tank, water lines, and house
- 3.) "Shaded" with blue diagonal lines - SESESE Sec 35, T32N, R01W.

I submit this in order to have the ⁶¹³³⁵ Location of Point (a) of Diversion "changed from "NESESE" to "SESESE", on my Water Right License, Water Right No. 86-07238.

If there are any further questions, please call or write.
Thank you.

RE: Phone call from Ronald Ranly 208/476-4636

=====

Ronald Ranly called me yesterday to discuss license 86-07238, which was issued to him on June 6, 1995. Mr. Ranly was concerned because the point of diversion was licensed as NESESE, S35, T37N, R1W, instead of SESESE, S35, T37N, R1W. I explained to him that NESESE was the field examiner's recommendation and that it matched right 86-07164, which is consistent with the examiner's statement that the spring source for 86-07238 is the same spring source serving 86-07164. Mr. Ranly said that 86-07164 shared a source with 86-07239, which he let lapse. But, according to Mr. Ranly, 86-07238 is a separate source located further south in the SESESE.

I asked Mr. Ranly to send me a large scale map or plat showing the location of the spring serving 86-07238. I told him I would review it and recommend an amended license if warranted.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 86-07238

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)765-4639.

Sincerely,

Rita Fleck
Secretary/Records Manager

PROOF DUE NOTICE
RE: PERMIT NO. 86-07238

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 86-07238

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed.

Sincerely,

Dear Claimant:

The Department of Water Resources acknowledges receipt of your water right application for permit.

This office is currently in the process of advertising the application in the local county newspaper. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to the final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your receipt for the fee involved in filing this application.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

ROBERT G. HAYNES, P.E.
