RE: WATER RIGHT PERMIT NO. 86-7193

Dear Mr. Edgar:

The department has reviewed the proof of beneficial use (proof) which you submitted in connection with the above referenced permit. A review of the file does not show that you applied for a drilling permit (which is a separate requirement from the water right permit) or whether you are exempt from the drilling permit requirement.

A drilling permit is required for all wells drilled, deepened or enlarged after July 1, 1987 (Section 42-235, Idaho Code). The department also can not locate a well driller's report (well log) for the well. This report is to be filed with the department by the driller within 30 days after completion of the well.

In order to make the proof of beneficial use acceptable and to allow the department to issue a license of water right confirming your use of water, you need to do one of the following whichever is applicable:

1. Provide evidence to show that the well was completed before July 1, 1987.
OR
2. Provide evidence to show that construction of the well was started prior to July 1, 1987 and was complete by August 1, 1987.
OR
3. Submit a completed drilling permit form together with a drilling permit fee in the amount of \$10 made payable to the Idaho Department of Water Resources. Enclosed is a form for your use.

In any case above, the department also requests the name and address of the well driller or a copy of the well log.

PROOF DUE NOTICE

RE: Permit No. 86-7193

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager
