LAPSE NOTICE

RE: PERMIT NO. 86-07187

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated July 31, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this lapse notice or the permit will no longer be of any force of effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

PROOF DUE NOTICE

RE: Permit No. 86-7187

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

Dear Mr. Brown:

We are returning your Check No. 92-30 in the amount of \$30.00 and your Application for Permit for clarification of the point of diversion (PD) and place of use (PU). You have listed in Item No. 3, the point of diversion as being within the ~~N₁NE₁SW₁NE₁~~ of Sec. 25. You also listed the two acres of irrigation within the NENE Sec. 22; however, the map seems to show the point of diversion and the place of use within the NWNE, Sec. 25. Please label both the PD & PU on the map.

An Application for Permit to irrigate 2 acres of land would not be approved with a diversion rate of more than 0.06 cfs, unless it can be shown that an excessive rate is necessary and that the water diverted would be put to a beneficial use (10 gpm = 0.02 cfs).

If you need any assistance, please contact me at this office.

Sincerely,

TOM D. KING
