Re: Dorothy Jackson Water Right

Dear Mr. Kinney:

We have received the application for permit of Dorothy Jackson and the \$30.00 fee for filing. This allows Ms. Jackson to develop a groundwater right with a priority date of July 29, 1982.

Since Ms. Jackson did not develop a groundwater right prior to March 25, 1963, the Claim to a Water Right is not appropriate and is being returned with the Escrow Contract.

If you have any questions, please contact me at this office.

Re: Dorothy Jackson Water Right

Mr. King:

I am in receipt of your letter of July 30, 1982 and believe I have made the necessary amendments and corrections to both documents. I appreciate the information you have supplied me and the assistance you have very meticulously offered.

I have returned to you both the Claim and Application previously tendered. Since the water involved in this Claim is to be used for four households I believe from your explanation that an Application is necessary instead of only a Claim. Nevertheless, I have submitted the Claim as well. Please feel free to use whichever document is most appropriate.

To explain the situation, the important legal description, and the only one properly to be used in this Application is the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 22, Township 37 North, Range 1 West, Boise Meridian. The appropriation system consists of a well and reservoir which is supplying four families on one parcel of property.

In your letter to me, you indicated that if a Claim is filed the date of first water usage is the priority date. In this regard, you asked for legally admissible evidence in support of this claim and I have enclosed the first page of an Escrow Contract dated August 14, 1978 to certify the ownership of this property as of the date of application to beneficial use. Subsequent to that time, Mr. Jackson has become deceased and his wife is the heir of the property.

I believe, as I stated before, that the enclosed complies with the requests set forth in your letter. I appreciate very much your assistance and ask that you process this Application at your earliest convenience.

Thank you again for your assistance.

Dear Mr. Kinney:

We are returning your Check No. 92-191 in the amount of \$30.00 and the claim and application for permit of Dorothy Jackson. The legal descriptions on both forms vary from item to item, so I am uncertain if you intend to file on two systems or only one. If you are only filing on one usage or proposed usage, then you need only file one form.

If the water usage is or is to be for one home, less than 1,000 head of stock and/or for irrigation of $\frac{1}{2}$ acre or less, it is not necessary to file. However, you may file either the application or claim. If the water usage commenced prior to March 25, 1963 and is being used for more than one home, 1,000 head of stock, or for irrigation of more than $\frac{1}{2}$ acre, then you must file either the application or claim. If the water usage is other than outlined above, you must file an application for permit.

If the claim is filed, the date of the first water usage is the priority date. This filing meets with the requirements of IC 42-242, however, it does not confirm the right, so it should be accompanied by any legally admissible evidence in support of the claim that the claimant deems appropriate.

If the application for permit is filed, the priority date is established as being the date the application is received by this Department. The water right developed under the permit process is verified by the Department and a license is issued. Such license is prima facie evidence of a water right.

Mr. Robert E. Kinney

If you file the application for permit, please consider the following:

- Item 4 - An application for domestic diversion rate of more than 0.04 cfs per home is considered by this Department to be excessive. (The number of homes must be listed in Item 8a4.)

An application for a stockwater diversion rate of more than 0.02 cfs for 20 head of stock is considered by this Department to be excessive.

An application with an excessive diversion rate will not be approved unless it can be shown to the satisfaction of the Director that the rate of flow is necessary and that the water so diverted will not be wasted. Item 10 or an attachment can be used to explain the necessity of a higher rate.

- Item 3, 8a1, 10 and 11 - The point of diversion and place of use shown in Item 11 is the SENWSE, but incorrectly labeled as the SWNWSE. It is unclear where the well, house and stock tank(s) are (to be) located.

The application must be completed and returned to this office within 30 days to retain the 7/29/82 priority date.

If you decide to file the claim, please consider the following:

- Item 1 - This is probably the most important item on a claim, since water rights in the State of Idaho are predicated upon a "first-come-first-serve" basis.

- Item 3 - 0.10 CFS = 45 gallons per minute.

- Item 5 - The map shows the point of diversion to be within the SWNWSE.

- Item 6a - This item states the place of use is within the NWSW and the SWSW. Item 8 states the place of use is within the SWNWSE and the map shows the SWNWSE.
