Dear Sir:

Re: Permit No. 86-7087

Enclosed please find an "Application for Licensing of a Permit" to change the point of diversion for water withdrawn from the Potlatch River at Bovill, Idaho, which is used for dust abatement at our Bovill log yard.

It is my understanding, as discussed per our telephone conversation this morning, you have already received our check for twenty dollars to cover the application fees for the above referenced permit. Unfortunately, our accounting department did not return the check to our department for further processing, therefore you received the check and not the corresponding permit.

I have taken the liberty to contact Jim Johnson, Water Rights Supervisor out of your Boise office, to inform him of the situation as it exists today. Please forward both the check and the permit to Mr. Johnson's office at your earliest convenience.

I apologize for any inconvenience this may have caused your office. Your cooperation in this matter is truly appreciated. Thank you.

Potlatch Corporation

Gentlemen,

We are returning all your Claims to a Water Right and your check No. 38-2 for \$180.

The claims for Spaulding Well #1 (two claims), Spaulding Well #2 (two claims), Twin Feathers (two claims), Potlatch (two claims), Rutledge, Avery (priority 1920), Clarkia (priority 1950), and Headquarters are acceptable. We cannot cash just a portion of your check; therefore, we are returning everything to you.

Briefly, we would like to review the requirements for filing an Application for Permit which is one of the basis of a water right. If the water is to be taken from a surface water source, then a permit is required for a new appropriation or an increase in the amount of water used if the new use begins after May 20, 1971. If water is to be taken from a groundwater source and is not used for domestic purposes, then a permit is required for a new appropriation or an increase in the amount of water made after March 25, 1963. Domestic purposes is defined in Sec 42,237, Idaho Code, as "...water for household use or livestock and water used for all other purposes including irrigation of up to one half ($\frac{1}{2}$) acre of land in connection with said household..." For purposes of the exception, "domestic purposes" shall not include water for multiple ownership subdivisions, mobile home parks, commercial or business establishments."

We are returning the following claims:

Boyll & Clarkia--surface water source with a priority of after May 20, 1971; a permit was required. We have completed an application for this with the amount of 0.56 cfs, which is 250 gpm. The filing fee for the applications is \$25.00 each.

Avery--surface water source with a priority date after May 20, 1971; a permit was required. We have completed an application for this with the amount of 1.11 cfs which is 500 gpm. The filing fee for this application is \$35.00.

Jaype Well #1--no priority date listed; please indicate the date in item #4.

Jaype Well #2--this is a groundwater source for domestic use in a commercial establishment with a date of priority after March 25, 1963; a permit was required. We have completed an application with an amount of 0.02 cfs. The filing fee is the same as for a claim--\$10.00.
