WATER RIGHT LICENSE

License of Water Right No. 86-7029 Priority August 7, 1973 Amount 0.19 cfs

THIS IS TO CERTIFY, that Gerald M. Young
of Lenore, Idaho, has complied with the terms and conditions of Permit
No. 86-7029 issued pursuant to Application for Permit dated August 7, 1973,
and has submitted proof to the Department of Water Resources on September 26, 1974,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.23 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>April 1</u> to <u>November 1</u>	at <u>0.15</u> cfs and	<u>30.0</u> acre feet
Domestic (1 unit)	from <u>January 1</u> to <u>December 1</u>	at <u>0.04</u> cfs and	<u>1.2</u> acre feet
	from _____ to _____	at _____ cfs and	
	(both dates inclusive)		

Subject, however, to the condition that no more than 0.19 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
31.2 acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 35, Twp.

Dear Mr. Young:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit. Please note on the last page of your permit that a measuring device is not required as a condition of approval.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions concerning the field exam, please contact our Northern District Office in Coeur d'Alene.

Re: Permit No. 86-7029

Gentlemen:

We were not aware until we received your letter of Aug. 1, 1974, that we had to have an exact measurement of the water we used from our well. We ran the water 12 weeks this summer 24 hours a day. We ran 10 rainbird sprinklers which used 80 gal. per minute. This amounted to 115,200 gal. per day for 84 days.

We still intend to use the well for domestic water for one house but we have been unable to build yet because of increased building costs and interest rates.

The property is located approximately $\frac{1}{4}$ mile up the grade from the Lenore Post Office. An aerial photograph should be unnecessary as the property is on the road, is fenced and is easily located.

We hope you can grant the water right on this information. If you cannot we will have to request a time extension.

It seems absurd to have to have an exact water measurement, aerial photo, etc. to get a water right on our own well. It seems that a little less red tape and a little more common sense would be in order here. It costs money to get a water meter installed and for aerial photos and we are not blessed with an overabundance of it to throw around.

We have kept track of our water usage to the best of our ability and it is fairly accurate. It is quite clear what we intend to use the water for and it is not an excessive amount.

Please let us know if we need to have a time extension on this.

Sincerely,

Gerald M. Young

Dear Mr. Young:

One of the conditions of approval of your water Permit No. 86-7029 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Young:

Enclosed you will find an Amendment which we have typed, changing the point of diversion and place of use under the above referenced permit.

If this amendment now correctly locates your well and irrigated land, please sign and return the form to our office along with the required \$10 amendment fee. We will re-advertise your permit and we will notify you when processing has been completed.

If you should have any questions, or if we may be of any further assistance, feel free to contact us.

Very truly yours,

Re: Permit No. 86-7029

Gentlemen:

The land description on the above water permit is incorrect and should be changed. The FHA office in Lewiston helped us with the application and they said the description of our land was wrong on our deed according to their map. We filed the application on their description but we have since checked with the title insurance company and found that the description on our deed is right.

The correct description is a portion of the Northeast Quarter (NE 1/4) of the Northwest Quarter (NW 1/4) instead of the Southeast Quarter (SE 1/4) of the Northwest Quarter (NW 1/4) of Section 35, etc.

What must we do to correct this error? Can you change your records and run a correct series of ads in the paper? Please let us know if there is anything further we should do. Thank you.

Sincerely,

Gerald M. Young
