Mrs. Grace E. Thornton
Kendrick, Idaho

Dear Mrs. Thornton:

This office is in receipt of your affidavit setting forth proof of application of water to beneficial use under Permit No. 86-7007. You have stated that you have not installed a measuring device as required under your permit. As you may be aware, before we can issue a license, we are required by law to conduct an inspection to determine the amount of beneficial use that has been made under the permit. To accomplish this we would require the use of the measuring device set forth under the terms of your permit.

In the event that we were to make the inspection, and the measuring device was not installed, our probable course would be to deny the proof of application of the water to beneficial use and the permit would lapse.

I would appreciate hearing from you as soon as possible as to your intentions regarding the installation of a measuring device. Please indicated what type and when you intend to install that device.

If you have any questions, please contact this office.

Dear Mrs. Thornton:

We acknowledge receipt of your affidavit submitted as proof of beneficial use on application for permit 86-7007.

Before a license can be issued a field examination must be made by a representative from this department.

We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than you should be contacted by the examiner, please advise.
