WATER RIGHT LICENSE

License of Water Right No. 86-7006 Priority January 22, 1968 Amount 0.20 cfs

THIS IS TO CERTIFY, that Paul W. Richardson
of Juliaetta, Idaho, has complied with the terms and conditions of Permit
No. 86-7006 issued pursuant to Application for Permit dated January 22, 1968,
and has submitted proof to the Department of Water Resources on February 17, 1976,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.27 cfs of water from Potlatch Creek,
tributary to Clearwater River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>April 1</u> to <u>November 1</u>	at <u>0.20</u> cfs and <u>30.0</u> acre feet	
	from _____ to _____	at _____ cfs and _____	
	from _____ to _____	at _____ cfs and _____	

(both dates inclusive)

Subject, however, to the condition that no more than 0.20 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
30.0 acre feet per year, said waters to be diverted within the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 16, Twp.
37N, Rge. 3W in the County of Latah

Description and location of place of use:

Permit No. 86-7006

State of Idaho)
County of LATAH)

PAUL W. RICHARDSON of Juliaetta, Idaho 83535
(name) (address)

State of IDAHO, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to Appropriate the Public Waters of the State of Idaho No. 86-7006.

That under the terms and conditions of said permit, work thereunder was required to be completed on or before MARCH 1, 19 73.

That he has heretofore performed the following work described under said permit:

He had installed the electrical service to the point of diversion
for the pump and had set up the pump at said point; he acquired
the necessary pipe and sprinklers for the portable sprinkler system
and the pipe for stock watering and put the system in operation for
irrigation to test the same. Costing \$ 1,700.00

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: About two years ago run-off waters in the stream
washed and eroded ^{TWO} points at the bank of the stream; one place was
the point of diversion. This same erosion occurred again last
spring and now considerable work must be done to dike or construct
a protective area for the pump at the point of diversion.

Wherefore, he asks that the Department of Water Administration extend the time for the completion of obligations under said permit to March 1, 19 76.

Dear Mr. Richardson:

A representative of this Department has made an examination of the works covered by your Permit No. 86-7006, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 0.20 cfs Source: Potlatch Creek

The maximum quantity diverted shall not exceed 30.0 acre feet
per year.

Point(s) of diversion: SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16, Twp. 37N, Rge. 3W, Latah County

Beneficial use: Irrigation of 10 acres within the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16, Twp.
37N, Rge. 3W

Priority date established: January 22, 1968

Conditions (if any):

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

Dear Mr. Richardson:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions concerning the field exam, please contact our District Office in Coeur d'Alene.

Sincerely,

D. Darlene Reich

Dear Mr. Richardson:

One of the conditions of approval of your water Permit No. 86-7006 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Paul W. Richardson - Permit No. 86-7006

Dear Mr. Higginson:

This letter is in confirmation of our telephone conversation on this date, wherein I advised you that Mr. Richardson cannot submit proof of application of the water to beneficial use by March 1 for the reason that he has not been able to fully complete the irrigation project. His inability to complete the project has been caused by an eroding or abrasive action in the stream near the designated diversion point. This erosive and abrasive action has been brought about by high waters during the past two winters, which in turn has caused some shifting of the location of the stream bed. It will be necessary for him to do some rock work in preparation of a dike near the point of diversion and thereafter set up his irrigation equipment to complete the project. For these reasons, which we believe to be of justifiable cause, we respectfully request an extension of time for completion of this project and we further request that such extension be for at least a period of three (3) years.

If you should require this application be supported by affidavit or some form commonly used by your department in making such a request, please forward the same to me and we will prepare and return it to you and your office immediately.

Dear Mr. McEldowney:

I am advised by Mr. Richardson that he has located a metering device which he believes will be adequate for the measurement of the water to be taken under his above mentioned appropriation permit.

This meter is referred to as a model DS-1307 with 6 inch pipe. It is called a Sparling Irrigation Meter and is manufactured by Hensey-Sparling Meter Co., El Monte, California.

Please determine, if possible, if this metering device will meet with your approval and advise me at your earliest convenience.
