Dear Mr. Stockard:

This office has received your letter of April 29th and check in the amount of \$10.00.

We wish to advise you, however, that the Department has no procedure for changing the records of ownership once a permit has been licensed. When a license is issued it becomes appurtenant to the land and ownership is automatically conveyed with the land unless it is specifically withheld in the sale transaction.

We will place your letter in our file for future reference as to present ownership. Your \$10.00 check is herewith returned.

Dear Mrs. Woody:

We are returning the assignment filed in connection with Permit No. 86-7005 conveying this permit to William C. Swan. We are not able to accept the assignment until we have clarification as to the ownership of the permit. In Idaho water permits are personal property and belong to the holder. This permit is filed under R. E. Woody, presumably your husband. If Mr. Woody is alive and capable of managing his affairs, his signature must appear on the document. If Mr. Woody is deceased, we will need you to file this assignment as Administrator of his estate or the Administrator of his estate must execute the assignment.

Please help in clarifying this issue and please return the corrected assignment. Your assistance in this matter is greatly appreciated.

Re: Permit No. 86-7005

R. E. Woody
Julietta,
Idaho 83535

Dear Mr. Woody:

One of the conditions of approval of your water Permit No. 86-7005 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Woody:

The department has processed your application for permit; however, before we can take final action we must have some additional information.

Under the existing State Statutes, the maximum rate of diversion which can be approved for irrigation is 1 miners inch per irrigated acre. It is noted that you have requested 3 times this quantity or .06 cubic feet per second. So that we may justify granting you the amount of water which you have requested, please advise the department as to your method of irrigation and the capacity of your system. Possibly by this means we can approve a greater amount than 1/50 of a cubic foot per irrigated acre.

Your prompt attention to this matter is appreciated.

Very truly yours,

Dear Sir,

In reply to this letter I am using sprinkler method of irrigation. I am using 3/4" hose connected to water for power. As nearly as I can estimate I use about 28 gals. (over)

36-7005

I use four Sprinklers each week about seven o'clock.

I don't know anything about the tree but so perhaps
you will understand

Thank you
