INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	<u>May 18, 1871</u>	amount:	<u>0.8 c.f.s.</u> or _____	acre feet
	<u>June 1, 1901</u>	amount:	<u>0.4 c.f.s.</u> or _____	acre feet
		Total claimed:	<u>1.2 c.f.s.</u> or _____	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing a Claim to a Water Right is \$10.00. Your claim and fee may be submitted to one of the following offices:

Dear Mr. Thompson:

We are once again returning your four claims and Check No. 92-31 in the amount of \$40. A very important item of a water right is the date of priority established under the right. Without this information, your claims would be of very little value.

Due to the fact that a claim is a sworn statement from the claimant, our Department cannot make any additions or corrections on a claim. Therefore, it is necessary to return the claims so that you can complete Item #3a.

The date of priority for your springs would be the first time they were put to a beneficial use, either by you or by the previous owners. If you are not sure as to the exact date the springs were first used, you should list a date arrived from the best of your knowledge.

We apologize for the delay in accepting your claims, but it is very important that all necessary items be completed. Completing Item #3a should make your claims acceptable and we will begin processing as soon as we receive the claims along with the required filing fee.

If you should have any further questions, or if we may be of further assistance, please contact us.

Dear Mr. Thompson:

In reviewing the claim you submitted in connection with the six unnamed springs, we find the claim unacceptable in its present form.

The purpose of a claim is to record evidence of an existing water right. In Idaho, the only method of creating a water right is by diverting and putting the water to a beneficial use. You have stated that two of the springs were not developed and may possibly be used in the future. We cannot accept a claim for these two springs if they are not being put to a beneficial use. However, if the springs rise on your property and do not flow off your property, then they are considered "private waters." If, however, the springs do flow from your property, then at that point, the waters are considered public waters and could possibly be appropriated by other users.

It is also recommended to file a claim for each separate spring stating a priority, location, purpose, quantity, and description. If several springs share a common purpose with one system, then we can accept those springs under one claim.

We have taken the liberty of partially completing a claim for each of the four springs which you are beneficially using. We have taken the information from the individual sheets you had attached. Please review all items on our typed claims for accuracy and complete those items which we have marked. To have a more valid claim, as much information as possible should be included.

After reviewing the claims and you are satisfied that they describe your rights, please have your signature notarized on each claim and submit them to our office, along with the required \$10 filing fee per claim, and we shall begin their processing.

If you should have any questions, please feel free to contact this office.

Very truly yours,
