That they have filed water right claims with the State of Idaho Department of Water Administration on water that is running through this property, and also have filed water right claims on springs situate upon this property as follows:

Claim No. 86-4012 on 0.022 cu. ft. pr. sec. of water on the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 27, T. 37 N., R. 2 W.B.M.

Affiants further state that these claims are only on a portion of the water running through the said property, and also that it is not their intent to harm or divert the springs from which the water originates on their property except for use on their property, and that the purpose for filing of the claims is to guarantee to them this amount of flow of water and also to guarantee to them the right to divert the springs situate on the property described above for their needs in the future.

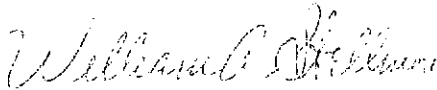

Further, it is not their intent to do anything other than claim the water originating from springs above their property and flowing through their property in the amounts claimed as water rights so that this amount will never be allowed to be diverted to their harm from the date of filing their claims forward.

That there is not an adequate supply of water for use by me for the uses that I have put the water for many years, together with my predecessors in interest, and to satisfy the claim of Emery Bateman. That the granting of the claim of claimant to the waters claimed would do irreparable damage to my land. That the granting of the claims would deny me the right to the use of the water that I, together with my predecessors, have been using for many years prior to the claimed right of said Emery Bateman.

The Southeast quarter of the Northwest quarter (SE $\frac{1}{4}$ NW $\frac{1}{4}$); and the North half of the Southwest quarter (N $\frac{1}{2}$ SW $\frac{1}{4}$) in Section Twenty-six (26), Township thirty-seven (37), North Range Two (2), West of the Boise Meridian. That portion of the Southwest quarter of the Northwest quarter (SW $\frac{1}{4}$ NW $\frac{1}{4}$) of Section Twenty-six (26), Township Thirty-seven (37), North Range Two (2), West of the Boise Meridian, described as follows: Commencing at the Southeast corner of said Southwest quarter of the Northwest quarter (SW $\frac{1}{4}$ NW $\frac{1}{4}$) of said Section Twenty-six (26); thence North along the East line of said Southwest quarter of the Northwest quarter (SW $\frac{1}{4}$ NW $\frac{1}{4}$) of said Section a distance of 660 feet; thence West to the East line of the wagon road known as the Van Winkle grade; thence Southerly along the East line of said wagon road to the intersection of said East line of said road with the South line of said Southwest quarter of the Northwest quarter (SW $\frac{1}{4}$ NW $\frac{1}{4}$) of said Section Twenty-six (26); thence East along the said South line of said Southwest quarter of the Northwest quarter (SW $\frac{1}{4}$ NW $\frac{1}{4}$) of said Section Twenty-six (26) to the place of beginning, containing about three acres, more or less.

2. That the springs in question furnishing the water upon which the claims of water rights are based rise upon my land.
3. That I and my predecessors in interest have used the water from said springs for many years prior to the use by the claimant for domestic and livestock purposes, and that my use is antecedent to use of claimant Emery Bateman.
4. That I and my predecessors in interest have continuously used the waters from said springs for said purposes for many years prior to the use by claimant.
5. That the claimant Emery Bateman has not continuously used the water as claimed for the period claimed.
6. That there is not an adequate supply of water for use by me for the uses that I have put the water for many years, together with my predecessors in interest, and to satisfy the claim of Emery Bateman.

7. That the granting of the claim of claimant to the waters claimed would do irreparable damage to my land.
8. That the granting of the claims would deny me the right to the use of the water that I, together with my predecessors, have been using for many years prior to the claimed right of said Emery Bateman.

These objections are filed to the claims to water right by said Emery Bateman pursuant to the provisions of the Idaho Code.

Very truly yours,

Don F. Johnston

Dear Mr. Bateman:

The Department of Water Administration has completed the processing of your claims to a water right, and no further action is authorized under Sections 42-225a and 42-225b, Idaho Code. Your claims will be retained in our files and will be available at any time for use by you or the court.
