NOTICE OF EXISTING

WATER PERMIT

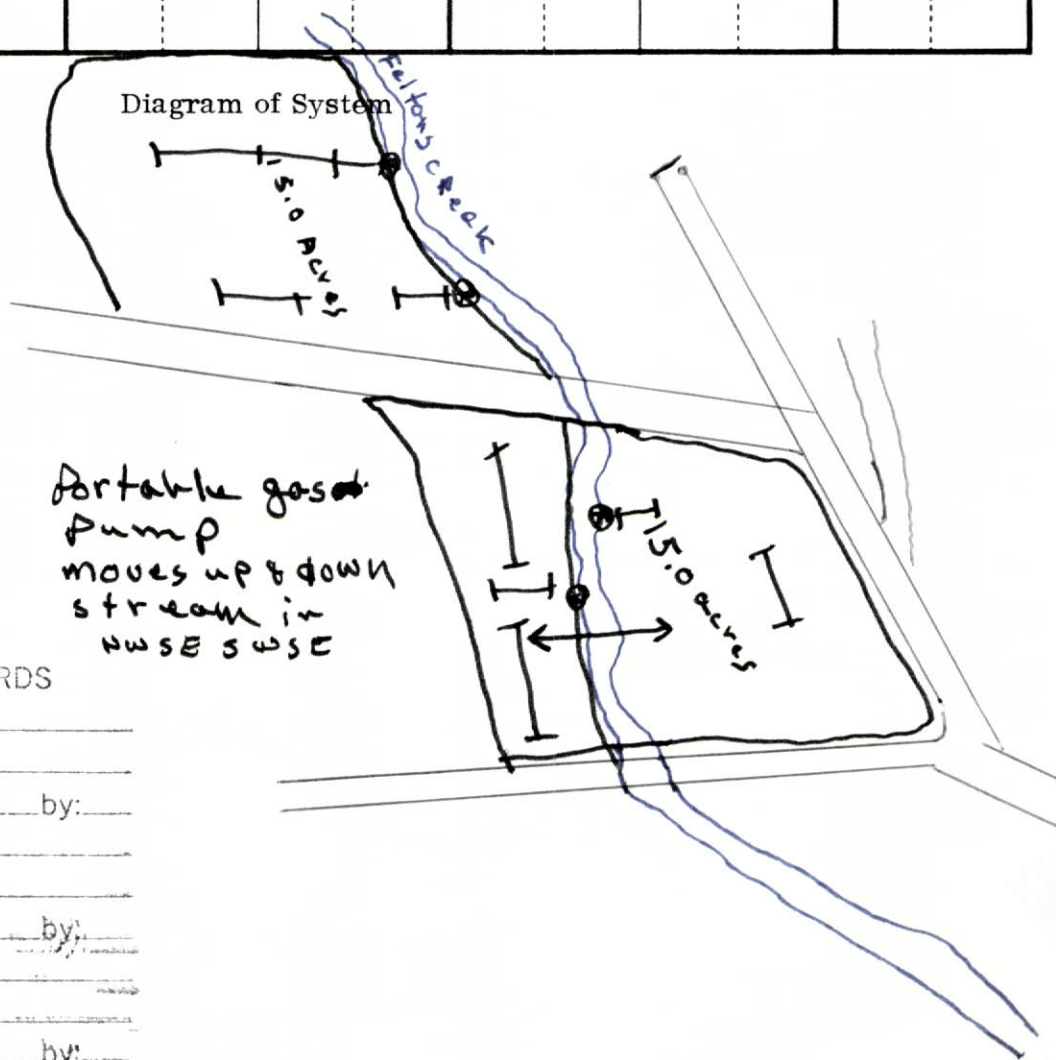

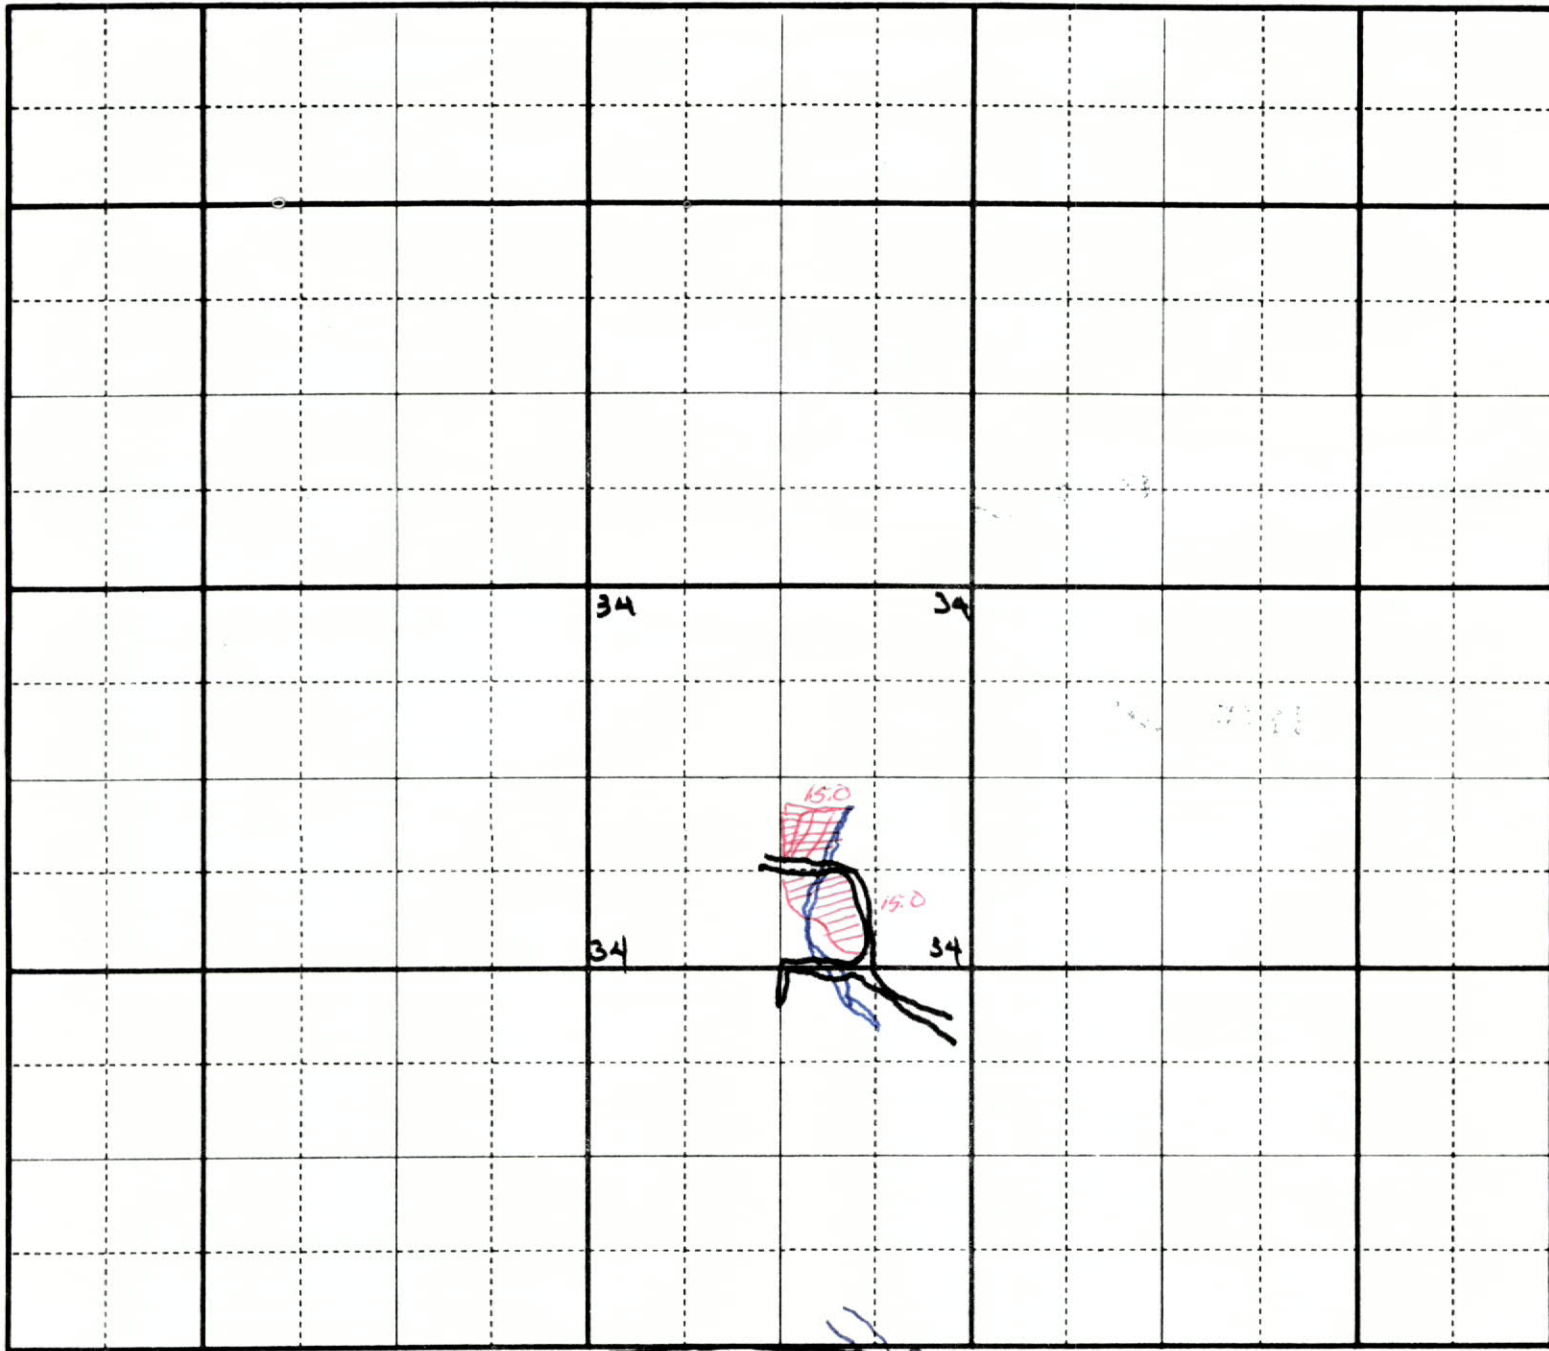

Notice is hereby given that Richard O. Moehrle, Uniontown, Washington, has received an approved Permit No. 3215286-2031 issued by the Idaho Department of Water Administration authorizing the diversion of 0.3 cubic feet per second of water from Felton's Creek, tributary to the Potlatch River. The priority to be established under this permit is December 9, 1964 and the permit was approved December 10, 1964.

Water is to be diverted by pump from a point within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 34, T. 40N, R. 4W, B.M., Latah County, to be used for irrigation in the W $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 34, T. 40N, R. 4W, B.M.

Proof of the application of the water to beneficial use is to be submitted to the Department on or before December 10, 1971. Any protests against the issuance of the license for the above referenced permit should be filed with the Idaho Department of Water Administration within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

Re: Your letter of August 22, 1973 concerning Water Permit No. 32152/86-2031

Am returning the application with a different point of diversion also shown on it.
I hope this is right but is possible not as I don't have anyone available who
understands reading sections. If it is not correct, send it back and I will try
to get some help. Also enclosing the required ten dollar filing fee.

Would also like to know the name and address of the man in Coeur D'Alene who
did the checking. Will be helpful to have someone almost local to check with for
further information or problems that could crop up.

Hope this is finally correct. The problem for most of us is that we're unsure of
of how to go about all this and we are easily stampeded. Thanks for letting us
know of the need for correction. Water is important in our cattle operation.

Sincerely yours,

Richard Moehrle

Dear Mr. Moehrle:

A representative of this Department has made an examination of the works covered by your Permit No. 32152/86-2031 and has found the following:

Quantity of water diverted: 0.15 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.15 cfs

The maximum quantity diverted shall not exceed 36 acre feet per year.

Beneficial use: Irrigation of 30 acres within the $W\frac{1}{2}SE\frac{1}{4}$, Sec. 34, Twp. 40 N, Rge. 4 W, B.M.

Point of diversion: $SW\frac{1}{4}SE\frac{1}{4}$, $NW\frac{1}{4}SE\frac{1}{4}$, Sec. 34, Twp. 40 N, Rge. 4 W, B.M.

Priority date established: December 9, 1964

Our filed exam report indicates that there is a second point of diversion in the $NW\frac{1}{4}SE\frac{1}{4}$ of Sec. 34, therefore it will be necessary to amend the permit to include both points of diversion before a Water License can be issued. We are enclosing a partially completed application for amendment for your use. Please sign the application and return it to this office with a \$10.00 filing fee within 10 days of the date of this letter in order that we may issue a water license as set forth above.

If you do not concur with these findings or have any questions, please contact us within the 10 day period.

Sincerely,

Dear Mr. Moehrle:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative from this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than you should be contacted by the examiner, please advise.

Dear Mr. Moehrle:

One of the conditions of approval of your water Permit No. 32152/86-2031 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 10, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Moehrle:

As of this date we have not yet received the affidavit of publication to be submitted in connection with the above referenced permit. Proof of beneficial use is not required until December 10, 1971. However, many newspapers do not keep copies of these advertisements in their files. We, therefore, recommend that you obtain this affidavit from the Daily Idahonian, Moscow, Idaho and submit it to the Department as soon as possible. This insures that when you are ready to submit proof of beneficial use there will be no unnecessary delay or added expense.

Re: Permit No. 32152 (New No. 86-2031)

Mr. Richard O. Moehrle
Uniontown,
Washington

Dear Mr. Moehrle:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Dear Mr. Moehrle:

We are in receipt of your letter of January 20 and the attached proofs.

Idaho Law allows up to 5 years for proving completion of works;
however, our records indicate that only two years were requested at
the time of filing and no request was received for an extension of
time.

You have 5 more years to perfect the water right under permit 32152
by proving application of the water to beneficial use.

Dear Sirs:

This letter is to inquire about why the works were to be completed at the end of two years for water rights. SCS Engineers who are helping us on this project couldn't understand why papers sent to us were completion papers when it was their understanding, as well as ours, that we had five years to have project completed.

We have a schedule of land preparation and water usage which will utilize the entire amount at the end of a five year period commencing in 1964.

We would appreciate any and all information on procedure to extend our program even further.

Thanking you for the answers forthcoming.

Dear Mr. Moehrle:

Upon checking your proof of completion of works on the above numbered permit which you made on December 17, 1966, we find that the proof was made late. Proof on this permit was to have been made on or before December 10, 1966. It will therefore be necessary for you to appear before a Notary Public with two witnesses who can testify that they have seen the works, and complete the enclosed depositions.

It will be necessary to complete these forms promptly so that this permit will not be cancelled. This is required under Section 5594, Idaho Code.

Re: Permit No. 32152

Richard O. Moehrle
Uniontown, Washington

Dear Mr. Moehrle:

Under the terms of your Permit No. 32152 you are required to complete your diversion works on or before _____. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the said permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

R, KEITH HIGGINSON

State Reclamation Engineer

Re: Application for Permit

Mr. Richard O. Meohrle
Uniontown, Washington

Dear Mr. Meohrle:

Returned herewith is your application for permit to divert 0.3 c.f.s from Felton's Creek with attached check for \$5.00.

Kindly complete last part of 4. and also show the point of diversion on two maps. You only sent one map.

Under 14 you show 15 acres in SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 34, to be irrigated, however that land is not enclosed with ink lines on the map. Check the land list.

Return the corrected application with the filing fee.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer
