RE: RATE OF DIVERSION

DATE: 20-MAR-1990

=====

The Permit for this right was written for 220 head of cattle and horses using a diversion rate of 0.07 cfs. The examiner recommends a diversion rate of 0.04 cfs. There was no measurement and 0.07 cfs would be the standard amount allowed from Table No. 6 in the Field Examiner's Handbook. A recommendation is made that 0.07 cfs be allowed on the license of this right.

Dear Claimant:

The Department of Water Resources acknowledges receipt of your water right application for permit.

This office is currently in the process of advertising the application in the local county newspaper. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to the final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your receipt for the fee involved in filing this application.

Please feel free to contact this office if you have any questions regarding this procedure.
