CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The issuance of this permit in no way grants any right-of-way or easement across the land of another.
6. Domestic use is for 1 home.

Re: Appropriation Application

Dear Applicant:

The Idaho Department of Water Resources has received your Application For Permit To Appropriate The Public Waters Of The State Of Idaho and your filing fee in the amount of \$85.00 for which receipt #N-004957 is enclosed. However I regret to inform you that the application is not acceptable in its present form, so I am returning it to you to allow you to check item #3 which I have taken the liberty changing and for clarification or completion of the following:

Item #4: Since you indicate that you are planning to store water you must complete this item as indicated in the following example:

Water will be used for the following purposes:

Amt 0.20 cfs for Diversion to Storage	from 1/1 to 12/31 (both dates inclusive)
Amt 0.02 cfs for Domestic purposes	from 1/1 to 12/31 (both dates inclusive)
Amt 0.20 cfs for Irrigation purposes	from 4/1 to 11/1 (both dates inclusive)
Amt 5.0 AF for Storage for Irrigation	from 1/1 to 12/31 (both dates inclusive)
Amt 5.0 AF for Irrigation from storage	from 4/1 to 11/1 (both dates inclusive)
Amt 0.02 cfs for stock water purposes	from 1/1 to 12/31 (both dates inclusive)

The preceding example indicates that:

Water will be taken from the source and placed into storage at the rate of 0.20 cfs, this water will be diverted from January through December of each year. If a dam is to be built in the stream bed this is considered to be on stream storage and a diversion rate is not necessary.

The water will also be diverted at a rate of 0.02 cfs for domestic purposes from January through December of each year.

The water will also be diverted at a rate of 0.02 cfs for stock water purposes from January through December of each year. Since you indicate 24 head of stock you must list stock in this item.

The water will also be diverted at a rate of 0.20 cfs for irrigation purposes from April until the first of November of each year.

5.0 acre feet of the water will be stored from January through December of each year for irrigation purposes.

5.0 acre feet of the water may be removed from storage from April until November of each year for irrigation purposes.

*Let 2w/R
or Just. on

Mr. Joseph Schnell
Page Two
October 9, 1991

Item #5: You must list the total diversion rate in cfs and acre feet since storage is being applied for. The total rate of flow can not be less than the largest individual amount shown in item #4.

Item #6: You have listed a proposed well in this item, however it is not possible to file for surface water and ground water on the same application, unless the system collects both sources and conveys them together to the places of use. I have enclosed a blank application to allow you to file on the well.

Item #9: This item must be completed by listing the location of all proposed water uses to the nearest 40 acre tract. This may be done by following these steps: First insert Township (Twp.) Ranges (Rge.), Sections (Sec); next, identify each use and location of that use within the section by placing the indicated symbol in the appropriate box as shown below.

STOCKWATER = S; DOMESTIC = D; COOLING = L; FISH PROPAGATION = H;
RECREATION = R; COMMERCIAL = C; FIRE PROTECTION = F; INDUSTRIAL = I;
MINING = X; AESTHETICS = J; GROUNDWATER RECHARGE = E; WILDLIFE = W;
HEATING = G; MUNICIPAL = M; POWER = P;
IRRIGATION = (NUMBER OF ACRES TO BE IRRIGATED IN EACH 40 ACRE TRACT);

Twp.	Rge.	Sec	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
50N	04W	3	S	D	L	I	20	10	6										36

This example shows that within Township 50 North, Range 4 West, Section 3, there is Stockwater use in the NE1/4 NE1/4; Domestic use in the NW1/4 NE1/4; Cooling (L) in the SW1/4 NE1/4; Industrial in the SE1/4 NE1/4; and irrigation of 20 acres in the NE1/4 NW1/4, 10 acres in the NW1/4 NW1/4 and 6 acres in the SW1/4 NW1/4, for a total of 36 irrigated acres.

The property listed in this item must be the same property as shown on the map. If you can not complete item #9, I may be able to do so upon your request, if the required information is on the map.

Item #10: Describe any other water rights you possess, by number if possible. If none, then please so indicate.

The Application must be completed and returned to this office with any other information you deem appropriate within 30 days of the above date. Failure to communicate with this office within that time may result in the voiding of your application.

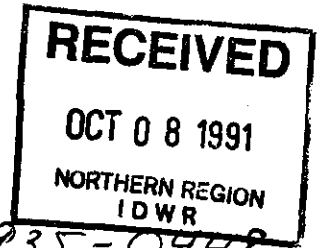

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King

Re: 81-7125

Dear Applicant:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you prior to the time the examination is made so that you may demonstrate the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Sincerely,

/s/

PROOF DUE NOTICE
RE: PERMIT NO. 81-07125

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Re: 81-7125

Dear Mr. Brawner:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned Identification No. 81-7125. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Idaho County Free Press. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to the final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your Receipt No. N160 for the amount of \$30.00.

Please feel free to contact this office if you have any questions regarding this procedure.

RE: Appropriation Application

Dear Mr. Brawner:

This office is in receipt of your Application to appropriate water from Suttler Creek tributary to The Middle fork of the Clearwater River and your check #92-155 in the amount of \$45.00. I am returning the check pursuant to our conversation and reducing the rate of flow from one c.f.s. to 0.04 c.f.s. this will result in a reduction of the filing fee to \$30.00. Please return your check for this amount as quickly as possible to expedite the processing of your permit.

If you have any questions regarding this matter please feel free to contact me at this department.

Sincerely,

Tom D. King
