CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

Dear Mr. Syron:

In regard to your question concerning the change in the water right number on Rt. 81-7103, I offer the following:

We have changed our computer system and in order for it to accept all the different numbers that we have issued, the rights with only 4 digits following the hyphen had to be modified. Thus, a "0" was added to each of the rights.

I hope that this satisfies your concerns. If not, please feel free to contact me.

RE: Permit No. 81-7103

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

Dear Mr. Syron:

I believe the enclosed application will cover the expansion of 3.3 acres you have indicated; however, it does not address any current water rights you may have to the Middle Fork. The Middle Fork rights must be filed by June 30, 1983; unfortunately, they cannot be filed on the same form as the Wilson Creek diversion.

If funding is available, we may be in Grangeville some time in February or March. That schedule is very tentative in view of the monetary cutbacks by the State.

If you need any assistance, please contact me at this office.

Dear Mr. King;

In reference to your letter of Sept. 21, 1982. I understand the difference between a Claim to a Water Right and Application for a permit, but don't seem to be able to clarify what I wanted. I was wondering if it would be simpler to apply only for application for ~~the~~ Permit and forget the claim.

I own all the land involved in this water right.

Are you going to have a man come to Grangerville again? I would go over and see him.

Box 112A, Star Route

Dear Mr. Syron:

There seems to be a misunderstanding about the difference in a Claim to a Water Right and Application for Permit. The Claim is to be filed on surface water rights which were perfected prior to May 20, 1971. An Application for Permit must be filed to create new surface water rights for water which was not appropriated prior to that time. Since we did not receive a claim with your letter of September 13, 1982, I am enclosing a claim with instructions for filing. To be of any value to the claim, the statement of Mrs. Cleghorn must be notarized, so I am returning it also to you.

I am also returning your Check No. 92-31 in the amount of \$30.00 and your Application for Permit for clarification of Item No. 9b and completion of Item Nos. 7a, 8b and 11. You state in Item No. 9b that you are the owner of the land you plan to irrigate from Wilson Creek, but in Item No. 8c you state that you may lease this land. If you do not own the land, you must show a possessory interest to the land in Item No. 9c, or the application will not be approved for irrigation purposes. In Item No. 7a, you may have up to five years to complete the new project. To complete Item No. 8b, please list the number of acres within each 40-acre tract you plan to irrigate. You can complete Item No. 11 by indicating the point of diversion and proposed irrigated acreage.

If you have any questions, please contact me at this office.

Dear Mr. Syron:

We are returning your Claim to a Water Right for completion and a \$30.00 filing fee. We are also enclosing an Application for Permit with instructions to allow you to apply for the additional water you requested since this cannot be done with a claim form. A claim is your sworn statement that a water right existed prior to May 20, 1971. You have not indicated when the right was developed, and you must do this in Item No. 1.

In Item No. 3, you must list in cubic feet per second the amount of water diverted to develop the right, and in Item No. 4 the total amount diverted. (If 10 gallons per minute was originally diverted for irrigation and that amount is still being diverted, you would state 0.02 cfs in Item No. 3 and 0.02 cfs in Item No. 4. 20 gallons per minute would be 0.04 cfs.)

STATE OF IDAHO DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Orval Syron (Name of Claimant)
Box 112 E Hooker, Ida. 83531 (Mailing Address) Telephone No. 926 7155 (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) this water was being used for many years. We have only one line here 6 yrs.
A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.
- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water) Wilson Creek tributary to Middle Fork River
- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Dear Mr. Syron:

In reply to your letter received March 31, 1963, water right No. 81-2015 in the name of Earl Cleghorn is on record with this Department in the form of a valid license.

A license is considered real property and appurtenant to the lands with ownership of the water right evidenced by ownership of the land.

We also have on record your permit No. 81-7103. Since your water rights are on record with this Department in the form of a valid license and permit, no additional filing is necessary for water used under these rights.

If you have any questions or need further assistance, please feel free to contact us.

Mr. Tom D. King
Senior Water Resource Agent
Coeur d'Alene, Idaho 83814

Dear Mr. King:

Thank you for filling out the application for
The Wilson Creek diversion.

We are supposed to have a water right on the
Middle Fork. It was issued May 27, 1959 with liscence
number 27957/81 - 2015 for 0.51 C.F.S, to irrigate 30 acres.

About five years ago, we received an application to
fill out for the Middle Fork rights. After our
attorney made two calls to Boise, Idaho to get every
thing right he was informed we didn't need to fill out
the application as we were already recorded for the
right.

I am enclosing the application signed together with
a check for \$30.00.

Thank you.
