WATER RIGHT LICENSE

License of Water Right No. 81-7067 Priority June 11, 1980 Amount 0.04 cfs

THIS IS TO CERTIFY, that Otto & Goldia Brammer & Julie A. & A. Neill Johnson
of Lenora, Idaho, has complied with the terms and conditions of Permit
No. 81-7067 issued pursuant to Application for Permit dated June 11, 1980,
and has submitted proof to the Department of Water Resources on June 15, 1981,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.04 cfs of water from Kettle Creek,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Domestic (2 units)	from <u>January 1</u> to <u>December 31</u> at <u>0.04</u> cfs and <u>2.4</u> acre feet		
	from _____ to _____ at _____ cfs and _____		
	from _____ to _____ at _____ cfs and _____		

(month dates inclusive)

Subject, however, to the condition that no more than 0.04 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
2.4 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 24, Twp.

RE: 81-7067

Dear Mr. Brammer:

We acknowledge receipt of your statement of completion of water development and use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination, however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Very truly yours,

TOM D. KING

Gentlemen:

Last week I called about water rights for my son and daughter in law, and for Mr. and Mrs. Otto Brammer. Thank you for the information, and the two applications which you sent in response to our inquiry. You stated that we should all apply for the water rights and that we should apply separately for the water right on the well and the water right on the stream.

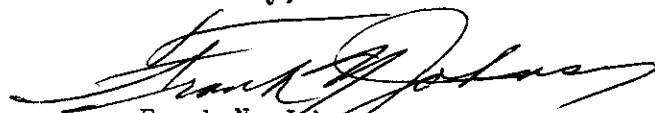

To clarify the situation- My son Mr. Neill Johnson purchased a lot from Leonard Baldeck in 1969, and Mr and Mrs. Otto Brammer purchased a lot in 1971. The brammers built a cabin in 1973, and the Johnson family subsequent to that time. Mr. Baldeck arranged so that a small diversion dam would be built of rock and plastic up the hill from the lots, and that the water supply should come from this impoundment. The impoundment holds back not to exceed 100 gallons of water, has an overflow, and is piped to the two lots. This water has been used until 1979 when a well was drilled by the parties, because of possible contamination of the spring source. The two properties are now using well water, but the stream source is still available and useful for watering shrubs, grass, and for emergency domestic use.

The parties believe that they should jointly obtain water rights both to the well, and to the stream. It is with this in mind that the applications are filed and checks enclosed. At your suggestion, I have had Mr. Brammer sign on behalf of all parties. The residence of Mr. and Mrs. Neill Johnson is in New Jersey, so it was nice of you to let us know that we could have Mr. Brammer sign for all parties. I have prepared the documents, but have given Mr. Brammer's address and telephone number in Lenore as the official address to be used on the application. If however, there should be adjustments or anything else where you need information, you might call me at my office here in Pullman, 509 334 4663 since I find that reaching Mr. Brammer can be very difficult.

The well was drilled to a depth of 100 feet last year, and yields about 10 to 12 gal per minute. I have shown in the irrigation application that we would use less than 1 acre foot, I do not know if this is accurate or the way in which you wish it stated, but it is at least an attempt to keep the format of the application.

We thank you for your help, and hope that the applications together with this letter of information will provide you all the information you need. you may make any changes in the application which you see fit or necessary, as long as they conform to the information herein. Again thank you for your help.

Sincerely,

Frank N. Johnson
