Department of Water Resources

Sirs:- (Acknowledgment of your Mar. 1-76 letter)

We have recieved approved permit for Miles H. Eagle # 7030 - Same diversion point as Mrs. J.P. Bunnell's permit # 81-7003.

This water system has been in use for two years - Fire protection and irrigation (small amount of Hardening, Lawns + pasture) which proof you have already on file for 1974.

You have full explanation (at the best our knowledge) of this arrangement on file at your office from both Miles H. Eagle's and Mrs. J.P. Bunnell's applications.

If you had sent your field man (as promised in previous letter on Feb. 10-1975) - maybe he could help to explain this situation - we're still waiting for him -

Have enclosed photostatic copies of water used in 1975 - Didn't use very much on account of our wet season - Very badly needed in dry seasons though especially for fire protection.

Hope this meets your approval
Sincerely - Miles H. Eagle

Re: Permit No. 31-7030

Miles H. Engle
Kooskia,
Idaho 83539

Dear Mr. Engle:

One of the conditions of approval of your water Permit No. 31-7030 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mrs. Bunnell:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

Please be advised that Mr. Miles Engle must apply for the five acres that he is using, since your permit does not cover these acres. This permit is for 13 acres only and therefore, Mr. Engle must fill out an application for permit for his five acres and return it to this office. We are enclosing the necessary forms for his consideration.

If you have any questions concerning the field exam, please contact our Northern District Office in Coeur d'Alene.

Sincerely,
