License of Water Right No. 81-7008 Priority Dec. 3, 1970 Amount 0.011 cfs

THIS IS TO CERTIFY, that PAUL D. & MARILYN L. HEMERICK
of Kooskia, Idaho, have complied with the terms and conditions of Permit
No. 81-7008 issued pursuant to Application for Permit dated December 3, 1970,
and has submitted proof to the Department of Water Resources on January 9, 1976,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.011 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Dear Mr. & Mrs. Hemerick:

One of the conditions of approval of your water Permit No. 81-7008 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Hemerick:

In answer to your letter of January 7, 1972, it is not required that you file on the extra water you have obtained by deepening your well, but due to the fact that the maximum quantity listed on your permit is five (5) gallons per minute or .011 c.f.s., we can only issue the license for that amount. You could, if you wish, file another application for the remaining water. We will allow .03 c.f.s. for domestic which is equal to approximately 27 gallons per minute. Therefore, you could apply for another .02 c.f.s. for domestic purposes.

If we can be of any further assistance in this matter, please feel free to contact our office.

Very truly yours,

Fred Eisenbarth

Dear Sir,

In Dec. 1970 we applied for water rights on a well drilled on our property - permit No. 81-7008. The well went dry in 1971 and we had to have it dug deeper - from 182' to 310'. We now have 25 to 30 g.p.m. flow which is a great deal more than we formerly applied for.

Our question: is it necessary to re-file?

Sincerely,

Mrs. Paul D. Hemrick

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Very truly yours,
