Dear Mr. and Mrs. Cram:

We are returning your Application for Permit and your Check No. 92-327 in the amount of \$10. From the information on your Application for Permit, we believe that it might be more appropriate for you to file a "Claim to a Water Right" rather than the Application for Permit.

A Claim to a Water Right is a statement of a water right that exists by virtue of the fact that the water has been diverted and beneficially used in the past. We have taken the liberty of preparing a Claim to a Water Right which reflects the information on the Application for Permit you sent to us. The priority date of a water right established by filing an Application for Permit is the date that the application is received in our office; whereas, the priority date of a water right recorded by filing a Claim to a Water Right is the date that the water was first applied to a beneficial use.

If it is your desire to file the Application for Permit rather than the Claim, please return it to us and we will process it with a priority date as of March 14 when it was first received in our office. Should you decide to file the Claim, please sign it before a Notary Public and return it to us along with your check in the amount of \$10.

If there are any questions in this matter, please do not hesitate to contact us.

Very truly yours,

ROBERT G. HAYNES, P.E.
