Dear Mr. Puryear:

I am returning your Claim to a Water Right along with your Check No. 92-327 for \$10. Because this Claim is your sworn statement to what uses you have made of the water, it is necessary that any changes must be made by you.

You are allowed 0.02 cubic feet per second of water per irrigated acre. This would amount to 0.10 c.f.s. for five acres. The amount of water generally used for stockwater is 0.02 c.f.s. Your pipeline under 40 pounds of pressure would probably run about 0.40 c.f.s.

If you feel these amounts are close to what you are using, please fill them in and return the Claim to our office with your check. Please contact me if there are any questions.

Very truly yours,

ROBERT G. HAYNES, P.E.

Dear Mr. Puryear:

We are returning your Claim to a Water Right for completion of several items, and also your Check No. 92-327 in the amount of \$10. We have taken the liberty of transferring the information on to another form.

Some clarification concerning the amounts claimed listed under Items 2 and 3 would probably be to your benefit. Under Item 2, you should indicate the amount of water used for each purpose. The total amount of water claimed under Item 3 should be equal to or less than the sum of all the amounts claimed under Item 2.

Please complete this information and sign the Claim before a Notary Public and return the form to our office along with the \$10 filing fee.

We have begun processing your Application for Permit, and final action should be taken on it in approximately 30 days.

If we may be of any further assistance in this matter, please contact us.

Very truly yours,

Dear Sir,

I have been trying to find a way to measure this water but so far have found no accurate way to do so.

I was wondering if you could just give me the maximum amount per acre for irrigation & what ever a $1\frac{1}{4}$ " pipe will run under 40 lbs pressure for the winter months. I run more water in the ponds in winter to keep them from freezing.

The stock water don't amount to much as I only keep about five or six head.

Hope you can figure this out for me.

Yours truly

Lloyd Puryear
