Dear Sirs:

Enclosed are dispositions and Affidavit of Publication for permits No. 30707 and 30711 as per your instructions of July 18, 1963.

We have encountered some difficulty, fiscally, in the method of payment which is set up for this work. The government is required to set up an obligation in advance for such publication. Would it be possible to make advance arrangements through your office or directly with the paper involved. Please advise us of any possibilities.

Kooskia, Idaho.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 30707. The proofs are to be made at 2:00 o'clock P.M., on the 26th day of August, 1963, before John F. Nickens, Camas Prairie R. R. Depot, Kooskia, Idaho, Notary Public.

As of this date we have mailed the Notice to the Idaho County Free Press Grangeville, Ida with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

~~GEORGE GARNER~~

Dear

Under the terms of your Permit No. _____ you are required to make proofs of completion of works and application of water to beneficial use on or before ~~Sept. 21, 1963~~.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point of points of diversion and the location of use or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A.

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.

Very truly yours,

GEO. H. CARTER
State Reclamation Engineer
