RE: Recommendation Adjustment(s)

The final license recommendations for Right 85-07624 are based on the following:

A. GENERAL INFORMATION

3. Source: unnamed stream tributary to sinks

The examiner indicates that the "spring" surfaces and flows over land through grasses into the pond. Since there are no diversion works at the spring site itself, the source is actually the unnamed stream flowing from the spring. No amendment is necessary since this is only a clarification of the source originally identified for diversion.

Re: Water Appropriation Application No. 85-07624

Dear Mr. and Mrs. Paradiso:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. State office personnel will then conduct a complete review, and you will be notified by mail of the outcome. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your source is groundwater, a separate well drilling permit is required for all wells constructed after July 1, 1987.

IF, FROM THAT WELL, YOU WILL BE DIVERTING WATER FOR MORE THAN ONE HOME AND AT A RATE OF MORE THAN 0.04 CFS AND MORE THAN 2500 GALLONS PER DAY, YOU WILL NEED TO OBTAIN A PERMIT FOR OTHER THAN DOMESTIC USAGE. THE TOTAL FEE FOR SUCH A PERMIT IS \$200.00. IF YOU HAVE ALREADY OBTAINED A DOMESTIC PERMIT, YOU WILL NEED TO UPGRADE YOUR PERMIT AND THE FEE FOR UPGRADING IS \$165.00.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
