ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 _____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

CONDITIONS OF APPROVAL AND REMARKS

1. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
2. Diversion and use of water under this right is subject to rules that may subsequently be promulgated for existing rights used for supplemental purposes.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources. Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

NOT RECORDED
APR 14 1999

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Recommendation Adjustment(s)

The adjustments to licensing recommendations for Permit 85-07619 are as follows:

H. RECOMMENDATIONS

Irrigation	3/1 – 11/30	0.16 cfs	32.0 afa
------------	-------------	----------	----------

The standard irrigation volume for this area is 4.0 af/acre; the standard irrigation season for the area is 3/1 – 11/30.

The rate of diversion is 0.02 cfs/acre (8 acres x .02 = .16 cfs).

Per a telecon with the superintendent on 1/21/99, surface water was formerly used on the acres until the well was drilled in the early 90's. It's more economical and easier to simply use the well. Condition 050 will be placed on the license.

Water is pumped from well to a storage facility. 88,726 gallons. From there the system is gravity flow. System is underground. System pressure is adequate to run approx 30 heads at a time.

I explained to Mr. Leighton that the information they supplied on their pumping records show they are over permit. I am sending him an application for the .13 over this permit.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 85-07619

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208) 769-1450.

Sincerely,

JULIE L. YARBROUGH

Subject: Water Appropriation Application for Permit Number 85-07619

Dear Lapwai School District No. 341:

The Idaho Department of Water Resources hereby acknowledges receipt of the above-referenced Application for Permit to appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number C032803. To assist us in providing you with prompt, accurate service, please refer to the above Application for Permit Number in all future matters concerning this water right application.

Your Application for Permit is currently being prepared for advertising in the local county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for submittal of protests.

If your application is not protested, it will be forwarded to Boise for processing. Normal processing time is approximately 3 to 4 months, if the application is not protested. If your Application for Permit is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before your Application for Permit can be approved. If the protest is not resolved, this Department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State Office in Boise.

If your Application for Permit is for a well (groundwater) that was constructed after July 1, 1987, you must apply for a well drilling permit upon approval of your Application for Permit if no permit was obtained by previous owners to construct the well. Well Drilling Permits can only be issued by this office to holders of approved Applications for Permit.

If I can be of further assistance, please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE

RE: Application for Permit

Dear Mr. Kachelmeier:

We are returning your Application for Permit along with Receipt Number C032803 for the amount of \$50.00, as it is not acceptable in it's present form.

Please review the following items:

Item Number 4. (Amount) You have listed, 0.50 CFS which is 224.4 GPM. Generally, the diversion rate for irrigation purposes is based on a rate of one minor's inch per acre. Therefore, the rate for 10 acres would be 0.20 CFS, or 90 GPM. We will accept a higher rate, but we'll need some explanation as to why it is necessary.

Item Number 9. (Place of Use) The 10 acres of irrigation is listed within the SW1/4 NE1/4 and the diagram shows the place of use within the SE1/4 SW1/4.

I have included a copy of a topographical map. Please mark where your well is located and outline where the irrigation will occur.

Also, please include a list of the officials and their titles for Lapwai School District #341 with your Application for Permit.

We will look forward to processing your Application for Permit upon it's return to our office.

Sincerely,

Allen Beardslee

RE: Diversion from Groundwater

Dear Mr. Kachelmeier:

Thank you for taking my call earlier this month. As we discussed, Uhlenkott Drilling reported that they drilled a well for Lapwai School District at T35N, R4W, S2, SESW, in 1992. The driller's report indicates that water from the well was intended to be used for irrigation and domestic purposes. However, I can find no record of a water right to cover a diversion by Lapwai School District from that well. According to department records, the only water right filing by the school district is Snake River Basin Adjudication claim A85-02028 for irrigation from some springs located at T35N, R4W, S4, NESE.

Since 1963, all users of ground water in Idaho except those using the water solely for domestic and/or stockwater purposes have been required to file an application with the Department of Water Resources. In your case, you may file an Application for Permit to establish a new water right. Or, if you are no longer diverting from the springs and can show a hydrologic connection between the springs and your well, you may file an Application for Transfer to change the point of diversion of right 85-02028. I have enclosed both an Application for Permit form and an Application for Transfer form for you.

I have also enclosed a brochure which provides a general overview of Idaho water appropriation law. If you have any questions not answered in the brochure, please contact me at 208-327-7946 in Boise.
