CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

RE: WATER RIGHT NO. 85-07616

Dear Water Right Holder(s):

Enclosed is a copy of the Water Right License issued on the above referenced permit. If you have any questions, please contact me within 10 days of receipt of this license.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a $100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

Shelley W. Keen

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 85-07616

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)769-1450.

Sincerely,

JULIE L. YARBROUGH

RE: Water Right No. 85-07616

Dear Permit Holder:

I am in receipt of your letter dated August 25, 1995, concerning the drilling permit, well log and license examination fee for the above referenced water right.

Concerning the drilling permit and well log, the department has not been successful in locating either, however, we are pursuing the well driller for copies.

As for the license examination fee, you state that you have already paid a total of $50.00. The $50.00 you previously paid was the filing fee for the Application for Permit to Appropriate Water. Those fees go towards advertising the application in local newspapers. The license examination fee associated with the proof of beneficial use submittal is to pay for a field examiner from our department to conduct an on-site inspection of your water right diversion to confirm use of the water. My letter dated July 21, 1995, incorrectly stated that a field examination had been submitted. I apologize for any confusion that statement may have caused.

In conclusion, the department will contact the well driller directly to obtain the drilling permit and log. However, before I can accept the proof of beneficial use, you will need to submit the $50.00 license examination fee.

If you have any questions or concerns, please contact me directly at (208)327-7953.

Sincerely,

Julie L. Yarbrough

Attn: Julie Yarbrough

Ref: Water Right No. 85-07616

Madam:

I am in receipt of your letter dated July 21, 1995 requesting additional fees and information for this water right.

You requested that I submit a drilling permit. Shelley Keen's letter dated May 25, 1995 states "if a well has not already been constructed you are required to obtain a drilling permit". The well was constructed and in service when I purchased the property so I cannot get a permit to do something that is already done. If a permit is required, you will have to obtain it from Uhlenkott Underground as they are the ones that drilled the well. I was not affiliated with this in any manner.

You requested a copy of the well log. Again, the well was in service when I purchased the property. You clearly state that the submittal of the well log is the responsibility of the well driller. Additionally, I submitted a copy of the well log with the original application for water right and, apparently, your department has lost it. I am submitting a second copy of the well log for your files.

You requested an additional $50 license examination fee. I have already submitted funds on request twice in connection with this application. A total of $50 has been submitted.

RECEIVED
FEB 26 1996

You state in your letter that you have received the field examination report. Previous correspondence states that a license examination fee is not required if a field examination has been submitted or if total stored volume is 4.0 AF per annum or less.

This water right falls under both of the above stated conditions so, obviously, no license examination fee should be required.

Attempting to obtain a water right from the State of Idaho seems to be an onerous, forever ongoing project involving continuing payments and fees. I submitted all information and fees requested on the original application and have submitted all information and fees each time additional information and fees were requested.

Yet, it seems the rules keep changing and your department keeps requesting new information and additional fees. This should not be.

I would request that you process the water right as it appears you have all the information and fees specified in the original application and subsequent requests.

Sincerely,

George Fox

RE: Water Right No. 85-07616

I am in receipt of the Proof of Beneficial Use form and field examination submitted in connection with the above referenced water right permit. Before I can complete processing of the proof, some additional information is needed.

A drilling permit is required for all wells drilled, deepened or enlarged after July 1, 1987, (Section 42-235, Idaho Code). You indicated that the well was drilled in 1994, however, I have been unable to locate a drilling permit or a well log for the well.

You will need to submit a copy of the drilling permit to the department. The well log should have been submitted by the well driller within 30 days of the completion of the well. If you have a copy of the well log, please submit that as well. If you do not, please contact your driller and ask that he submit a copy.

Additionally, there is a $50.00 license examination fee associated with the proof of beneficial use. Any fees you might have paid earlier, were not associated with the license examination fee.

Please return the requested information and $50.00 license examination fee within **60 days** of receipt of this mailing. **Please address your correspondence to my attention.**

If you have any questions or if I can be of any assistance, please feel free to contact me at (208)327-7900.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 85-07616

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

Sincerely,

Shelley W. Keen

Subject: Water Appropriation Application for Permit Number 85-07616

Dear or Mrs. Fox:

The Idaho Department of Water Resources hereby acknowledges receipt of the above-referenced Application for Permit to Appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number N008791. Please refer to your Application for Permit Number in future matters concerning this water right application.

Your Application for Permit is currently being prepared for advertising in the local county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for submittal of protests.

If your application is not protested, it will be forwarded to Boise for processing. Normal processing time is approximately 3 to 4 months, if the application is not protested. If your Application for Permit is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before your Application for Permit can be approved. If the protest is not resolved, this Department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State Office in Boise.

If your Application for Permit is for a well (groundwater) that was constructed **after July 1, 1987,** you must apply for a well drilling permit upon approval of your Application for Permit if no permit was obtained by previous owners to construct the well. Well Drilling Permits can only be issued by this office to holders of approved Applications for Permit.

If I can be of further assistance, please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resource Agent
