Department of Water Resources**WATER RIGHT LICENSE**

WATER RIGHT NO. 85-07576

CONDITIONS OF APPROVAL AND REMARKSCONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.
6. This right authorizes an annual volume of water to fill the storage facility and the amount required to replace losses through evaporation and seepage.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other:

RE: WATER RIGHT NO. 85-07576

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 10-10-1998 BY 60322 UCBAW

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 6/-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

RE: WATER RIGHT NO. 85-07576

Dear Permit Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of Conditions of Approval and Remarks proposed for the license when it is issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Enclosure

JUN 10 1997 JUN 10 1997

MEMORANDUM

TO: File 85-07576

FROM: Sharla Curtis

DATE: July 15, 1997

RE: Recommendation Adjustment(s)

The final license recommendations for Permit No. 85-07576 are based on the following:

A. GENERAL INFORMATION

3. Source: springs tributary to sinks

C. DIVERSION AND DELIVERY SYSTEM

1. Point(s) of Diversion:

SWNWNE, S11, T36N, R2W

SENENW, S11, T36N, R2W

H. RECOMMENDATIONS

Irrigation	3/1 - 11/30	0.06 cfs	8.0 afa
Irrigation Storage	1/1 - 12/31		5.6 afa
Irrigation from Stor.	3/1 - 11/30		5.6 afa
Stockwater	1/1 - 12/31	0.01 cfs	0.1 afa
Stockwater Storage	1/1 - 12/31		0.1 afa
Stockwater from Stor.	1/1 - 12/31		0.1 afa
Diversion to Storage	1/1 - 12/31	0.04 cfs	
TOTALS		0.06 cfs	13.6 afa

There are two springs identified; the source is "springs" and a point of diversion description is added for the spring located in the pond. Diversion to storage is required since the one spring is diverted to the pond. The standard irrigation season for this area is 3/1 - 11/30. The standard volume/acre for this area is 4.0 afa. The figures for stockwater and stockwater from storage are based on two horses shown on the proof of beneficial use form. Stockwater Storage component should have been listed on the application.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 85-07576

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)769-1450.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 85-07576

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1995.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 85-07576

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Sincerely,

BRENDA L. MILLER
Water Resource Agent

Re: 85-7574, 85-7575, and 85-7576

Dear Mr. and Mrs. McCormick:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application For Permit To appropriate the Public Waters Of The State Of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is not protested it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Allen Beardslee
Sr. Water Resource Agent

RE: Water Rights.

Dear Sir:

We are returning your four Applications for Permit along with Receipt Number N005607 for the amount of \$120.00.

As we discussed earlier, I have made the following modifications to your water right filings:

1. Combined the two filings associated with the diversion from the spring on Hasenoehl's property onto one Application for Permit form.
2. Listed the legal description for your well to the nearest 10 acre tract, the Place of Use to a 40 acre tract and changed the diversion rate to 0.04 CFS (18 GPM).
3. Filed a Snake River Basin Adjudication Claim to represent the historical in-stream stockwater use dating back to 06/01/1900, instead of the Application for Permit.

The fee for the Snake River Basin Adjudication Claim is \$75.00 (\$25.00 filing fee and \$50.00 late fee). The two Applications for Permit are \$30.00 each. The total filing fee is \$135.00.

Please review all of the information on these filings, make any necessary changes, sign the Snake River Basin Adjudication Claim before a Notary Public and send them back to this office with \$15.00 to cover the filing fees.

Your Application for Permit for Springs tributary to Jacks Creek will be placed on hold until the Clearwater Moratorium for new water rights is lifted.

If I can be of further assistance, please feel free to contact me at this office.

Thank you,

ALLEN BEARDSLEE
SR. WATER RESOURCE AGENT

Enclosures: 4 Applications for Permit & 1 Snake River Basin Adjudication Claim.

Dear Mr. McCormick:

I have enclosed the appropriation applications we discussed on the telephone today. Item #4 is completed differently on the pond application than is shown in the instructions.

Water will be used for the following purposes:

Amt 0.04 cfs for Diversion to Storage fm 1/1 to 12/31 (both dates inclusive)
Amt 0.08 cfs for Irrigation purposes fm 4/1 to 11/1 (both dates inclusive)
Amt 2.0 AF for Storage for Irrigation fm 1/1 to 12/31 (both dates inclusive)
Amt 2.0 AF for Irrigation fm storage fm 4/1 to 11/1 (both dates inclusive)
Amt 2.0 AF for Storage for Stockwater fm 1/1 to 12/31 (both dates inclusive)

The preceding example indicates that:

1). Water will be taken from spring A and placed into storage at the rate of 0.04 cfs, this water will be diverted from January through December of each year. Since Spring B is in the pond there is no diversion to storage from that spring.

2). Water will be taken from spring A and B and used for irrigation at the rate of 0.04 cfs for each spring. This water will be diverted from April through November of each year.

3). The water will also be diverted at a rate of 0.02 cfs for Stockwater storage purposes from January through December of each year.

2.0 acre feet of the water will be stored from January through December of each year for irrigation purposes.

2.0 acre feet of the water may be removed from storage from April until November of each year for irrigation purposes.
