CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 2 homes.
6. Stockwater use is for 8 horses and 20 range cattle.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 85-07573

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)765-4639.

Sincerely,

Karen L. Gustafson

Re: Permit No. 85-07573

Dear Permit Holder:

In your correspondence to the Department dated June 15, 1993, you indicate that the well is not being used to irrigate five (5) acres, but rather it is only being used to irrigate 1/2 acre. If that is the case, you have applied for the appropriate well drilling permit. You are also correct in that there is no license examination fee associated with a groundwater source that diverts less than 0.04 cfs.

I have begun the process to refund the \$50 license examination fee you previously submitted with the proof of beneficial use. The refund process takes between two and four weeks and will arrive under separate cover.

The Department does want to inform you that a field examination will still be conducted on your well. If the Department finds you have indeed been irrigating the five (5) acres originally applied for, you will be subject to fines and penalties at the time of the field examination. Furthermore, your water right license will only be issued for domestic use.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

RE: Permit Number: 85-07573

Gentlemen:

The Proof of Beneficial Use submitted for the above referenced permit was completed in error. The use of ground water is for domestic purposes as defined on the Application for Drilling Permit.

The irrigation proposed is only for the domestic yard which is less than 1/2 acre of land. Please delete the extent of use for irrigation of 5 acres.

The License Examination Fee Schedule indicates that a fee is not required in connection with permits which use ground water for domestic purposes. Please return the \$50.00 fee which was previously submitted.

If additional information and/or a site inspection is required, please contact me at 746-9616 during the day.

Sincerely,

WAYNE C. HILL

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is approval Date 5/9/91

If approved, this permit authorizes the constuction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

Re: Permit No. 85-07573
Drilling Permit No. 85-91-N-0010-000

Dear Permit Holder:

Enclosed is a copy of the Proof of Beneficial Use submitted in connection with the above referenced water right. It, and your permit to appropriate water (copy enclosed), both indicate that the use is for irrigation of 5 acres, domestic for two homes and stockwater. Also enclosed is a copy of the drilling permit for which you applied in connection with this water right. It indicates the extent of use to be domestic.

You were accordingly charged \$35 for the domestic well drilling permit. However, because of the use you have indicated (irrigation of 5 acres), the drilling permit is no longer considered strictly domestic. The charge for an irrigation drilling permit is \$200.

Before the Department can accept the proof of beneficial use as filed, you will need to pay the additional \$165 fee associated with the drilling permit. I will hold your file for 30 days to allow you time in which to submit the additional fee. Please submit the additional \$165 drilling permit fee directly to me.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: 85-7573

Dear Mr. Hill:

The Idaho Department of Water Resources hereby acknowledges receipt of the above-referenced Application for Permit to Appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number N005679. Please refer to your **Application for Permit Number** in future matters concerning this water right application.

Your Application for Permit is currently being prepared for advertising in the local county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for submittal of protests.

If your application is not protested, it will be forwarded to Boise for processing. If your Application for Permit is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before your Application for Permit can be approved. If the protest is not resolved, this Department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State Office in Boise.

If your Application for Permit is for a well (groundwater) that was constructed after July 1, 1987, you must apply for a well drilling permit upon approval of your Application for Permit if no permit was obtained by previous owners to construct the well. Well Drilling Permits can only be issued by this office to holders of approved Applications for Permit.

If I can be of further assistance, please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
