CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Stockwater use is for 150 range cattle.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 30th day of MAY, 1994.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 85-07546

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)765-4639.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 85-07546

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permit.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license exam fee. They are:

1. The water right must use a groundwater source.
2. The rate of diversion must be .04 cfs or less.

As you can see, you do not meet requirement #1 since you use a spring for your source. Therefore, a license examination fee of \$50 applies to your permit.

Please return the proof of beneficial use and the \$50 license exam fee within 20 days of the date of this mailing.

If you have any questions or if I can be of any further assistance, please feel to contact me.

Sincerely,

Karen L. Gustafson

PROOF DUE NOTICE

RE: PERMIT NO. 85-07546

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P85-07546

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor

Re: Water Appropriation Application #85-07546

Dear Applicant:

This department acknowledges receipt of your Application For Permit To Appropriate The Public Waters Of The State Of Idaho and your check #407 in the amount of \$90.00 for a filing fee in the amount of \$30.00 for which your Receipt #N-003523 is enclosed. A request to the accounting section for a refund of \$60.00 was made by this office on January 15, 1990. If you have not received the refund by March 16, 1990 please feel free to contact me at this office

Your appropriation application has been assigned the above referenced number, to assist us in providing you with prompt, accurate service, please refer to this number in all future correspondence.

Your application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If the application is not protested it will be forwarded to Boise, where departmental staff will conduct a more in depth review of the application, to determine if there is a need for further information that will facilitate the Directors decision on the application. You will be notified by mail of this decision.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King

Re: Water Appropriation Application

Dear Applicant:

The Idaho Department of Water Resources has received your three Application For Permit To Appropriate The Public Waters Of The State Of Idaho and your filing fee of \$90.00.

It is not necessary to file three applications for three springs within the same drainage. I have therefore prepared a new application and have enclosed it for your approval. If you wish to file the new application, please sign it and return it to this office. I will upon receipt of the application commence the process which will refund \$60.00 of your filing fee.

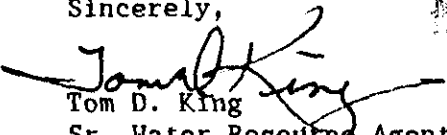

The three applications are not acceptable in their present form, so if you still wish to file all three, I am returning them to allow you to do the following:

Item #4: A diversion rate of 0.20 cfs (approximately 90 gal/minute) is considered to be an excessive diversion rate for 150 head of stock, 0.03 cfs (14 gal/minute) is recognized as being sufficient for that amount of stock. You may file for more than this amount for stock watering purposes if you wish, but it may not be approved unless you provide evidence that the excess water is needed.

The Application(s) must be completed and returned to this office with any other information you deem appropriate within 30 days of the above date. Failure to communicate with this office within that time may result in the voiding of your application.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent
