Licenses #85-7509, 85-7510 and 85-7512, and
Notices of Claim to a Water Right #85-10897 and 85-10898

Dear Mr. Stillman:

As promised during our telephone conversation this morning, the following are the results of my research:

- #85-7509 – License – Carl W. Stillman and Edgar E. Rogers
- #85-7510 – License – Carl W. Stillman
- #85-7512 – License – William C. Stillman

- #85-10897 - Recommended as Claimed – Carl W. Stillman and Edgar E. Rogers.
- #85-10898 – Has not been recommended yet – Carl W. Stillman and Edgar E. Rogers.
- #85-10899 – Decreed – Edgar E. Rogers
- #85-10901 – Recommended as claimed – William C. and Carol Stillman
- #85-11328 – Decreed – William C. Stillman et al

As I mentioned this morning, I looked in each adjudication file and each license file and did not find an ownership change. You will see at Item #8 in the instructions on the ownership change form, there is a \$25.00 fee to change the ownership of those rights which have been decreed, and no charge for those which are still pending before the court. As you can see, there is also a \$25.00 fee to change the above licenses, if you choose to do so.

Please write "attention Sally" on the envelope to ensure the ownership change gets right to me, and write your water right numbers on the map(s), pointing out your Point(s) of Diversion and Places of Use.

I have enclosed a copy of the well driller's report and the drilling permit. I wasn't sure if you had a copy of the well driller's report, but now you have both to complete your files.

If your mail delivery address changes in any form, please contact us in writing so we can update our records. Give me a call at 1/800-451-4129 if you need anything further, or send me e-mail.

Dear Donnel?

I should have got your extension # as I wrote an incomplete Fax #. I found your web site and am sending these pages now. I got the partial decrees for 85-11328, 85-10900, and 85-10899 - *missing* stamped on Dec 29, 2000 at 02:00. February 8, 2001 District Court -SRBA Twin Falls Co. The one to William and Edger had not been corrected as I tried to request in my letter of 5-21-99.

I am Faxing the 9 pages of that letter as that is still what I need to do and what I need to find out about.

I can plan a trip to the Boise area to perhaps help sort my mess out with a Roxan Brown when she can set up a date.

Sincerely

On May 23, 1990, I received a letter from Mark S. In response to this letter, I called the department on 6/11/90 and gave them the information that I had a drilling permit number 85-88-2-34 stamped received on September 16, 1988. I assumed that this completed the water right application.

PROOF DUE NOTICE
RE: PERMIT NO. 85-07510

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Craigmont, ID 83523

Dear Mr. Stillman:

Re: Permit Nos. 85-7509, 85-7510 and 85-7512

I received your letter of March 13, 1989 in which to discuss filing the proof of beneficial use forms and whether a fee is required or not.

For most uses, the department charges a licensing exam fee. This fee is determined first, by the use and second, by the rate of diversion. If the use is stockwater water only or stockwater and a single family domestic use or single family domestic use only, there will be no fee charged. If the use, whatever it might be, is 0.04 cfs (18 gpm) or less, there is no fee. For multiple single family domestic uses where the diversion rate is 0.04 cfs, there is no fee. For multiple single family domestic uses where the diversion rate is 0.04 cfs or greater, there is a fee.

I note that Permit No. 85-7512 shows three domestic uses at a rate of 0.08 cfs. For this filing, there would be a \$50 licensing exam fee. For Permit Nos. 85-7509 and 85-7510, there would be no licensing exam fees.

In answer to your question about completing the proof of beneficial use forms, you can complete and return one for any permit as soon as that project is complete. Upon receipt of the proof form, the department will notify the regional office. As soon as staff is available, a field inspection will be conducted.

I understand that you contacted our office and did not get an answer on March 13, 1989. At that time our telephone system was being converted to a new prefix. Our office number is now 327-7900. I apologize for the inconvenience.

If you have any question concerning this matter, please feel free to contact this office.
