WATER RIGHT NO. 85-07481

Priority: July 26, 1988

Maximum Diversion Rate: 0.04 CFS
Maximum Diversion Volume:¹ 1.2 AF

This is to certify, that ALEX C. SMITH
MARION B. SMITH

RT. 2 BOX 234

GRANGEVILLE, ID 83530

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated July 26, 1988; and has submitted Proof of Beneficial Use on February 8, 1990. An examination indicates that the works have a diversion capacity of .040 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.04 CFS	1.2 AF

LOCATION OF POINT(S) OF DIVERSION: SENW , Sec. 26, Township 30N, Range 03E
IDAHO County

PLACE OF USE: DOMESTIC
TWN RGE SEC

30N 03E 26 SENW

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 9TH day of July, 1991.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 85-7481, and said application is hereby approved.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before March 1, 19 90.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other: The maximum rate of diversion for domestic purposes under this permit shall not exceed 0.04 cfs.
Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

PROOF DUE NOTICE

RE: PERMIT NO. 85-07481

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

I am writing to reply about your questions
Department of Water Resources
pertaining to our WATER permit.

The WATER well is on our property. It
diverts WATER to 3 households, 2 other houses
besides our own. We are filing separate
for the diversion of water to our own household.
I understand the other 2 parties filed their
own permits.

So, yes we can reduce our domestic
USE to .04 cfs instead of .06. The
irrigation of .03 would be the same.

Hope this answers your questions.

Marion Smith.

RE: Application for Permit No. 85-07481

Alex C. & Marion B. Smith

Dear Mr. and Mrs. Smith:

We are in the process of reviewing your application for permit for final action and have a couple of questions as to the intent of the application. I am enclosing a copy of the application so you can address our concerns.

In Item 6a of the application (system description), it appears that you intend on supplying water to three homes under this water right. The same remark appears in Item 8d (description of uses). However, item 12 (remarks) implies that you are only filing for water use in one home and the other two homes would be covered under individual filings.

If you are only filing for the right to use this water in your home and one acre of land we need to clarify this on our application form. For one home, the amount of water recommended for domestic use is only 0.04 cfs and we will reduce the amount on the application to 0.04 cfs (13,000 gallons per day) if your intention is to cover only your use of the water. The total amount would then be 0.07 cfs instead of the 0.09 cfs as shown in Item 5a.

I have been trying to reach you on the telephone all week with no luck. If you could respond to my questions at your earliest convenience, it would be appreciated. Your application will be held without further action until we receive your response.

Sincerely,

KAY WALKER

Dear Claimant:

The Department of Water Resources acknowledges receipt of your water right application for permit.

This office is currently in the process of advertising the application in the local county newspaper. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to the final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your receipt for the fee involved in filing this application.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

ROBERT G. HAYNES, P.E.
