CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than 3.0 afa per acre for the lands above.

Re: 85-7465

Dear Water User:

We have recently completed processing in our office of the exam on your permit to use groundwater. Our report has been sent to our state office and you should receive your water right license in the near future. In a search of our records, we were unable to identify a well log for your well. The well driller who constructed the well is required as a condition of his driller's license to submit a log for every well he drills.

Would you please supply us with any of the following information you may have:

1. A copy of the well driller's report, if you have a copy in your possession.
2. The names of any previous owners of the property, in case the well driller's report was filed under a previous owner's name.
3. The name of the well drilling firm that drilled your well, and the name of the owner of the property at the time the well was drilled.

By providing us with as much of the above information as possible, we will have a more complete record of the pertinent items relative to your water right. Having this information in our files may prove to be of value to you or a subsequent owner.

If you have any questions, please do not hesitate to contact this office.

Sincerely,

Dear Mr. Hytholt:

Re: Permit No. 85-7465

This office acknowledges receipt of the proof of beneficial use form submitted on September 25, 1989. Enclosed is a copy of the order reinstating the permit since the proof form was received after the proof due date.

Along with the proof of beneficial use form, the department received a \$15 filing fee. For the diversion of 0.06 cfs, there is a fee of \$50. I did not receive the additional \$35 fee, so I assume you wish the department to reduce the maximum diversion rate for licensing to 0.04 cfs and conduct the field inspection. I've requested the Fiscal Section to prepare a refund. The refund should come to you from the Auditor's Office in several weeks.

The next step in establishing a water right is for the department to conduct a field inspection to determine the extent of beneficial use. Our regional office will contact you to schedule a convenient time.

If you have any questions, please contact me. If you have questions regarding the field inspection, please contact the Coeur d'Alene office at 678-4639.

Sincerely,

RITA I. FLECK

Re: Permit No. 85-7465

Dear Mr. Hytholt:

Enclosed is a copy of your proof of beneficial use form submitted to this office September 25, 1989 indicating the total rate of water use for which proof is submitted as 0.06 cfs. You indicate the water is used for one domestic and 2.5 acres of irrigation.

When the total maximum rate of diversion is greater than 0.04 cfs, a license examination fee is required to be submitted with the proof. A license examination fee based on a rate of flow of 0.06 cfs is \$50.00. Note the enclosed instruction sheet/fee schedule.

You submitted \$15.00 with your proof of beneficial use form. To be licensed for the rate of 0.06 cfs, please submit the additional \$35.00 within 30 days. If the Department does not receive the additional amount needed within 30 days, proof will be accepted, the field inspection conducted and the license issued for a maximum of 0.04 cfs. The \$15.00 will be refunded.

If you have any questions concerning this matter, feel free to contact Rita Fleck or myself.

Sincerely,

NINA K. SHIELDS

LAPSE NOTICE

RE: PERMIT NO. 85-07465

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated June 30, 1989.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 85-07465

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

RE: PERMIT NO. 85-07465

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed.

Sincerely,

Gary Spackman

Dear Claimant:

The Department of Water Resources acknowledges receipt of your water right application for permit.

This office is currently in the process of advertising the application in the local county newspaper. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to the final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your receipt for the fee involved in filing this application.

Please feel free to contact this office if you have any questions regarding this procedure.
