Re: 85-7457

Dear Water User:

We have recently completed processing in our office of the exam on your permit to use groundwater. Our report has been sent to our state office and you should receive your water right license in the near future. In a search of our records, we were unable to identify a well log for your well. The well driller who constructed the well is required as a condition of his driller's license to submit a log for every well he drills.

Would you please supply us with any of the following information you may have:

1. A copy of the well driller's report, if you have a copy in your possession.
2. The names of any previous owners of the property, in case the well driller's report was filed under a previous owner's name.
3. The name of the well drilling firm that drilled your well, and the name of the owner of the property at the time the well was drilled.

By providing us with as much of the above information as possible, we will have a more complete record of the pertinent items relative to your water right. Having this information in our files may prove to be of value to you or a subsequent owner.

If you have any questions, please do not hesitate to contact this office.

Sincerely,

Re: 85-7457

Dear Mr. Soltman:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you prior to the time the examination is made so that you may demonstrate the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager
