PROOF DUE NOTICE

RE: Permit No. 85-7435

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1987. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

NAME OF GARY R. RYNEARSON.) AND/OR CONFERENCE

On March 17, 1986, Gary R. Rynearson of Lewiston, Idaho, filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On April 14, 1986, the Department received a protest against approval of said application from Shirley M. Halleen; and on April 21, 1986, from Johnny W. and Deborah A. Rynearson, Donald R. and Laureen C. Fox, Deane Rundell, Lonny Skow and Christina A. Skow.

The Department has set the matter of protest for conference &/or hearing for Wednesday, July 30, 1986 , at 9:30 a.m., in the Brammer Building Conference Room, 1225 Idaho Street, Lewiston, Idaho. The conference &/or hearing will be held in accordance with Chapter 2, Title 42 of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

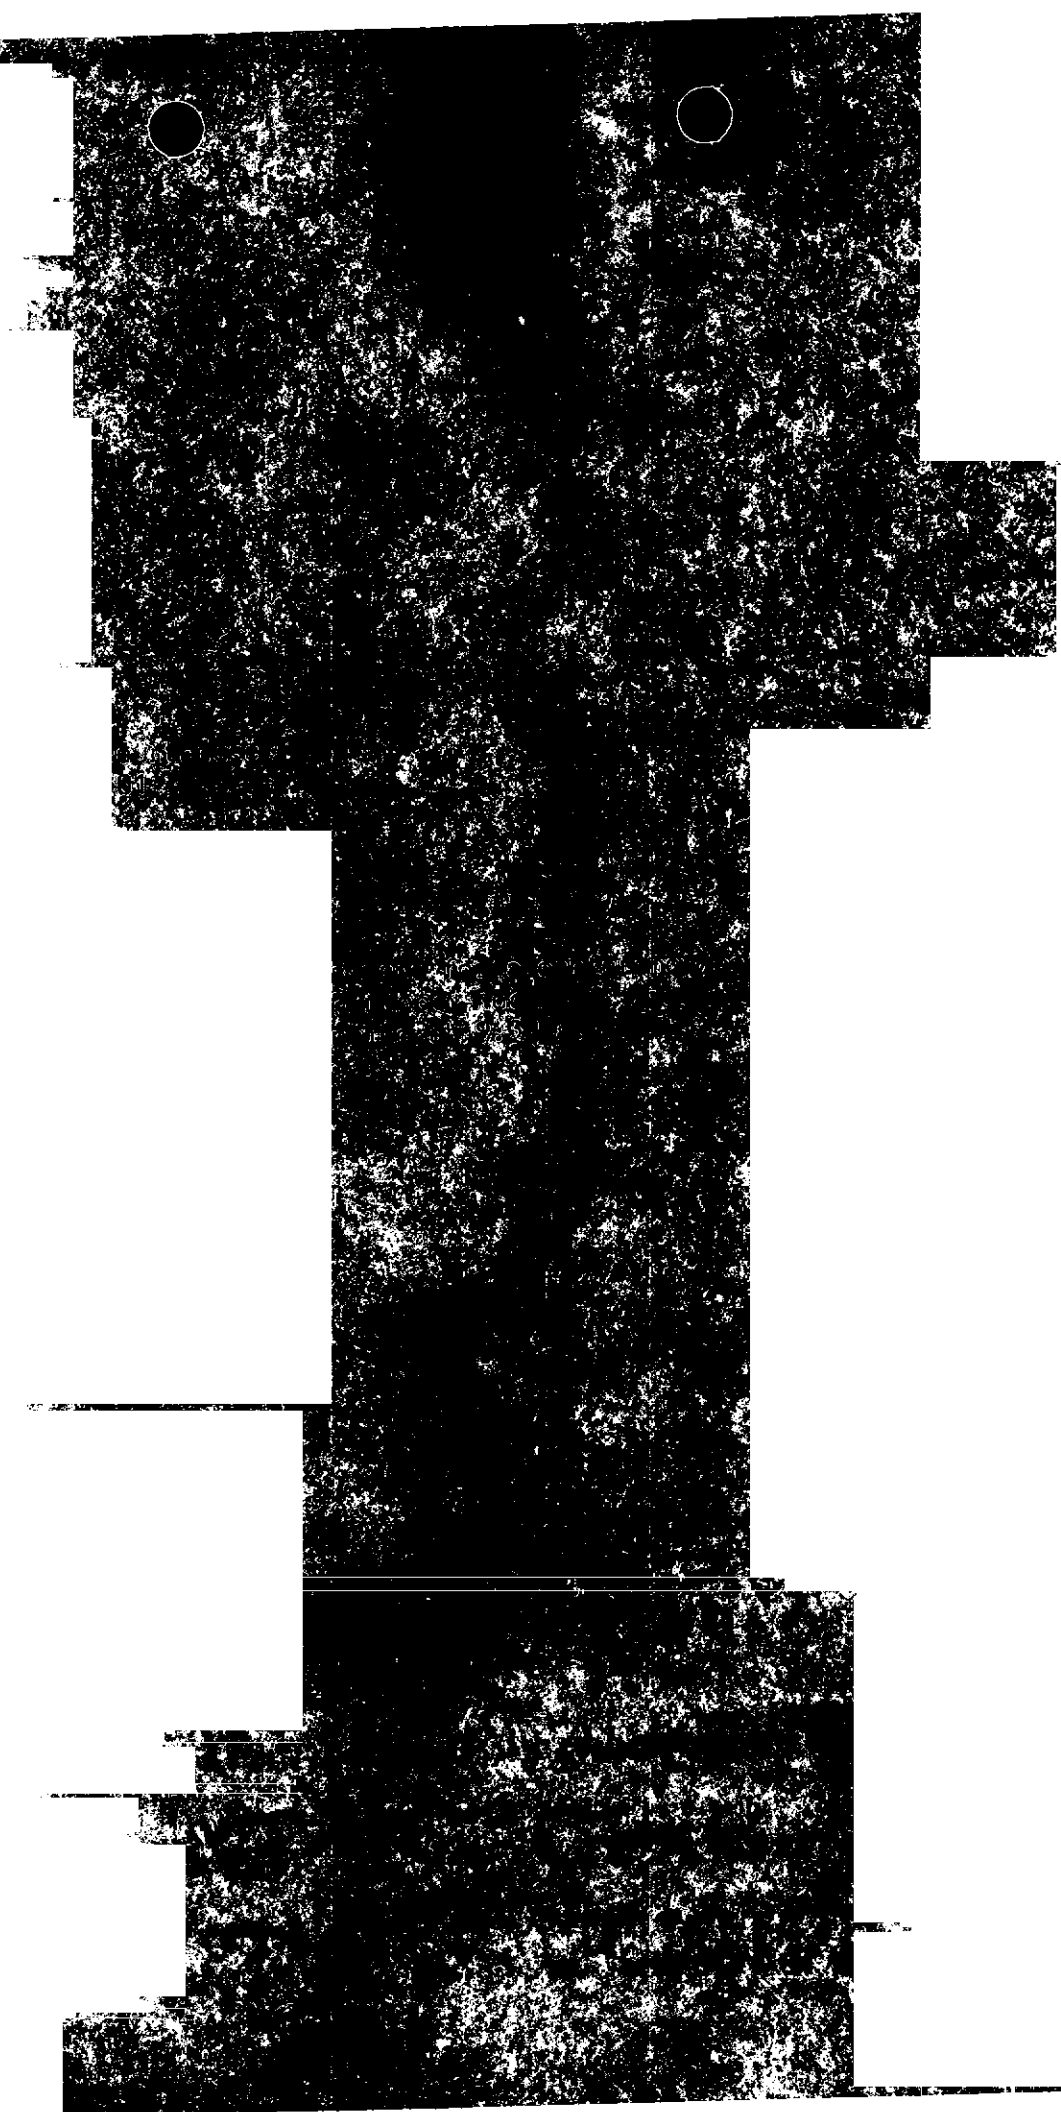

Dated this 11th day of July, 1986.

Dear Mr. Ryneerson:

Enclosed is a copy of a protest filed against the approval of a permit pursuant to the above-referenced application. The Department suggests you contact the protestants directly in an effort to determine the nature of the protest and attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

You will be notified at a later date of the time and place of the conference and/or hearing. If we can be of any assistance, please contact us.

We the undersigned do hereby protest water permit application # 85-7435, applied for by Gary R. Ryneearson, 1960 Allmon Dr., Lewiston, Idaho, NezPerce County.

If issued this permit will injure the existing water right # 85-7138, issued to Johnny W. Ryneearson &/or Deborah Ryneearson, 1932 Allmon Dr., Lewiston, Idaho, priority date established in March of 1977.

Gary R. Ryneearson already has access to this water for irrigation and his trailer home.

Gary R. Ryneearson is, at this present time abusing the water right established for this property, he has been using the domestic line from the well for irrigation of grass of his one acre, and has been doing so since March 16, 1986.

Gary R. Ryneearson is applying for more irrigation water for the one acre, than is on the original water right for irrigation of four acres.

We feel that an injustice would be done if a new water permit were granted on a well that we have had the water rights on for nine years, this water permit should not be considered.

Any response you can give us would be appreciated.

Re: 85-7435

Dear Mr. Rynearson:

Enclosed is a copy of a protest filed against the approval of a permit pursuant to the above-referenced application. The Department suggests you contact the protestants directly in an effort to determine the nature of the protest and attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

You will be notified at a later date of the time and place of the conference and/or hearing. If we can be of any assistance, please contact us.

Sincerely,

ROBERT G. HAYNES, P.E.

Greetings,

I wish to protest an application for a water right. The no. is 85-7435, applicant is Gary R. Pyneason. A permit

and a license has already been issued for the same water source.

I do not feel it proper to issue any additional permits for an already licensed water right, well, etc.
Thank you.

Re: 85-7435

Dear Mr. Ryneerson:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned Identification No. 31962. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Lewiston Morning Tribune. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to the final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your Receipt No. 31962 for the amount of \$30.00.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

ROBERT G. HAYNES, P.E.
Regional Supervisor

Dear Mr. Ryneearson:

This office is in receipt of your Application for a Permit and Check No. 92-6 in the amount of \$30.00 and we are returning same to you because the application cannot be formally receipted until the following information is provided:

Item No. 2 - Source of water and named body of water to which it is tributary. I have taken the liberty of correcting this item.

Item No. 6 - Description of diversion works - only a stockwater application can be approved without a diversion structure. Your structure is probably a well and pipeline.

Item No. 7 - Time required for completion of system and full use of the water. An application for less than one year cannot be approved.

Item No. 9a - Legal description of irrigated acreage. This item states the place of use is within the SWNE, Section 23. All other information shows place of use within the NESW, Section 23.

The fee for 0.26 CFS is \$45.00. The maximum rate of diversion for a \$30.00 fee is 0.20 CFS.

Please note that your application has been initialed and dated as being received on March 17, 1986. If the requested information is provided within 30 days of the date of this letter, your date of priority will be maintained.

Instructions for completing an Application for Permit are included for your information. If you desire assistance, please feel free to contact this office.

Sincerely,

TOM D. KING
