CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above

The examiner has recommended the addition of diversion to storage
and wildlife storage to the license. These uses were not part
of the original filing. Although wildlife storage is non-
consumptive, the addition of this use to the right would be
considered an expansion due to its year-round use vs. the
irrigation's season of use. Therefore, the license will be
issued for irrigation only and special pre-license correspondence
will suggest the filing of a new application for the storage
use.

Dear Sirs,

I have made a sincere effort and several phone calls to your office to fulfill your requirements relative to the installation of a flow measurement port. The instruction sheet you sent to me applied to pipes 6" to 48" in diameter. The largest pipe in my irrigation system is 4".

Paul Shaper, who sold me my irrigation pump spoke with Bob Haynes and suggested I enclose the information sheet relative to my pump.

On the basis of the above facts, I respectfully request a waiver from this requirement.

PROOF DUE NOTICE

RE: PERMIT NO. 85-07432

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

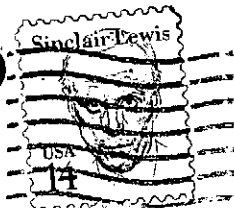

Rita Fleck
Secretary/Records Manager
