AFFIDAVIT OF PUBLICATION

Charlotte Sotin being first duly

sworn, says he is the Bookkeeper
of the IDAHO COUNTY FREE PRESS, a weekly newspaper which
is published and issued weekly at Grangeville, Idaho County,
State of Idaho, and which is of general circulation in said county
and state; that the said notice, of which the one hereto attached
is a true copy, was published in said paper for two weeks,
being published two times, the first publication being
on the 2nd day of January, 19 85,
and the last publication on the 9th day of
January, 1985; and that the said notice
was published in the newspaper proper and not a supplement;
that said newspaper has been continuously and uninterruptedly
published in said county during a period of more than seventy-
eight consecutive weeks prior to the first publication of said
notice or advertisement.

Charlotte Sotin

Subscribed and sworn to before me this 11th day
of January, 19 85.

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE
WATER RIGHT NO. 85-07426

Priority: December 26, 1984

Maximum Diversion Rate: 0.56 CFS
Maximum Diversion Volume:¹ 362.0 AF

This is to certify, that IDAPINE MILLS INC.
P.O. BOX 110

GRANGEVILLE, ID 835300000 has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated December 26, 1984; and has submitted Proof of Beneficial Use on February 27, 1987. An examination indicates that the works have a diversion capacity of .560 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
INDUSTRIAL	01/01 to 12/31	0.56 CFS	362.0 AF

LOCATION OF POINT(S) OF DIVERSION: NWSE , Sec. 13, Township 30N, Range 02E
IDAHO County

PLACE OF USE: INDUSTRIAL

TWN RGE SEC

30N 02E 13 NWSE

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The maximum combined rate of diversion under this right & Right 85-7116 shall not exceed 0.56 cfs.
6. The combined annual volume of water under this right & Right 85-7116 shall not exceed 362.0 afa.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 85-7426, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions: _____

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before March 1, 19 87.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
Return flow if discharged to a subsurface system must be authorized by a separate injection well permit, and return flow if discharged to a surface water system shall meet Idaho Water Quality Standards.

Witness my hand this 11th day of February, 1985.

85-87-Z-011

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

SPECIFIC CONDITIONS:

7. Item 3 Above is not required.
8. An amendment to water permit 85-7426 must be filed.
9. If water use in excess of 0.44 cfs is anticipated, an additional water permit must be obtained.

RE: Drilling Permit 85-87-Z-011
Water Rights 85-7426

Dear Mr. Spencer:

Enclosed is the approved drilling permit for the well you plan to drill. As indicated on the approval, the Mill must fill an amendment to the existing water right permit. Also, if you plan to use more than the 0.44 cfs indicated on the "proof of beneficial use" form you submitted in February, a new water right permit must be secured for the additional quantity.

Enclosed are the necessary forms. The amendment should indicate two points of diversion if you plan to have two wells. The fee for the amendment is \$20. The fee for a new water right permit is shown on the instruction sheet.

If you have any questions, you may contact me.

Sincerely,

JOHN E. BEAL, Manager

Dear John:

We are enclosing both a Application For Permit and an Application for Amendment of a Permit for the proposed new well on our property.

As per your phone conversation with Dick Burns today (11/20) we will have three points of diversion, but the old well (1968) will only be used in the event of an emergency such as fire.

We are enclosing a check in the amount of \$ 60.00 total, which includes \$20.00 for the amendment and \$40.00 for the new application. This \$40.00 is the difference between the original fee of \$ 45.00 and the new total of \$ 85.00.

We would appreciate your attention to this matter as we plan to start the drilling process for the new well as soon as possible. Thank you very much for your assistance in the matter.

Sincerely,

Gary D. Cash
Safety & Personnel Director

November 25, 1987

Idapine Mills
Attn: Gary D. Cash
Box 110
Grangeville, ID 83530

Dear Mr. Cash:

We are in receipt of your letter of November 20, 1987; Check No. 7492 in the amount of \$60.00; Application for Amendment of Permit No. 85-7426 and a new application for permit requesting 2.22 cfs for log yard use.

We cannot, however, accept the application for amendment so we are returning both forms and your check in the amount of \$60.00 to you.

The application for amendment of Permit 85-7426 is unacceptable because you have indicated you wish to increase the amount of water to be developed under this right from 0.56 cfs to 2.22 cfs which would be an expansion of the permit. In reviewing your file it came to my attention that you submitted proof of beneficial use for this permit in the amount of 0.44 cfs. Since your development period for this right expired in March of 1987 and you have submitted proof of beneficial use, we would allow an amendment adding the two (2) additional wells but your permit will be limited to 0.44 cfs at the time of licensing so that expansion of the permit is not authorized. We have completed a new form for your convenience and signature. The submittal fee for this form is \$20.00. You may decide to just submit the new application for permit and leave Right 85-7426 as it is.

It is my understanding, pursuant to a conversation with Mr. John Beal of our Groundwater Protection Section, that your intention for the new application for permit was to develop a system that can produce 2.22 cfs, when both rights are combined. If this was your intention and you do not amend Permit No. 85-7426, you should apply for only 1.66 cfs. If you

MICROFILMED

JUN 29 1990

Page 2

decide to amend Permit No. 85-7426, you should apply for 1.78 cfs. The filing fee for these amounts is \$65.00. There is no reduction of fee because of an earlier filing as suggested in your letter. We have enclosed a blank application form for your use. Please note that use of water for a "log yard" would be considered an industrial use and this should be identified in item 4 instead of "log yard". If you wish to file for 2.22 cfs over and above Permit 85-7426, then the filing fee would be \$85.00 for the application form.

If you have any questions concerning the above, please feel free to contact our office or our regional office in Coeur d'Alene.

Sincerely,

KAY WALKER
Technical Records Specialist

RE: Drilling Permit 85-87-Z-011
Water Rights 85-7426

Dear Mr. Spencer:

Enclosed is the approved drilling permit for the well you plan to drill. As indicated on the approval, the Mill must fill an amendment to the existing water right permit. Also, if you plan to use more than the 0.44 cfs indicated on the "proof of beneficial use" form you submitted in February, a new water right permit must be secured for the additional quantity.

Enclosed are the necessary forms. The amendment should indicate two points of diversion if you plan to have two wells. The fee for the amendment is \$20. The fee for a new water right permit is shown on the instruction sheet.

If you have any questions, you may contact me.

Sincerely,

JOHN E. BEAL, Manager
Groundwater Protection Section

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

SPECIFIC CONDITIONS:

7. Item 3 above is not required.
8. An amendment to water permit 85-7426 must be filed.
9. If water use in excess of 0.44 cfs is anticipated, an additional water permit must be obtained.

Dated this 17th day of November, 1987

John:

Dick Burns called. (Burns Drilling).
He concerned about water rights
other than 85-7426 for a well drilled
in 1968. He apparently wants to
drill a well + amend a water right.

I sent this file to Bert in hopes
he might be able to research + find
a right for this well drilled in 1968.

RE: Idapine Mills

Dear Dick:

Per your request, I have reviewed our files for Idapine and found the following:

- o Water Right Permit 85-7426 has been approved for Idapine Mills. Point of Diversion and Place of Use is the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 13, T30N, R2E. Permit was issued for 0.56 cfs (250 gpm). Idapine submitted the required proof of beneficial use form showing a rate of diversion rate of .44 cfs (200 gpm).
- o Our files have two well driller reports for Idapine. Both wells drilled by you. One well drilled in 1968 with 8-inch casing and one well drilled in 1985 with 10-inch casing. The logs report these wells are not in the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ but this may be a reporting error.
- o Our files show drilling permit 85-87-Z-009 was issued for the test well you just completed.

I understand that the existing well is not producing the amount of water the mill needs on a continuous basis.

The mill may drill a new well in the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ by submitting a drilling permit application and \$100 fee. If they plan to use more water than the permit 85-7426 allows, they should also file a new water right application for any additional flow.

The test well you drilled and the existing production well must be fully capped and will ultimately need to be abandoned. If the plan to use the proposed well and the existing production well, an amendment to their existing water right should be filed.

Sincerely,

JOHN E. BEAL, Manager
Groundwater Protection Section

ACTION OF IDWR

(☒) Approved () Denied

85-87-2-009

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

SPECIFIC CONDITIONS:

7. This permit does not represent a right to divert water.
 8. The well drilled under this permit shall not be used for any purpose other than a test well, unless approval is given by the Dept of Water Resources and the appropriate permits and fees are processed.
- Dated this 19th day of October, 1987.

RE: Permit No. 85-7426

Dear Permit Holder:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a Water Right License can be issued, a field examination must be made by a representative of this department.

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office by phone or in person.

Sincerely,

/s/
TOM D. KING

PROOF DUE NOTICE

RE: PERMIT NO. 85-7426

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF THE ABOVE REFERENCED WATER PERMIT WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE MARCH 1, 1987. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST.) ENCLOSED IS A FORM WHICH WHEN ACCOMPANIED BY THE LICENSE EXAMINATION FEE OR A COMPLETED FIELD EXAMINATION REPORT PREPARED BY A CERTIFIED WATER RIGHT EXAMINER MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION WHICH MIGHT BRING TITLE TO THE WATER IN QUESTION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER AN ACCEPTABLE PROOF OF BENEFICIAL USE SUBMITTAL OR AN ACCEPTABLE REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

SINCERELY,

RITA FLECK
SECRETARY/RECORDS MANAGER

RE: PERMIT NO. 85-7426

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

THE 1982 IDAHO LEGISLATURE ADDED A REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

WE HAVE ENCLOSED INSTRUCTIONS ENTITLED "MAKING PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT INTO A LICENSE.

SINCERELY,

DAVID R. TUTHILL, JR., P.E.
